

LIKE HIS DADDY USED TO DO—Usue Takeo of Tokyo is not exactly climbing the rigging but he illustrates how he kept in trim aboard the SS President Wilson during trip across the Pacific to San Francisco. Takeo is a "tight rope" walker and opens with a circus this spring in New York's Madison Square Garden.

On The Side

'Tis never too late for delight,
my dear,
And the best of all ways
To lengthen our days
Is to steal a few hours
From the night, my dear.
—Thomas Moore.

Who is the world's most beautiful woman? Paul Hesse, an outstanding authority on the subject, gives Elizabeth Taylor that rating. Cecil Beaton, another recognized expert on feminine pulchritude, says Greta Garbo is the No. 1 beauty. I am inclined to agree with Mr. Hesse. In any event, Elizabeth Taylor is the greatest beauty I have seen so far. Is she a great actress? Not yet. She may become one. If and when she does it will be quite an achievement. So far, in the history of the drama, there never has been a truly great beauty who was also a truly great actress.

Asking

Queries from clients. Q. Was John MacCormack ever co-starred with Geraldine Farrar at the Metropolitan Opera. A. John and Geraldine appeared together at the Metropolitan in "Madame Butterfly." Q. Where did you spend the first year of your married life? A. At Grand View-on-the-Hudson, near Nyack, N. Y., one of the most beautiful spots in the world.

Briefly

The first electric sign on Broadway, now known as The Great White Way, was put there by a Brooklyn organization. It read: "Manhattan Beach. Swept by Ocean Breezes." . . . How rapidly can you recite the alphabet backwards? If you wish to be rated a fast thinker, you should do it in less than a minute without making an error. Have your wife time you. . . . One of the reasons the coffee is so bad in so many restaurants and at lunch counters is because it is boiled too much.

So They Say

Aquarius (Jan. 20-Feb. 19) women are usually poor cooks. Best women cooks of the zodiac are those born under Scorpio (Oct. 23-Nov. 22). But if you come home late to dinner the

Scorpio woman is likely to fly into a rage and throw a frying pan at you. Or, so say the stargazers.

Please Note

Thomas Edison was 23 when he sold his first invention. It was a stock ticker. He received \$40,000 for it. At that time the dollar had three times the purchasing power it has today and there was no income tax.

On the Beach

To look all right in a bathing suit a woman's waist line measurement should be ten inches less than her bust or hip measurement. That is, a female with thirty-five inch hips, who aspires to be a beauty, should have a 25 waist.

Sidelights

Again note the Taj Mahal referred to as an example of the "art of India." The Taj Mahal was designed by an Italian. . . . In Las Vegas, Nev., by requesting the "special urgency ceremony" a couple can be married in three minutes and fifty seconds. . . . The reason really intelligent women rarely go hatless is because they know the face is what first attracts the male eye, and therefore should be properly framed.

Asides

Among the depressing aspects of life behind the Iron Curtain is that the mutual take of the Russian race tracks is 40 per cent. . . . It was none other than Philip D. Armour who observed, "Anybody can cut prices but it takes brains to make a better article." . . . Note it said that Paul Robeson introduced the song titled "Ol' Man River." That's wrong. It was introduced by Jules Bledsoe in the original "Show Boat."
