Painters Discuss Insurance Program

Representatives of six insurance companies and delegates of Painters and Plasterers local unions from Oregon, Washington, and California met here last week end at the Medford Labor Temple to revise the life insurance program of the union.

The revision consolidated many small insurance programs, which each local union had as an individual group, into one program in which all the local unions participate as one group. The new program provides a cheaper rate and allows members to move from one area to another without losing longevity credit accrued in one locality.

Bert Carmichael, of the local Painters union, stated that it was also the goal of the painters union to effect a consolidation of this nature for the Health and Welfare program of the union in the near future. Carmichael said this would give the union members increased benefits.

Sheppard Denies Injuries Received In Stairway Fall

Cleveland, O. — (U.P.) — Dr. Samuel H. Sheppard denied vehemently from the witness stand today that he got his injuries after his wife's murder by jumping or falling from the stairway that runs 50 feet down a bank on his property to the Lake Erie beach.

The chief prosecutor wound up his cross-examination of the 30-year-old defendant with questions about Dr. Sam's injuries and his lying at the inquest.

Dr. Sheppard has said he got a spinal contusion and other injuries in two struggles with the big, bushy-haired man who he says bludgeoned his wife to death in the pre-dawn hours of last July 4.

"Now, doctor," the prosecutor boomed, "isn't it a fact that you beat your wife that morning . . . ?"

'No Sir!' He Says

"No, Sir!" Dr. Sam interrupted him, his high-pitched voice ringing like a bell through the room. ". . . and after you had killed her you rushed to the lake and either fell off the stairway or jumped off and got those injuries?"

Dr. Sheppard immedjately answered that the question was absolutely untrue and unfair.

Dr. Sam was off the stand at 10:45 a.m. He had begun testifying as his own star witness at 1:40 p.m. last Thursday and had been on the stand all day Friday and all day yesterday.

Ice Makes Many Roads Hazardous

By UNITED PRESS

Rainstorms in the Pacific Northwest and Eastern United States turned many highways into treacherous ice hazards early today.

The U. S. Weather Bureau said, however, that most of the rain-soaked areas had temperatures "just above" the freezing mark. Heaviest rains fell on the area from Northern Georgia to Eastern Pennsylvania and in the Upper Ohio Valley.

Light showers dotted the Pacific Northwest coastal regions.

Forecasters said the main storm center was a slow-moving mass hanging over Southeastern Georgia and moving in an eastward direction.

Charleston, S. C., and Cape Hatteras reported over two inches of rain within a 24-hour period, but most of the area got from a half-inch to two inches of rain.

Cotton Farmers Vote On Federal Controls

Washington — (U.P.)—The nation's cotton farmers voted today on whether to place their crop under federal controls in 1955 for the second consecutive year and accept a sharp outback in acreage.

Growers have never rejected controls in eight previous elections and indications were they will accept them again.

The necessary two-thirds of those voting were expected to approve the new controls even though it will mean a 15 per cent reduction from this year's acreage allotment to the smallest ever set for cotton.
