Agricultural Exports Down From Year Ago

Washington—(U.P.)—The Agriculture Department has reported a 21 per cent drop from a year ago in the value of American farm crops shipped abroad in September.

It said \$193,000,000 worth of commodities were exported in September, compared with \$186,000,000 in August and \$245,000,000 in September last year.

Despite the September slide, the department said, total farm exports from January through September of this year showed a 2 per cent gain from the same period last year.

The report said nearly all of the decline in September this year was due to "materially reduced" exports of wheat, corn and tobacco.
