

Soviet Attack on US 'Would Be Suicide'

San Gabriel, Calif. — (U.P.) — Rep. Patrick J. Hillings (R-Calif.) said today a Russian atomic attack on this country would be a "suicide mission because in four hours we could destroy every Soviet city."

"Americans have very little to worry about with respect to attack," Hillings told a gathering of savings and loan executives here yesterday. "Even if the Russians should decide to attack us, they could get only as far as Seattle with the weapons they have at their command."

"This would be a suicide mission and you don't win a war with such tactics," he said. "Within two hours after such an attack, we could assemble our own offense and defense to the point that within another two hours, we, ourselves, could destroy every Soviet city."

GRANGE

Lake Creek Grange

Lecturer Eunice Pech of Lakeview Grange gave an interesting report on her trip to the state lecturer's conference at Corvallis. She hopes to have a film shown at Grange that she saw at Corvallis.

Ira Woolfolk announced a meeting of the Sams Valley-Beagle Conservation District to be held at Eagle Point on March 21.

Lake Creek Grange voted not to participate in the exchange meetings among the Granges, it being the busy season of the year during July or August.

Meetings will not be held twice a month.

Lake Creek Grange members voted in favor of having Smith-Hughes training or vocational training in the Eagle Point high school as soon as possible.

Mrs. Mark Hoeft is the Red Cross representative for this area. All that wish to contribute may call her at her home.

Mrs. George B. Brown is improving from her illness, but still at Sacred Heart hospital. It is hoped that she may soon be well enough to return home.

Next Grange meeting will be April 14 at 8 p.m.

Larger softwood trees in Vermont are being heavily overcut. For every 1,000 board feet of wood that is added to saw-timber size softwood trees by growth, 1,780 board feet are cut.
