Home Nursing Classes Planned By Red Cross

Registration for a series of home nursing classes are now being accepted by the Red Cross here, it was announced Saturday.

The classes will begin May 9, and will be run in series of three, with the first on May 9, 11 and 13, from 9:30 a.m. to 12:30 p.m. each day. The second series will be on May 16, 18 and 20, from 6:30 to 9:30 p.m.

They said the home nursing training is probably one of the most effective and important services provided by the Red Cross. It is personalized training for those wishing to learn the best methods of caring for sick people in the home.

When sickness strikes the average home, many hours are spent supplying necessary medications and care, they said, and the training given in the classes assists in showing how this can be done properly, with the least effort and a minimum amount of time. Practice, under supervision, is featured in the classes.

The classes are open to anyone wishing to take them, and registrations can be made by telephoning the Red Cross office, 2-4405. They will close on April 17.

Overwatering Bad For African Violets

Columbus, O.—(U.P.)—Having trouble getting your African violets to bloom?

The trouble probably is that the flowers are watered too much.

Kennard S. Nelson, an Ohio State university floriculturist, says that extensive tests show that overwatering the flower is probably the greatest cause of bloom failure.

African violets should be watered only when the soil feels dry, he said, and then from either above or below. But don't wet the leaves.
