

Well-Balanced Show Family of Eight Spends Much Time In Big House Trailer

Chicago — (U.P.) — The Vernon Schwenkes have a well-balanced family.

Schwenke and his wife and their six—count 'em—six children live for weeks at a time in a 21-foot trailer.

The Schwenkes are show people. Schwenke, 35, and three of his youngsters form a novelty balancing act.

Well-Adjusted Crew

They play fairs, conventions, sport shows and the like, and they've appeared with Ed Sullivan and Bob Hope.

Their living arrangements on the road might give some people claustrophobia, but the Schwenkes are a well-adjusted crew and they never seem to get in each other's way.

The close cooperation in which they live seems to carry over into their act. The kids seem to have the utmost confidence that their dad will catch and balance them, no matter how difficult the feat.

No Privacy in Trailer

The family's compact trailer has a bunk bed which sleeps four and a studio couch at the other end which sleeps three youngsters. The baby sleeps in a folding bed in the "hall."

The \$4000 trailer has a bottled gas stove and a refrigerator combined in a single unit, an oil heater, a six-volt electrical system with fluorescent lighting, running water and a special wardrobe closet.

Schwenke uses his oldest son, "Bumpy" 11, Robert, 6, and Susan, 5, in his act. Sometimes he uses the baby, 15-month-old Sandra, "when she's in the mood."

The other two boys, Steven, 10, and Jon, 8, are prop boys. Schwenke's wife, Lucille, cooks and takes care of the children, and makes the costumes.

Best of Health

"We're all in the best of health," Schwenke said. "I think it's my wife's cooking. And in the winter the kids line up each day for cod liver oil."

The youngsters are enrolled in a correspondence school which furnishes the books, paper, pencils and the like. The classes are taught by Schwenke and his wife.

Each Sunday the family at-

tends church, wherever they may be.

Schwenke, former middle-weight national amateur weight lifting champion, has been in show business nine years. He started a balancing act with the oldest boy.

As the other children arrived, the act "just sort of grew" into its present format.

The Schwenkes pull their trailer with a four-door Cadillac complete with jump seats.

When their busy schedule gives them a break, they go home to Milwaukee. There they really spread out.

Their permanent home is a \$9,000, two-story trailer with four bedrooms, a 14-foot living room and a 10½ foot kitchen.

HOW TO PREVENT WAR

Kansas City, Mo.—(U.P.)—The Eisenhower administration's Foroman policy is the one way to prevent global war, Rep. Walter Judd (R-Minn.) told Missouri Republicans at a Lincoln Day celebration here Saturday night.

TITO ADVISES WEST

Belgrade, Yugoslavia —(U.P.)—Yugoslav President Tito advised the West Saturday not to give up attempts to cooperate with Russia because of the government changes in Moscow.

Cigarette Smoking Said To Produce Action on Heart

Chicago — (U.P.) — A report by four doctors in the Journal of the American Medical Association claims cigarette smoking produces definite and immediate effect on the action of the heart.

The doctors making the report were Henry I. Russek, Virgil J. Dorset, and Burton L. Zohman, all of the U.S. Public-Health Service, and Dr. Insidore E. Buff, Charleston, W. Va.

Direct Danger Not Proven

They said evidence did not prove that smoking presents a direct danger to heart disease patients but that smoking is bad for them because of undesirable effects on the heart.

The doctors said smoking by heart disease patients appeared

to show up heart muscle weakness by blood vessels throughout the body. The "tobacco heart" patient gets a poisonous effect from nicotine, they said.

400 Persons Tested

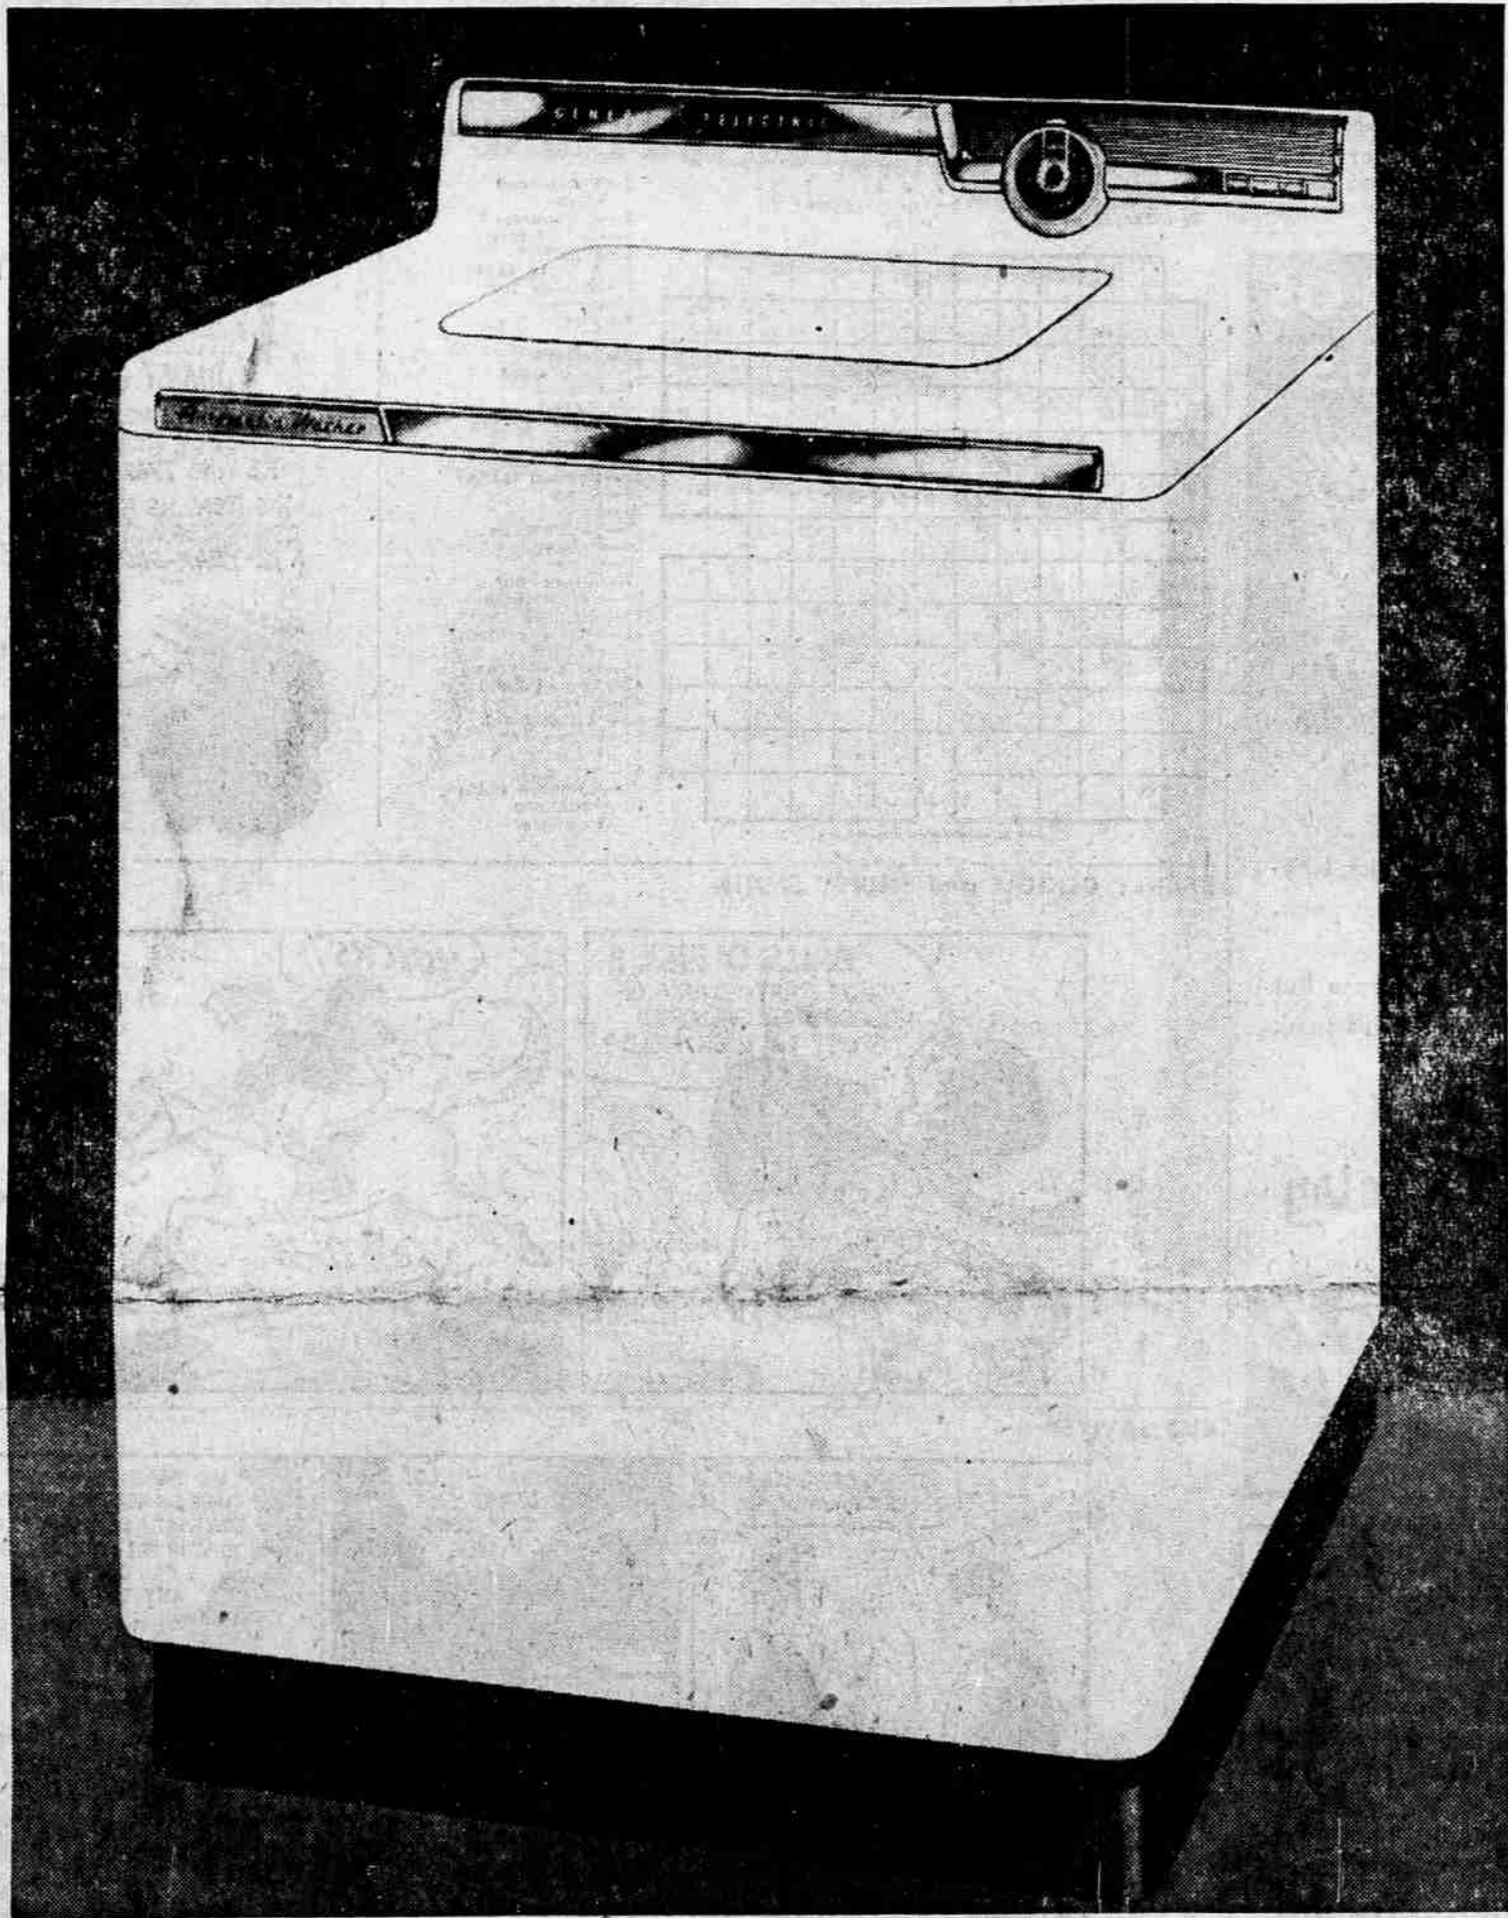

Dr. Buff said he tested 400 normal persons and found heart action changes in 10 per cent. He said he could not determine whether those who showed changes would ever develop heart disease from smoking, but believed they should stop smoking.

Timothy V. Hartnett, chairman of the Tobacco Industry Research Council, said in New York that \$1,000,000 had been appropriated to help finance independent research.

lished by large tobacco corporations, was going forward with research into various phases of the relationship between tobacco and human health.

As A Means of Introducing A Brand New Way of Washing Clothes We're Offering - - -

BIGGER TRADE-INS!

HERE'S HOW WE CAN DO IT

We have a COMPLETELY EQUIPPED RECONDITIONING PLANT in conjunction with our BARGAIN STORE at 303 South Front street where used appliances are repaired and rebuilt from the smallest working parts to shiny new baked enamel finish. Volume business plus newest equipment and know-how spells savings in this reconditioning operation. Our BARGAIN STORE makes quicker sales possible. Our savings are passed on to YOU as BETTER DEALS when you trade-in for new G.E. appliances!

Come In!

JUST WATCH A DEMONSTRATION OF THIS New GE Automatic Washer

GET A PACKAGE FREE!

CASE OF 24 PACKAGES OF TIDE WITH THE GE WASHER YOU BUY!

This GENERAL ELECTRIC Automatic Washer—

CLEANS and RE-CLEANS WASH WATER TO GIVE YOU CLEANER CLOTHES!

G.E.'s New Filter-Flo Washing System removes lint, sand and soap scum!

Here's a Dream Come True!

for every woman who has wished she could change wash water as soon as dirt and lint show up.

This new General Electric washer circulates and filters the water at the rate of six gallons per minute . . . to give you whiter, brighter clothes.

As the Filter-Flo System circulates the water, sand, settles out the bottom, soap scum floats away and lint is trapped in the filter which lets only cleansed sudsy water flow back into the washbasket.

Big capacity, too! This G-E has 50% more clothes capacity than many other automatics. You're not forever splitting a big wash into two separate loads. And the Water Saver Control lets you select any water level from 17 down to 11 gallons of water for small washes.

NOTHING DOWN!
