Your Health and Its Care

By DR. WILLIAM BRADY, M.D.
Readers should address inquiries to: William Brady,
263 El Camino, Beverly Hills, Calif.

TRIBUTE TO DR. HOBART A. HARE

A reader who knows the late, great Dr. Hobart Amory Hare justly chides me for what I said here March 14th about Dr. Hare and his famous Textbook of Therapeutics. As the reader points out, to my embarrassment and regret, I quoted the distinguished physician and teacher out of context, which is a wretched thing to do.

Dr. Brady

Believe it or not, I did not do so intentionally. In fact I thought I had quoted Dr. Hare fairly, until I read the master copy of the article for March 14, titled: "Sir William Never Said It." May I please explain what happened?

First I quoted this from Osler's Practice, 6th ed., 1906:

"... this does not mean, however, that alcohol may have value in the fever" (of pneumonia) "and I should be sorry to give up its use in the severer forms of enteric" (typhoid fever) "and pneumonia."

I said I called that professional quibbling, and that it reminded me of the quibbling of another famous authority, a contemporary of Osler, Dr. Hobart A. Hare. Then I said that in the 10th ed. of Hare's Textbook of Therapeutics 1904 he said:

"The chief uses of alcohol are as a rapidly acting stimulant in heart failure, surgical shock, fainting, snakebite. . ."

That puzzled me, in view of what Hare said on the next page of his textbook—and this is what I intended to quote but didn't:

"Alcohol never acts as a true

March Bond Sales Down, Quarter's Up

Sales of U.S. savings bonds in Jackson county were lower last month than they were in March, 1954, but the total number sold this year is greater than the number sold by the same time last year.

Morris Leonard Sr., county savings bond sale chairman, reported that the value of bonds sold here in March was \$101,935, compared to \$105,553 in March, 1954. But the quarterly totals are \$300,880 for 1955 and \$289,669 for 1954.

The quarter's total represents 23.8 per cent of the quota assigned Jackson county for the year.

Throughout the state, March sales totaled \$4,134,995, highest March sales total since 1945, compared to \$3,367,045 last year. The quarterly total also was up this year, \$13,270,880 compared to \$10,070,089 in 1954. This is 29.4 per cent of the state's quota.

Family Owes Lives to Dog Nobody Wanted

Roxbury, Mass. (U.P.)—Members of the family of Dennis Freeman owe their lives to a mongrel dog nobody wanted.

Freeman, who works for the Animal Rescue League, brought Squirt home in 1944. Recently, the dog was given the opportunity to repay the Freemans for their kindness.

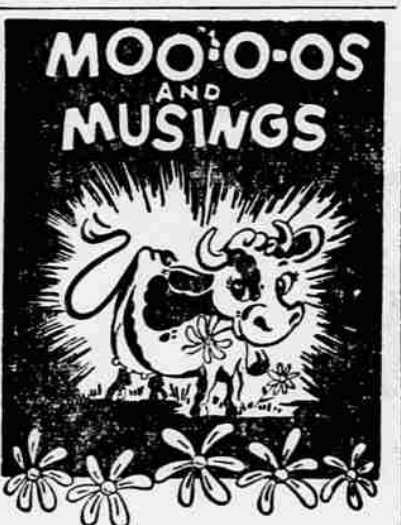

When the oxygen in the Freeman apartment was all but exhausted from a heater, Squirt managed to awaken the Freemans in time for them to call for help. Though father, mother, son and daughter collapsed shortly after placing the call, firemen were able to revive them.

stimulant . . . on the contrary its dominant influence is depressant . . . If the dose is large enough to cause any appreciable change in the circulation, it is in the nature of depression rather than stimulation."

When I asked Dr. Hare how come, he answered (I quote from his letter dated 9-21-'06:

"It is conceivable that alcohol acts as a stimulant on other functions of which, as yet, we know very little, as, for example, the ability of the body to resist infection. Scientifically alcohol does act as a depressant. Practically. . ."

A dental ad inquires, "Do False Teeth Rock, Slide or Slip?"

As long as they're being so nosy, they might as well check for shake, rattle and roll.

Now I still say that Dr. Osler and Dr. Hare were quibbling—but a hundred thousand other doctors then and now quibbled just as much.

In any case Osler's Practice and Hare's Therapeutics, tattered and patched, hold place of honor on my five-foot book shelf, and I regret now that I didn't ask Dr. Osler to explain, for instance, his quaint notion that rheumatism "is most common among the poor, particularly washerwomen, day-laborers, and those whose occupation exposes them to cold and damp." A letter signed by the great teacher would make his book more interesting, even if it didn't make any more sense than Dr. Hare's.

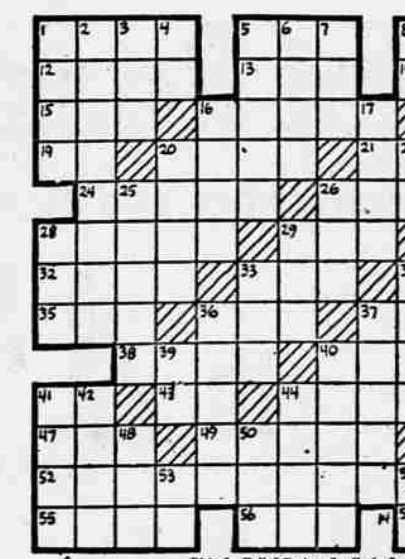

QUESTIONS & ANSWERS
Not in Minnesota
Your English physician would not have found it so good to go out for a walk under an overcoat in Minnesota. (A. J. W.)
The physician, Dr. Leonard Hill, said "It is good to go out and be braced by feeling cold and so impelled to take vigorous exercise." He did not say, and I do not argue, that it does anybody any good to suffer from extreme cold when an overcoat or other cover would keep one comfortable. If the booklet CALL IT CHI, about the indispositions and illnesses

Nagging Backache Sleepless Nights

Often Due to Kidney Slow-down
When kidney function slows down, many folks complain of nagging backache, headache, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exercising or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.
