

## On The Side

(Distributed by King Features Syndicate, Inc.)

How long does it take you to get over a common cold? Should take about a week. Many medical men think it is a mistake to try to cure a cold too quickly. Let it run its course. These physicians claim a cold is one of nature's ways of cleansing poisons out of the system and that the sufferer is in better health after the cold is over.

### Horses and Women

It is of vital importance to a young man wishing to advance his interests with a female to determine what she considers her "good points." If she features strapless evening gowns, she thinks the beauty of her neck, shoulders and back is above the average. To get off to a good start, all the man has to say is, "you really have a beautiful back." A woman fond of wearing shorts thinks she has limbs a la Dietrich. If she smiles on the slightest provocation, she is proud of her teeth or her dimples. If she winks she wants to call your attention to her beautiful, big blue eyes. If she wears low cut dresses, she thinks she has plenty of male attraction a la Jane Russell. If a beautiful female shows a tendency to discuss politics and non-fiction best sellers, it indicates she wants to be considered a brainy beauty. So don't fail to compliment this type on her intelligence. Just say to her, "what an unusual combination of brains and beauty you are. And such a wonderful sense of humor!"

### Get It Right

To say a camel can go eight days without a drink of water is giving voice to an incomplete and misleading statement. A camel cannot go eight days without a drink in the summer. His limit then is three days. In the winter he can go 10 days without a drink of water. It should be kept in mind that a camel drinks about 20 gallons of water in one gulp.

### Asides

How long does it take your charming matrimonial mate to cook a sirloin steak? How about a chicken? There is said to be an infra-red grill of Swiss origin that will cook a sirloin steak in 30 seconds, or a chicken in six minutes. . . . Portland Hoffa isn't the only person named after the city where she was born. A well known native of Walla Walla, Wash., was named Walla Walla Willie Baker.

### Please Note

What is the proper size of one drink of whisky? The Scotch figured there were 18 drinks in a quart bottle of whisky. In this country, cocktail bars and restaurants now extract around 30 drinks from four fifths of a quart of whisky. They use a seven-eighths of an ounce jigger. The profit on a highball retailed at a bar is from 200 to 500 per cent. In some places it is even higher—that is, in bars where they not only use seven eighths of an ounce jigger but also water the whisky!

### Great Lovers

Claim that bald headed men are greater lovers than those who have an abundance of hair continues to be advanced. It is not a new claim. It was first advanced by Hippocrates, father of medicine. Owing to the natural reluctance of the wives of bald headed men to discuss this matter, our Horses & Women ex-

## San Quentin's Oldest Convict Likes Place

San Quentin, Calif. — (U.P.) — Antonio DiTardo, the oldest convict in San Quentin prison, celebrated his 81st birthday today and vowed he will never leave. "I got a good job, lots of friends and a key to my own house," he said. "It would kill me to go out."

DiTardo could have gotten out on parole 10 years ago. He rejected that opportunity, as he has done ever since.

His job is tending cells in the prison's Old Spanish Cell block. He has an iron key more than a foot long to the door of his own cell. In his cell are his most cherished possessions, a 1927 model phonograph and a collection of records. He is the only prisoner to have a phonograph in his cell.

DiTardo was sentenced to hang for murdering his wife 35 years ago. However, an appeal, a new trial and a guilty verdict sent him to San Quentin prison for a life term.

### STEEL OFFICIAL DIES

Hollywood — (U.P.) — James Thimmes, 60, vice-president of the United Steelworkers of America and one of the CIO's vice-presidents, died Sunday of a recurring cerebral hemorrhage.

parts have been unable to check it. This is also true of the claim that long legged men make poor lovers.

### Famous First

In the language of flowers, mistletoe means "Give me a kiss." That, of course, you know. However, did you know that the first time Greta Garbo said, "I tank I go home," was when at the Metro-Goldwyn-Mayer studio somebody hung a piece of mistletoe on the set over Greta's head and the production supervisor, Hunt Stromberg, rushed up and kissed her?

## Mitchum Unworried Over Losing Job

Hollywood — (U.P.) — Actor Robert Mitchum was not "the least bit worried" today over being kicked out as leading man in the film "Blood Alley" and replaced by John Wayne.

"People ask me if I'm worried," the screen's hard-boiled lover said. "Should I be? I've got four pictures coming up and I can't make up my mind which one I'll do."

Warner Brothers studio announced Wayne had cut short his honeymoon in New York to replace Mitchum opposite Lauren Bacall in the cast of Batjac Productions' film. Wayne, a produc-

tion partner in the Batjac Company with Robert Fellows, was to report to location at San Rafael, Calif., today.

Mitchum was fired from the cast last week after he was accused of dunking a member of the company, transportation director George Coleman, in the ocean and also of maintaining an uncooperative attitude.
