

Hill Says Critics Have Ruined Ike's School Aid Plans

Washington — (U.P.) — Sen. Lister Hill said Saturday that criticism by experienced educators has made a "wreck" of President Eisenhower's program of federal aid for helping states build more schools.

The Alabama Democrat is chairman of the Senate Labor committee which has been considering the President's school-construction blueprint. Hill's committee was told Friday that top educators in 37 states are critical of the plan.

"This thing is a wreck after the testimony of experienced educators," Hill claimed.

Hill, himself an opponent of the administration plan, is sponsoring a bill of his own which emphasizes outright federal grants rather than the loan programs favored by the administration.

President Eisenhower has recommended that the government put up \$1,120,000,000 — almost all of it in loans — to spur a total federal-state-local outlay of

Silverton Slaying Inquiry Bogs Down

Salem — (U.P.) — Investigation of the ambush slaying of Erwin Oren Kaser, prominent Silverton hop grower, was bogged down Saturday and police said no motive had been found for the slaying.

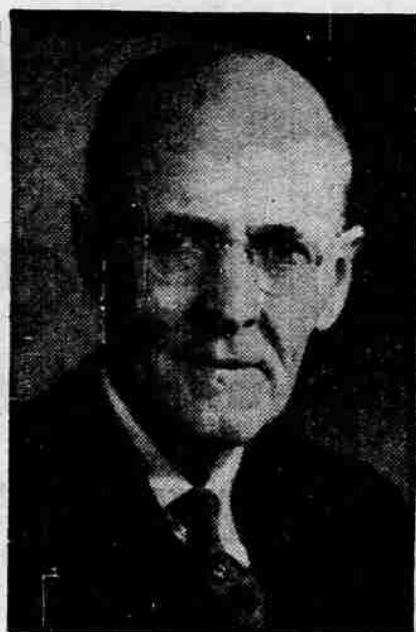

Kaser, 49, was killed by rifle fire late Thursday night as he drove into the driveway of his home, two miles south of Silverton. His slayer was believed concealed some 75 yards from the drive.

Dr. Homer Harris of the state crime laboratory ordered a ballistics test of the four .30 calibre bullets fired into the automobile.

\$7,000,000,000 on school buildings over a three-year period.

Opposition of state education administrators was conveyed to the committee directly and indirectly. Witnesses from Florida, Ohio, and California testified personally. Comments of top educators from 34 other states were read to the committee.

Portland — (U.P.) — Resignation of John Abbott as executive secretary and general manager of the Oregon Racing Commission has been accepted by Dr. Frank Menne, chairman.

Mayor Miller Sets Special Rotary Anniversary Week

Medford Mayor Earl Miller has proclaimed this week as Rotary International week in commemoration of the golden anniversary of Rotary International.

Rotary will be 50 years old on Wednesday, and a series of programs will tell the Rotary story on local radio and television stations, starting today.

The anniversary will be observed for a 13-week period from Feb. 22 through June 2, according to local President Les Taylor, who called the observance "one of the greatest events in Rotary history."

Start With Luncheon
The Medford club will kick off its observance with a luncheon at the regular Tuesday meeting in the Jackson hotel at noon. Rotary Annes will participate in the program at which Edgar Smith, Portland, will be the guest speaker. The junior high orchestra, directed by John Ragsdale, will provide the music.

About 225 persons are expected to attend the luncheon, including guests.

TV programs at 3 and 8 p. m. today will honor Rotary, as will a direct coast-to-coast hookup from the anniversary banquet room in Chicago to radio station KYJC about 7:30 p. m. Wednesday.

The anniversary will emphasize the Rotary motto of "50 Years of Service Above Self. He Profits Most Who Serves Best."

The mayor called upon the businessmen, civic organizations, churches, schools, youth clubs and organizations, and citizens at large, to "join in observing Rotary club week," in his proclamation.

He added, "the observance will impress upon those living in our community the greater good to society that results in placing service above self."

Navy Man Fatally Injured at Bend

Bend — (U.P.) — Richard C. Darst, 22-year-old Navy man home on leave, was injured fatally early Saturday when his car skidded and overturned near St. Charles hospital here after hitting a curb, police reported.

Darst died in the hospital a few minutes after the accident. He was the son of Mr. and Mrs. Ernest A. Darst of Bend and was a former high school athlete here.

Two other occupants of the car were not hospitalized. They are Larry Shaffer, 22, Bend, and Harry D. Lasater, 22, Myrtle creek.

Dead line Sunday Classified to at noon Saturday; 10 a.m. Monday for Monday; other days 5:30 previous day.

On The Side

(Distributed by King Features Syndicate, Inc.)

What's the oldest typewriter still in use? I heard of a man who has been using the same machine for fifty years. It is a Mignon typewriter made in Germany in 1904. . . Am asked what demophobia is? Means a fear of crowds. Do you know the origin of "phobia"? It is from Phobas, the god of fear.

Horses and Women
How long should it take a business girl to dress in the morning so as to be all ready to start for the office? Opinions differ widely as to this. Anyway, the bugle call for WACs is 6 a.m. They get twenty minutes to dress. Average secretary takes twenty-five minutes. Receptionists take half an hour. Latter are slowest dressers among business girls.

Get It Right
The first name of that hatchet swinging reformer whose last name was Nation is repeatedly spelled "Carrie." That's wrong. Should be Carry. That is with a "y." Her maiden name was Carry Amelia Moore. Most of her campaigning took place in Kansas but she was born in Kentucky. Her first husband was Dr. Charles Floyd, her second was David Nation. She obtained a divorce from Mr. Nation after twenty-four years of marriage.

Brevity
What was the best speech you ever heard? How long did the speaker talk? Edward Everett was chosen principal speaker for the dedication of the Soldiers' Cemetery at Gettysburg, Pa., in 1863. He talked for one hour and fifty-seven minutes. His speech was forgotten. Then Abraham Lincoln arose and spoke for barely five minutes. His speech was that masterpiece of brevity, the immortal "Gettysburg Address."

Wives
If the tip of a couple is below par don't blame the husband. It is the wife who decides the size of the tip. So says a Boston waitress of twenty years' experience. . . Is reported all the blessed events of a young matron of California, who has four children, have been Caesarean births. Quite unusual but still not the record. A Kansas woman has had five blessed events, all single births, by the Caesarean method.

Sidelights
One of my favorite kinds of cake is upside down cake. How does your charming matrimonial mate handle this delightful dessert? . . . As to what constitutes a shapely leg no greater expert ever lived than Flo Ziegfeld. He

By E. V. Durling
stated the measurements of the "perfect" leg should be as follows: ankle, 8 1/2 inches; calf, 12 1/2 inches; thigh, 19 1/2 inches.

Blessed Events
Let Texas, or even Brooklyn try to top the following blessed event record. A California woman had three sons, each born sixteen years apart. That is, she became a mother at the age of 17, again at 33 and again at 49!

Asking
Queries from clients. Q—Will you admit that ice hockey is the world's fastest game? A—Certainly not. The world's fastest game is jai-alai. Q—What is your suggestion for the name of boy and girls twins? A—How about Adam and Eva? Q—I claim the Great Dane is not a Danish dog and is a breed rarely seen in Denmark. How about this? A—You are right sir. The Great Dane is a German breed but don't ask me how it got its name.

Please Note
Ethel Levey, when starring in musical revues in London, was one of the world's leading fashion plates and quite a style setter. She originated so-called "costume jewelry." Too bad she couldn't have patented the idea. Ethel has a highly original mind. As a musical revue star she originated the idea of singing a lively song with arms outstretched. This method of delivery was copied by Al Jolson and was a major factor in his success in putting songs over.

Cadillac

The Story that Silence Tells!

You'll probably never hear a 1955 Cadillac! It is so wonderfully quiet in operation that you can detect only the soft whisper of the wind . . . and, occasionally, the pleasant song of the tires on the pavement.

Insofar as the car itself is concerned, there is only—silence!

But listen, if you will, to the remarkable story this silence tells about the "car of cars."

"Here," it says, "is a mechanism so flawlessly designed and so faultlessly engineered that every component performs with absolute perfection.

"Here is truly scientific styling—so basically good and sound that there is literally no noticeable resistance from wind or road.

"And here is craftsmanship so superb and so painstaking that not a trace of vibration can be heard."

And how eloquently it speaks of the satisfactions of Cadillac ownership!

It testifies to the rest and relaxation to be found at the wheel. It promises peace of mind . . . and greater driving safety. And it pledges dependability — and endurance—and economy of operation.

Clearly, no one can tell the Cadillac story as well—or as convincingly—as the car itself!

And if you haven't as yet "heard" this remarkable story, we hope that you will accept our invitation to come in and spend an hour at the wheel.

You'll agree, we're certain, that the 1955 Cadillac is its own best spokesman!
