

Russian Weapons Tested Declared Greater Than U.S. Public Realizes

Washington—(U.P.)—The Russians have tested a greater number and variety of atomic and hydrogen weapons than the U. S. public realizes, informed sources said today.

Official American and Russian statements to date indicate that the Soviets have fired at least 11 test shots, starting in 1949 when they broke the U.S. atomic monopoly. This figure is now obsolete.

The United States has staged a minimum of 50 nuclear explosions, Great Britain three. Both this country and Britain are getting ready to conduct new tests this year.

The Russians may be, too. In any case, it can now be said on high authority that they have set off considerably more than 11 test explosions. The true figure may be double that number.

It also can be stated that the Russians have tested H-bomb reactions more than once since the only Soviet thermonuclear shot, fired on the morning of Aug. 12, 1953, which this country has announced.

The Atomic Energy Commission purposely does not announce each and every nuclear explosion in the U.S.S.R. which the United States detects. Reason: To keep the Russians guessing as to just how accurately we are keeping tabs on their atomic progress.

Tidy Boxscore Impossible
Not since the Soviet hydrogen test of August, 1953, has it been possible for non-official observers in this country to maintain a tidy boxscore on Russian tests. That explosion brought the of-

Former Longshore President Guilty

New York—(U.P.)—Joseph P. Ryan, 70, former president of the Independent International Longshoremen's Association today faced a maximum sentence of three years in jail and a \$250,000 fine for taking a \$250,000 gift from a trucking concern in violation of the Taft-Hartley act.

Federal Judge Edmund Palmieri found Ryan guilty yesterday on three counts of accepting money from Arthur Kennedy & Sons, Inc., in violation of Taft-Hartley law provisions barring acceptance of money by union leaders from management representatives.

Ryan, who headed the longshoremen for 26 years until the union was ousted from the AFL on charges of racketeering, could be sentenced to one year in prison and a \$10,000 fine on each count.

He was freed in \$2500 bail for sentencing Feb. 1.

ber, 1949, and two in October, 1951.

Since then all announcements, U.S. or Russian, have been couched obscurely in terms of "test series" instead of individually reported Soviet score to four, including one in Septem-

Ike's Handling of Formosa Situation Revives Argument

Washington—(U.P.)—President Eisenhower's handling of the Formosa situation revived an old argument today about how far the chief executive must or should go in sharing the responsibility over the conduct of foreign and military affairs.

Most Republicans in Congress applauded Mr. Eisenhower for seeking formal congressional support for whatever action he deems necessary for the defense of Formosa. But many Democrats insisted that Mr. Eisenhower already had whatever power he needs if the defense of Formosa is vital to the defense of the United States.

Responsible for U. S. Conduct
The Constitution makes the President Commander-in-Chief of the armed forces and makes him responsible for the conduct of foreign affairs, although Senate approval is needed to ratify treaties. Congress has power to raise and supply the armed forces, to legislate the regulations governing them, and to declare war.

President Truman came under much Republican fire for taking the United States into the Korean war, through the United Nations, without seeking formal backing by Congress.

The view that the President should consult Congress was displayed in the statement of Sen. Arthur V. Watkins (R-Utah) on Mr. Eisenhower's message. He said it "insures a full and open debate and collective decision of this vital problem."

Other Side Shown
The other side was shown in a 1000 word statement issued by Sen. Thomas C. Hennings (D-Mo.) who said in part:

"I believe that the President under the Constitution already has this authority, although others may contend that he does not. In any case, I am certain that if he does not have such authority, the congress cannot constitutionally give it to him except in a declaration of war, which in this case the President has clearly not requested."

Marilyn, DiMaggio Deny Reconciliation

Boston—(U.P.)—Marilyn Monroe and Joe DiMaggio are visiting Boston, but deny they're reconciled.

The screen star and the former New York Yankee slugger were spotted last night at a restaurant with DiMaggio's brother Dom, and Dom's wife, Emily.

"Is this a reconciliation, Joe?" a newsman asked DiMaggio.

"Is it honey?" Joe asked Marilyn.

"Well, just call it a visit," Marilyn said with a smile. The nine-month marriage of the couple ended in divorce last Oct. 27. Since then rumors of reconciliation have been widespread.

GLUMLY FACING PHOTOGRAPHER, these Costa Rican fliers, Walter O. Farrer (left) and Marco Tulio Naranjo, have been interned by Nicaraguan government after landing in Rivas, near frontier. At rear is guard. Nicaragua protested violation of her territory by Costa Rica airmen during revolt. (International)

General MacArthur Guest of Los Angeles

Los Angeles—(U.P.)—Gen. Douglas MacArthur was due to arrive here today as a guest of this city in the celebration of his 75th birthday and the unveiling of a monument in his honor.

The famed ex-military leader was scheduled to arrive at Los Angeles International airport at 4:45 p.m. (PST) aboard a plane from New York for his first visit to Los Angeles in more than a decade.

Tomorrow, on his 75th birthday, the general will deliver three public addresses, including a speech at the dedication of an eight-foot bronze statue of himself at MacArthur Park. His speeches were listed as non-political.

MAYBE HE HID

Chicago—(U.P.)—Eugene Johnson, 46, denied in court today that he tried to avoid payment of fines on 29 traffic tickets dating back to 1949. "I've been around all the time," Johnson told the judge. "The police just didn't see me."
