Hollywood — (U.P.) — Hollywood's being glamorized with a \$9,000,000 facelift to give the tourists something to see when they flock to Movietown.

There are Hollywoods. One is the state-of-mind Hollywood — the entertainment world that includes a sprawling area of suburbs of this area where celebrities work, play and live, from Bel-Air to Burbank.

Then there's the small area actually designated by the Post Office as "Hollywood." Just Main Street

"The tourists go to that physical town of Hollywood, expecting to see something romantic and glamorous, but it looks like Main Street in any other town," explained Lorne Pratt, secretary of the Hollywood Chamber of Commerce, who's in charge of the rejuvenation.

In recent years the town of Hollywood has become seedy and unfashionable and tourists saw fruit and juice stands, surplus stores and aging buildings.

But property owners and the radio, TV and movie industries have banded together to bring the town of Hollywood back its legendary glory.

Remodeling Job Blueprinted An architectural firm, Pierera and Luckman, has blueprinted a remodeling job for the entire community that will give it, at least, the most glamorous trash-cans and newsstands in the country.

First the sidewalks on Hollywood Boulevard will be inlaid with blue stars bearing the names of 4,800 movie, television and radio celebrities from the past 50 years. The newsstands and trash cans will be of contemporary design and blue, yellow and tan—"California colors"—says Pratt. Star-shaped street signs will be posted at each corner. If the city approves new street lights will give the boulevard the illusion of glittering stars.

In future years, if the budget holds out, plastic canopies will be placed over the sidewalks and trees on the curbs. A huge metal arch also is scheduled to hang over the famous corner of Hollywood Blvd. and Vine St.

The TV-radio networks, film studios, hotels, nightclubs and restaurants are pitching in to operate a "Hollywood Tourist Bureau" to handle tours and broadcast tickets for visitors. The movie studios also plan to open a "Movie Museum" where for the first time tourists can see props, cameras, movie sets and mementoes of motion pictures.

Property owners are giving Hollywood a "new look," too. Capitol records are nearly finished with the first ground of office building near Hollywood and Vine. Three hotels have been remodeled. Max Factor plans to build a new cosmetic factory in the area. Even the old Hollywood Hotel is due to be torn down and replaced by a new hotel and office building. Millionaire Huntington Hartford's new legitimate theater already lives up Vine St.

By ALINE MOSBY United Press Correspondent

Washington — (U.P.) — What's new in Washington: Sen. Robert S. Kerr, the Oklahoma Democrat, has made a bundle peddling oil. The other day he woke up with the cold shakes—no oil heat. He called the oil people. Get a bunch of oil experts up here in a hurry. A lot of experts showed up, pronto. There was a huddle and a quick decision. The senator was out of oil.

Harman Nichols is here in a hurry. A lot of experts showed up, pronto. There was a huddle and a quick decision. The senator was out of oil.

Ralph R. Roberts, clerk of the House of Representatives, has received 25 goose quill pens from a man named Lewis Glaser of New Haven, Conn., who claims to be the only fulltime quill pen-maker in America. Glaser, correctly, suggests that the quill played an important role in our history, and he would like to see every desk of every congressman and senator decked out with one. Roberts had to write Glaser a thankie note and tell him that he had little to do with what kind of writing implements the members use.

Here is good news for Army recruits: Picture windows soon will be standard equipment in field tents, "which will have at least one of the features of a modern, well lighted home." The gimmick, according to the Quartermaster Corps, is a huge vinyl-film window, admitting

light and wearing screens that also keep out enemies like mosquitoes. The lovely Oveta Culp Hobby, only girl member of the Eisenhower Cabinet, got some high praise. Mrs. Hobby, the secretary of Health, Welfare and Education, was under fire from members of the Senate Labor Committee on the administration's school program. Sen. George H. Bender, the Ohio Republican, noted that critics claimed Mrs. Hobby, "buffaloed" President Eisenhower into the program. Sen. Matthew M. Neely, the West Virginia Democrat, said he resented any lady, particularly Mrs. Hobby, being compared to a buffalo. Mrs. Hobby, said he, "has the voice of a nightingale and the face of a Bird of Paradise." Mrs. Hobby pushed like a nightingale.

Old chivalry apparently still abounds in Washington. During the recent snow storm, a gent, obviously a biggie since he wore a Homburg, caught up with a cold and travel weary woman. Both tried to board the bus at the same time. Said the gentleman: "Be my guest, madam." "No thanks," replied the lady, "I have my own bus token." And there went what was left of chivalry.

DRIVE CAREFULLY Lodi, N.J. — (U.P.) — A drive-in theater on busy Route 46 Monday posted this sign: "Please drive carefully — the life you save may be one of our spring customers."

Hollywood — (U.P.) — Television star Jack Webb admitted today he and his bride, Dorothy Towne, had their first quarrel which ended with her flying to Mexico City with her mother-in-law.

But things were patched up in a few days via the long distance telephone, Webb said, and he expects Miss Towne to return today.

Webb blamed the tiff on frayed nerves and his heavy work schedule. "The change did us both good," he said. "I was working long hours and we got to snapping at each other."

The couple were married a month ago. Policeman Proves Point; Man Has Car Repaired

Concord, N.H. — (U.P.) — Paul Nadeau, 24, handed the speeding ticket back to Patrolman Worthen Muzzeay. "Impossible," said Nadeau. "This car can't do 50 miles an hour."

So Muzzeay hopped into Nadeau's automobile and Nadeau got into a cruiser with another officer. And away went the vehicles—well over 50 miles an hour.

Nadeau accepted the speeding ticket without argument, then took his car to have the speedometer repaired.

Husband's Father Is Bad Influence On Him Much has been written about men who remain "Mama's boys." A "Papa's boy" can be just as bad.

(Q) "My husband is a 'Papa's boy' He is always running home to his father when he gets in debt to borrow money. Twice he got into trouble with the law and his father came to his rescue. I don't think his father is a good influence. He likes to drink and play around with women."

When my husband goes over to see his father, I am sure that they go out to drink and I am sure that he doesn't sit quietly while his father chases women. When I say anything to him about this he gets angry and tells me that it is none of my business. How can I get my husband away from his father's influence and make a man out of him?"

(A) The tie between your husband and his father is very strong and will not easily be broken. Undoubtedly, your husband looks upon his father as a "hero" and is trying to imitate him.

I agree that the father is a bad influence, but I am afraid you could never convince your husband of this. Even if you manage to get your husband to take a job far enough away from his father to break the contact, you could not erase from his mind the pattern of behavior he has learned from his father

By ELIZABETH HURLOCK, PH.D.

and which he believes is the way a man should act. Your one hope of keeping your husband away from his father as much as possible is to try to have a busy enough social life with young couples that there will be relatively little free time for him to go to see his father. This will take time, effort and money, but it is worth the sacrifice if it does the trick. (COPYRIGHT 1955. GENERAL FEATURES CORP.)

But to mass produce millions of washers and dryers, manufacturers must be able to sell them by the millions. Only by advertising can a manufacturer talk to millions of people at one time.

ADVERTISING TELLS the story of new home appliances ... and helps sell them. The more it sells, the more must be made—keeping the production lines and the jobs going. The result: newer, better home appliances at prices more people can afford to pay. Advertising helped make the difference—in home appliances, and in our American way of life.
