## SOC Professor Conducting Study

Ashland — A study of the practices and attitudes of primary teachers relating to speech correction is being made throughout Oregon by Leon Mulling, on leave of absence as director of the speech center and associate professor of speech at Southern Oregon college.

The study, conducted by Mulling as a part of his doctoral research at Stanford university, consists of a listening test for classroom teachers, an interview - inventory about speech

methods, and an attitude and opinion scale.

According to Professor Mulling, from 70 to 100 teachers will be interviewed and tested in the rural schools of Jackson and Josephine counties, Ashland, Medford, Central Point, Grants Pass, Roseburg, Talent, Eagle Point, Eugene and Portland.

"Classroom teachers in Oregon apparently do a creditable job of speech teaching, though many state that they have too little time for it," reported Mulling. Further results of his survey are to be reported later.

News and Notes From Camp White

By SID HOLLINGSWORTH

Two first-time occurrences have been recorded in the domiciliary office since the first of the year.

A domiciliary member, Roman Van Loan, was called for jury duty by the Jackson county circuit court for the first time in Camp White history.

The first father and son among members living at the Home are now on the admission books. Victor L. Hull, a WW I veteran, has been here for some time. His son, Eugene Hull, has just arrived from the Boise VA hospital. He was in a Jap prison camp during WW II, having been captured at Corregidor. Their home is at Caldwell, Ida.

Phillip Goss, erstwhile registrar and editor of Dominews, left here last fall headed toward South America. He has gotten as far as Zitacuaro, Michoacan, Mexico. A card from him reads: "Thought I would pencil a few lines to let you know that all is well here." He also offers the Spanish equivalent: Este paes es mucho bueno para mi.

Tommy Thompson has assembled another show for Sunday afternoon. It will be offered in the Grants Pass DAV chapter, Joey Decker's western girls band, Miss Pat's dancers, five of the accordion girls from the Prentice studio and Donna Pheister, vocalist, with her two trained dogs on the program.

The Ladies auxiliary of the Veterans of World War I will sponsor the dance to be held Monday evening, Jan. 31. The usual arrangements for transportation from the Medford bus depot have been provided. The

Camp White orchestra will play and refreshments are to be served. The musicians will include Jim Rea, piano, Ray Williams, drums, Fred Choquette and Edward Evensen, violins.

Ray Bishop, World War II veteran, is a professional artist. He was hospitalized for a while with a disability and is now at Camp White getting in condition by working in the kitchen. Ray was engaged in commercial art in Medford before coming here. His background includes a course at the Denver Art Institute and supervision of the government art program at the Cheyenne Air Force base at the close of the war.

It has been learned that his special talent in designing and illustrating for publications has been discovered and may be the means of returning him to his professional work.

Mr. and Mrs. Henry Huesman of Four Buttes, Mont., have been visiting with Postmaster Arthur Scarseth for the past 10 days. They were neighbors for many years. After visiting with their son at the Marine base at Oceanside, Calif., they plan to return to Medford with the idea of locating in the valley permanently.

# Look under the hood!

How to tell if it's a modern short-stroke engine: check the specifications of bore and stroke. In a short-stroke engine the "stroke" is as short as, or shorter than the "bore."

## Make sure you get Money-Saving short-stroke power. Only FORD has it in every truck!

**THIS YEAR**, the truck industry is beginning to follow Ford's lead to modern short-stroke V-8 engines. Shorter stroke prolongs piston ring life up to 53%. Engines last longer! You get more usable power. You can save up to one gallon of gas in seven!

But here's the big thing to remember: FORD and only Ford gives you a short-stroke engine in every size truck from Pickups to tandems—available now! Ford, most experienced builder of V-8's in the business, has four short-stroke V-8's and the industry's most modern short-stroke Six.
