Week End Accidents Kill Five in State

Portland — (U.P.)—Traffic accidents claimed at least five lives in Oregon during the week end.

Edward Peter Luthy, 15, Oregon City, was killed Sunday afternoon when the pickup truck he was driving plunged over a 30-foot embankment into the Clackamas river two miles east of Park Place.

Klamath county's first fatality of 1955 occurred Sunday when Leroy Franklin Baldwin, 47, was struck in Klamath Falls by a car driven by Paul Henry Heofler, Bonanza, Ore.

In a third week end fatality, Ray Vern Marble, 31, of Nampa, Ia., died Saturday after a light truck in which he was riding ran off the road and overturned, 35 miles south of Baker.

Earlier Saturday two Ft. Lewis, Wash., soldiers were killed near Ontario when their truck. State police identified the victims as Pfc. Ray A. Wiebausch of Greenville, O., and automobile collided with a Pvt. John A. Diehr of Hazel Park, Mich.

School Crowding Said Most Important Issue

Washington — (U.P.) — Sen. J. William Fulbright (D.-Ark.) a former Rhodes scholar and one-time university president, today called the plight of the nation's vastly outgrown school system the most important domestic issue facing the new Congress.

Fulbright, president of the University of Arkansas before he was elected to Congress, said the problem is the result of a general neglect of education which has been "the greatest defect in our whole governmental activity." He called it "terrible" for the government to do so little to aid schools in an age of "such great technological advances."

He said the "desperate" problem of schools includes not only the need for buildings but also the need to improve the general quality of education.

McCarthy Thought Beaten by Demos In Peress Case

Washington — (U.P.) — Senator Joseph R. McCarthy apparently lost his chance today to beat Democrats to the punch in reopening the Peress case.

An aide said McCarthy, outgoing chairman of the Senate Permanent Investigating Subcommittee, left Washington suddenly Sunday night after telling him to cancel a scheduled morning meeting of the subcommittee.

The session had been called to consider questioning top Army officials about their new 10,000-word report on the honorable discharge of Major Irving Peress, a New York dentist. Peress was discharged last Feb. 2 three days after refusing to tell McCarthy whether he was a Communist. McCarthy wanted him courtmartialed instead.

To Return Wednesday

The McCarthy aide, James N. Juliana, staff director of the subcommittee, said the Wisconsin Republican did not tell him where he was going or why. He said McCarthy probably would return Wednesday and might schedule the meeting later.

However, Democrats were expected to take over control of the subcommittee Wednesday or Thursday. Informed sources said they also are anxious to have Army officials tell them the Army's version of the Peress dispute publicly and under oath, mainly because the Army delayed 11 months in disclosing the facts of the discharge.

Wire Tapping Ruled No Crime in Oregon

Eugene —(U.P.)— Wire tapping is not a crime in Oregon, according to an opinion by Oregon Attorney General Robert Y. Thornton received today by Donald Husband, Lane county state senator.

Husband was requested to ask for an opinion by Eugene Councilman George Owen and Thornton ruled that wire tapping was not illegal and that evidence obtained by law officers that way was admissible in criminal proceedings.

O&C, Forest Lands Said Under Oil Lease

Eugene —(U.P.)— Otto Krueger, Eugene District forester of the Bureau of Land Management, said he understands that a total of 51,650 acres of Oregon and California and national forest land in western Lane county is under oil and gas lease to seven different firms.

Krueger said leases had been filed along with first year rental amounting to $25,000 with the Portland office of the Bureau of Land Management.

One of the individuals, Krueger said, had taken a lease on 4000 acres in the Nelson creek area early in 1952. No more leases were taken out until Oct. 1954. Since then, according to Krueger, 30 oil and gas leases have been assigned to the area.

Krueger made it clear that oil and gas leases did not give rights to timber on the rich forest lands.

Commercial transmission of pictures by wire began April 4, 1925.
