Septic Tank Owners Take Notice

Home owners have discovered that septic tanks stop-up and overflow. Two reasons are—first, because the tanks are not cleaned at proper intervals; secondly, toilet tissue that does not readily disintegrate may clog the drains and force them to back up!

Recognizing the importance of this, MD Toilet Tissue is processed so that it absorbs water completely and quickly—gives less trouble with clogged discharge drains in the septic tank system.

Follow this plan for best insurance: Consult your County Health Department, your plumber, or a septic tank service company, for advice on cleaning your tank. Use MD Toilet Tissue!
