**Record Amount Paid in Taxes**

New York—(U.P.)—Americans paid a record \$90,551,000,000 in taxes to the government during fiscal 1954, despite cuts in federal taxes, it was announced today.

Stiff increases in state and local taxes sent the total take to a new high, the tax foundation explained in its "facts and figures on government finance."

Looking ahead, the foundation said "the full effect of recent federal tax cuts in fiscal 1955 may reverse the upward trend of total tax receipts for its first time since 1949."

"The average American will pay \$42.18 as his share of the interest on the federal debt in fiscal 1955," the study stated.
