

Arch Moore Found Okeh Physically

San Francisco — (U.P.) — Examining physicians for the California Athletic commission said today that world light heavyweight champion Archie Moore was a "perfect physical specimen," despite the fact he had been banned from fighting last month because of a bad heart.

Athletic Commission Dr. Robert Laddon said that he would recommend that Moore be issued a license to box in this state on the basis of this examination.

A month ago Moore had been denied permission to go through with a bout in San Diego after an examination by Dr. James Ryan who stated Moore had a slight heart condition.

Indians Eager To Clinch Tie

Columbus, Ga. — (U.P.) — The Cleveland Indians were out to clinch at least at tie in the spring version of the 1954 World Series today when they met the World champion New York Giants.

The Indians took an 8-7 lead in the 18-game series at Montgomery, Ala., Monday when they hit veterans Marv Grissom and Larry Jansen hard in a 9-5 triumph. Wally Westlake hit a three-run homer off Grissom in the first inning to spark the Indians' 14-hit attack.

Bob Feller yielded four of the Giants' runs in the first four innings with Art Houtteman hurling the last five frames.

Leahy Sees Grid De-Emphasis

Portland — (U.P.) — Frank Leahy, former Notre Dame football coach, says that instead of being overemphasized, college sports "if anything," are going through a period of de-emphasis.

Leahy, here on a business trip said a good example was that spring football has been cut to a total of 20 days. He said this could adversely affect the college game especially since pro football was gaining.

Leahy was here to confer with Montgomery Ward company stockholders. He is a representative of financier Louis Wolfson who seeks control of the company.

Pro Hells Canyon Material Said Kept Out of Papers by Big Money

Pasco, Wash. — (U.P.) — A joint Senate-House subcommittee touring the Northwest for testimony on the proposed federal dam in Hells canyon on the Snake river resumed its hearing here today.

Charges that "big money" had kept pro Hells canyon dam material off radio stations and out of newspapers and a description of public power as "pool room prosperity," highlighted the hearing in Idaho yesterday.

At Lewiston, Ida., the first witness, Sam Fretwell, Parma, Ida., president of the Washington-Idaho Hells canyon association, charged that Idaho Power company, the Idaho Reclamation association and the Idaho Chamber of Commerce had joined forces to cause radio stations and newspapers in southern Idaho to refuse to use material from the Hells Canyon association.

He did not identify any stations or papers but claimed that advertising had been withdrawn from mediums which used association material and in one case the owners of a weekly paper had been forced to sell.

Ed Mathews Blasts Three Round Trippers

Louisville, Ky. — (U.P.) — It took Ed Mathews a while to get the range but the Milwaukee Braves' slugger is back today on the home run beam.

Mathews blasted three homers in Nashville, Tenn., Monday. They weren't quite enough however, as the Dodgers pounded out a 10-8 victory to square the spring series with Milwaukee at four wins each.

Hank Aaron also homered for the Braves while Sandy Amoros hit two two-run homers for the Dodgers.

Election To Select Seamen's Union Ends

San Francisco — (U.P.) — Balloting has ended in a National Labor Relations board election to choose a union for Pacific Coast seamen.

However, an NLRB spokesman said the vote count may be delayed because of an appeal by Harry Bridges' longshore union to the U. S. Supreme Court to invalidate the election.

The vote was conducted among unlicensed seamen on ships belonging to members of the Pacific Maritime association. The contestants were Harry Lundeberg's AFL Seamen's International Union and International Longshoremen's Warehousemen's union.

Pro Hells Canyon Material Said Kept Out of Papers by Big Money

The "pool room prosperity" remark, which drew laughter from about 800 persons jammed into the Lewis and Clark hotel, came from A. B. Curtis, mayor of Orofino, Ida.

"Hells canyon dam would cost us money without providing any taxes," Curtis said.

He cited Bonner County, Ida., which he said collected \$3,480 a year annually from Washington Water Power company before the firm built its Box canyon dam there. Now, he said, the county collects nearly \$500,000 a year from WWP.

John George, Lewiston, national vice - president of the Rural Electrification association, another proponent of the high federal dam, said "Idaho is far behind her sister states because our high officials are against public power." He said the "largest aluminum deposit in America" lies in Latah county north of Lewiston and could be developed if cheap electric power were available.

Robert Werner, publisher of the weekly Clearwater Tribune at Orofino, Ida., said Idaho was the "most solvent state in the Northwest" and "does not want its resources exploited by other states and public utility districts."

The three and a quarter hour hearing adjourned at 6 p.m. after 30 witnesses had been heard. About twice that many persons added written statements to the committee record.

In a morning meeting at Boise, Idaho Gov. Robert E. Smylie suggested that Congress would do better than to let the Federal Power commission decide on the feasibility of Hells Canyon dam.

The congressional committee moves to Portland tomorrow after its hearing here.

Bill Would Double Legislator Salaries

Salem — (U.P.) — Ready for House action tomorrow was a bill approved by the State and Federal Affairs Committee to double the salaries of legislators and give them a per diem expense account.

The bill, in the form of a resolution, would provide for a constitutional amendment that would have to be voted on by the people. If approved, it would raise legislative pay from the present \$600 to \$1200 per year and would provide an expense account of \$10 per day not to exceed 90 days of actual time in session.
