ON THE LAM

Kennewick, Wash., — (U.P.) — A German police dog borrowed by Yakima County sheriff's officers to help them track a fugitive proved to be of no help. The animal jumped out of a window of a sheriff's patrol car and ran away.

PUTTING EVERYTHING he has into punch, Billy Graham (right) lands solid right to jaw of Chico Vejar as Vejar counters with right to Graham's stomach in Garden feature. (International)

Bobby 'Through Babying' Ankle

Bradenton, Fla. — (U.P.) — Outfielder Bobby Thomson, disgusted with the conflicting reports about his broken ankle, decided today to give it the supreme test during the spring exhibition season.

"I'm through babying it, so I'm going to find out for myself whether it's all right," he declared. "I'm sure it is, so is the doctor, the trainer and everyone else who knows anything about it."

Thomson, who broke the ankle sliding into second base during a spring exhibition game in 1954, said the conflicting reports started when, a few days before spring training opened, he said it was too early for him to tell exactly how it would be.

"I didn't mean to imply that it wouldn't be all right," he said. "I was just being careful in what I was saying. I didn't want to go out on a limb and say it was all right unless I was sure. So I was cautious. As a result I've seen all kind of reports that I'm not satisfied with how my ankle is coming along."

"On the contrary, I'm sure it's all right."

Pung Says Win Came on Tees

Jacksonville, Fla. — (U.P.) — Jackie Pung, the Hawaiian housewife-golfer, today attributed her victory in the Jacksonville Women's Open tournament to her long-distance tee shots.

Mrs. Pung, who now plays out of Cincinnati, depended almost entirely on her driving game Monday as she completed the 72-hole tournament in 297, one stroke ahead of Mary Lena Faulk, Patty Berg and Fay Crocker.

Shooting steady golf all the way, Mrs. Pung matched men's par of 72 in her final tour around the local Hyde Park golf course. At the conclusion, the happy winner called her driving "the best it's been this year."

SPORTS

Ike Waltons Favor License Fee Changes

The board of directors of the local Izaak Walton league took two important actions last night designed to improve the tourist fishing industry.

The group approved two pending bills in the Oregon legislature: HB 462 which would permit the state to issue one-day salmon fishing licenses for \$1, and HB 463 which would reduce the present non-resident fishing license from \$15 to \$10, the same as California, according to President Paul Weiland.

In other fishing law actions, the local board approved house passage of HB 460 and HB 461. The first bill involves elimination of fish derbies, particularly for salmon and steelhead. The other limits the amount of importation of salmon to the state, which would, in effect, prevent off-shore fishing beyond the three-mile limit in excess of the state's daily bag limit, Weiland said.

The board announced it will act as host to the third quarterly meeting of the state directors of the Waltonians set for July 16 in the Jackson hotel. Representatives from all over the state will attend the meeting, the president added.

Elk Trail Wins Volleyball Toga

Elk-Trail won the county grade school girls' volleyball tournament at Lone Pine last week by defeating Lone Pine 22 to 21 in an overtime and then bouncing Oak Grove 30 to 11.

Lone Pine took second with a 29 to 3 win over Oak Grove. The Grovers got third.

Shady Cove took first in the consolation bracket by nipping Howard 17 to 16 and 35 to 18 from Applegate. Howard tripped Applegate 24 to 18 for second and that gave Applegate third.

Phoenix, Eagle Point and Jacksonville took part.

Top Women In Tourney

St. Augustine, Fla. — (U.P.) — Some of the nation's leading distaff golfers teed off today in the qualifying round of the Florida East Coast Amateur championship.

Heading the strong field were national champion Barbara Romack of Sacramento, Calif., who has failed to win a single tournament on the current winter circuit, and Mrs. Grace De Moss Smith of Corvallis, Ore., the tournament's defending champion.

Eden Outlines British Position

London — (U.P.) — Foreign Secretary Anthony Eden said today a Formosan cease fire and withdrawal of the Nationalist Chinese from the offshore islands could pave the way for consideration of Red China's entry into the United Nations "at an appropriate stage."

He added that the United States already has given "positive proof" of its desire to "relax tension and reduce the risks of war" over Formosa.

Eden outlined Britain's latest position in a major statement to the House of Commons 48 hours after he returned from a 16,000-mile trip to the SEATO conference at Bangkok.

He said the Churchill government supports a three-fold program to pave the way toward peace.

Main elements, he said, are to create conditions "which would put an end to active military hostilities in the area," continuation of the Chinese Communist restraint in withholding any attack on Quemoy and Matsu, and a Chinese Nationalist withdrawal from the coastal islands.

Crisis in Boy Scout Work Told; Increase In Membership Cited

A crisis in Boy Scouting in this area is approaching, N. H. (Duke) Gladfielder, Big Pines district commissioner for the scouts, told the monthly meeting of the district committee last night.

He said that a large number of Cub scouts are approaching graduation into the scouting program, and that the present number of troops would be filled beyond capacity. There is a particular need for adults who can do merit badge counseling, Gladfielder said, in discussing the "desperate" need for new troops and adult workers.

Good Condition

Despite this need, Scout Executive Cliff Hanson reported, the scouting movement in general in this area is in better condition now than it has been for quite a few years. Work of the caliber displayed by local adult leaders will make for further improvements, he said.

Hanson discussed the fund drive to be conducted in the area outside of Medford, Talent and Ashland, where organized fund drives have already been conducted. Hanson explained that the total area scout budget is \$36,000, or about \$10 for each of the 3,600 boys in the council. But, he said, this amount has not been raised for several years, and as a result services have been curtailed.

Camp Reservations

Reservations are now being accepted for summer camp at Camp McLoughlin at Lake O' Woods, it was reported by Camping Chairman Eugene Peterson. The camp season will be from July 10 to Aug. 14, with five week-long periods of intensive scouting training as well as sports and a full program of planned recreation.

John Patton, reporting for the leadership training chairman, said a full training program has been outlined for the next few months, including a scouts' basic training course, starting March 10 at 7:30 p.m. in the housing authority center; a Cub scout "pow-wow" at the Junior high school on March 27; and

Atomic Attack Signals Agreed

Battle Creek, Mich. — (U.P.) — The United States and Canada have agreed on new warning signals to be used in case of enemy atomic attack.

Civil Defense Administrator Val Peterson said the new system becomes effective immediately. There will be two warning signals:

1. The alert signal: A steady blast of three to five minutes.
 2. Take cover signal: Wailing tone or series of short blasts of three minutes duration.
- In most target areas, Peterson said, the alert signal will indicate evacuation of the area. In most non-target areas, the alert signal calls for Civil Defense forces to mobilize.
- The agency published a list of U.S. target areas several months ago. Mostly they are the nation's larger cities and industrial areas.
- Local Civil Defense authorities will notify community residents whether to prepare for evacuation or prepare for mobilization in case of an alert.
- Peterson said that if the take cover signal is sounded, attack should be considered imminent.
- If the warning is sounded, Peterson said, emergency instructions will be broadcast over "Conelrad," the emergency radio communications system.

HONGKONG MEMORIAL

Hongkong — (U.P.) — A war memorial dedicated to the officers and men of the Commonwealth Land Forces who sacrificed their lives in the 1939-45 war in the defense of Hongkong has been unveiled in this British Crown colony.

WOMEN WIN AT FORTUNE!

The big winners last week at FORTUNE SERVICE STATION were all women. Shown above are, left to right, Mrs. Charleen Pardee, who won a Hamilton Beach Vacuum Cleaner, Mrs. Ella Lane, who won \$65.00 Cash Jackpot, and Mrs. John Garner, who won the beautiful Hotpoint Range from City Appliance Co. The Ladies are inspecting the new '55 Ford Club Sedan on display at FORTUNE STATION, South Central and South Riverside, which is given free every 60 days. This Ford will be awarded April 28th.

New Britain, Conn. — (U.P.) — The parents of a little boy sued the city for damages resulting from the loss of his two front teeth when he fell from a bicycle on an oil-slicked street.

Soviet Said Ahead In Ship Building

Washington — (U.P.) — Carl Vinson (D-Ga.) warned today that Russia is building a major naval force which would help it launch Korean-type "brush wars" in the event of an atomic stalemate.

Vinson, chairman of the House Armed Services Committee, told a reporter "We know that Russia is far ahead of us in the latest type submarines."

"We also know that Russia is engaged in the development of a major naval force with the latest type of combat ships," he said.

"These facts support my contention that if we face an atomic standoff we may find ourselves engaged in brush wars. The growing naval power of Russia simply improves their capability to fight brush wars."

"We must and will have the threat," Vinson said during a recess in hearings on the Navy's building program for the fiscal year starting July 1.

Navy witnesses produced charts yesterday showing how the Soviet Union is far outstripping the United States in the construction of new combat vessels.

There is one infallible rule for identifying a puffball mushroom: if it's white all the way through and there's no distinct stem running through the meat, eat it.

Salt-water catfish spines contain a mild poison which causes some pain if a spine punctures your skin.

WASHDAY WAS DRUDGERY in Grandmother's day . . . long hours of sweating, straining, back-breaking work. Today's housewife uses a modern washer and dryer. Manufacturers have reduced washday chores to a turn of a dial.

But to mass produce millions of washers and dryers, manufacturers must be able to sell them by the millions. Only by advertising can a manufacturer talk to millions of people at one time.

ADVERTISING TELLS the story of new home appliances . . . and helps sell them. The more it sells, the more must be made—keeping the production lines and the jobs going. The result: newer, better home appliances at prices more people can afford to pay. Advertising helped make the difference—in home appliances, and in our American way of life.

Advertising helped make the difference
