

RODEO SKILLS SHOWN — The picture above, taken at an earlier rodeo contest, shows one of the tests of driving skill which is required of teenage participants who will

taken part in this year's teenage Rodeo, to be held in southern Oregon on April 23 and 30, with the finals in Medford on May 7, under the sponsorship of the Medford Junior Chamber of Commerce.

Rodeo Plans Told by Jaycees; Six High Schools To Take Part

Plans for the annual teenage drivers' "Rodeo" were announced here last week by the Medford Junior Chamber of Commerce, which has sponsored the driver-education and safety events for the past several years.

The local contests, which will be conducted for Medford, Crater, St. Mary's, Phoenix, Eagle Point and Jacksonville high schools, will be held on three Saturdays, April 23, April 30 and May 7, with the finals on the latter date, to be followed

by a banquet.

Test Skills

The Rodeo will include a written examination and a test of driving skill, involving driving a car through prescribed maneuvers such as parking, backing, smooth starting, and others.

Winner of the local contest will participate in the Oregon contest, which will be held in Portland later in the spring. State winners will be eligible to participate in the national con-

test for which \$3,000 in scholarships are offered as top prize. The national event will be in Washington, D.C. July 25 to 29.

Dick Bowers, Jaycee president here, said six subcommittees have been organized under the general chairmanship of Art Van Leewen to handle the details of the Rodeo.

Chance To Prove Skill

"By emphasizing the rules of the road and the skills needed for safe driving, we intend to give local young people a chance to prove that some of America's best drivers are teenagers," Bowers said.

All teenagers in the competing schools who hold a current and valid driver's license are eligible. Each school will have examinations in their own areas, and the winners will meet for the finals May 7 at the Medford High school. Entry blanks and information about the contest are available at the schools.

The Jaycees expressed their desire for an even larger contest than usual this year, and urged all parents of eligible teenagers to encourage their sons or daughters to participate.

Home Nursing Hints

Making a Bed Around a Boy

Making a bed with a patient in it is a neat trick—and a useful one—as any mother with a sick youngster knows.

A comfortable bed with a smooth, clean, dry surface to lie on is essential to a patient's well-being. The bottom sheet should be smooth and tight. Top covers should be lightweight and suited to the temperature of the room. They should provide shoulder warmth, permit toe space, and be held securely together.

A Red Cross home nursing course will teach you the correct, easy way to make up the sick bed as well as many other useful sickroom skills. Call your local chapter for enrollment information.

Films Scheduled At CAP Meeting

At the Monday night meeting of the Medford squadron of the Civil Air patrol, a series of films will be shown, "Air Force Digest," and "Aerology," Parts I and II. They deal with thunderclouds and should be of particular interest to the meteorology class.

Anyone interested in seeing the films or in joining the CAP is invited to attend any Monday night meeting at the Medford airport. The meetings begin at 7:30 p.m.

After the showing of the films all CAP members, cadets and senior members, will do some clean-up work, so all are urged to wear their work clothes.

One out of every 60 workers in the U.S. is employed in hospitals.

VA Teams Named To Conduct Survey On Wages in Area

Camp White — A maintenance and food service workers wage survey in this area will be started this week to establish wage rates for similar positions in the Veterans Administration. The VA and other government agencies are required by law to establish wage schedules for custodial, protective, and crafts positions before September, 1955, based upon these comparative studies.

H. J. Heitkemper, personnel officer of the Domiciliary, here, has been detailed to assist in the collection of wage data throughout the various sections of the country for the VA. He returned to Camp White last week to make preliminary arrangements for conducting the wage survey in this area.

Teams Named

Manager E. K. Ricker has appointed three survey teams made up of R. H. Denning, assistant manager, Jack Duane, assistant engineer officer, Miss Charlotte Klock, head dietitian, Robert Findley, chief electrician, Richard Shultz, garage superintendent, and Mrs. Ouida Miller, assistant head waitress.

Local business firms will be contacted by the survey teams, and their cooperation is solicited. The data concerning the level of rates being paid by both industrial and non-industrial firms in the local labor market for jobs will be evaluated on the basis of comparison with key jobs. Information collected will be strictly confidential.

Medford Man Jailed On Bad Check Charge

L. H. Garman, 30, route 1, box 165, was arraigned in district court Saturday on a charge of uttering and publishing a false instrument.

He waived preliminary hearing and counsel and was bound

All But Two Phoenix School Teachers Return Next Year

Phenix—All but two members of the faculty of the Phoenix schools have indicated they will accept teaching contracts for the next school year.

Those who will not be returning are Mrs. Ethel Morrison, first grade teacher, who has been granted a year's leave of absence and will be replaced by Alice Swingle for that period of time, and Patricia Kiebler, high school girls' physical education instructor, who has resigned to return to her home in Pennsylvania.

over to the grand jury. Bail bond was set at \$2,500 and a jail commitment was issued.

According to court records the case involves a \$150 check on the Chase National bank of New York presented at Hi-Way tavern, 12 North Riverside ave.

He was arrested Saturday on a warrant issued last August.

The United States Regular Army was organized Sept. 29, 1789.

Those returning to the Phoenix school system include E. R. James, superintendent of schools; John Myers, grade school principal, and William Ruck, high school vice-principal and social problems instructor.

High school teachers coming back are Albert Consbruck, social studies and assistant coach; Gloria Evernden, home economics; Arthur Grigg, shop and biology; Harry Kannasto, band and chorus in both schools; Roscoe Larson, general science and English; Mary Lou Neville, commercial; Mabel Sims, English and library; Ernest Skipworth, math and chemistry; and Jack Woodward, freshman math, boys' physical education, and head football and basketball coach.

Grade School Teachers

Grade teachers returning will be Orva Taylor and Jane Germer, first grade; Evalena Gossett, Gertrude Wooten, and Katherine Baalman, second grade; Maxine Corliss, Agness Rupp, and Ethel Banks, third grade; Zuba Stack

and Ardis Pramann, fourth grade; Mabel Moore and Wallace Eri, fifth grade; Gladys Sloan and John Stewart, sixth grade; Lewis Bertrand and Mary Loyd, seventh grade; Lester Wilson, Katherine Stancliffe, and Lloyd Hale, eighth grade.

In the event of possible enrollment changes the grade assignments of some upper grade teachers may be changed.

The present school secretarial staff, custodians, and bus drivers are expected to return also.

NEW FREEDOM FROM IRREGULARITY

TRY THIS GREAT COMBINATION ALL-BRAN AND MILK

For fitness and relief from constipation

Supplies laxative food bulk

plus important food elements

You know about milk. It is generally considered to be one of nature's most nearly perfect foods.

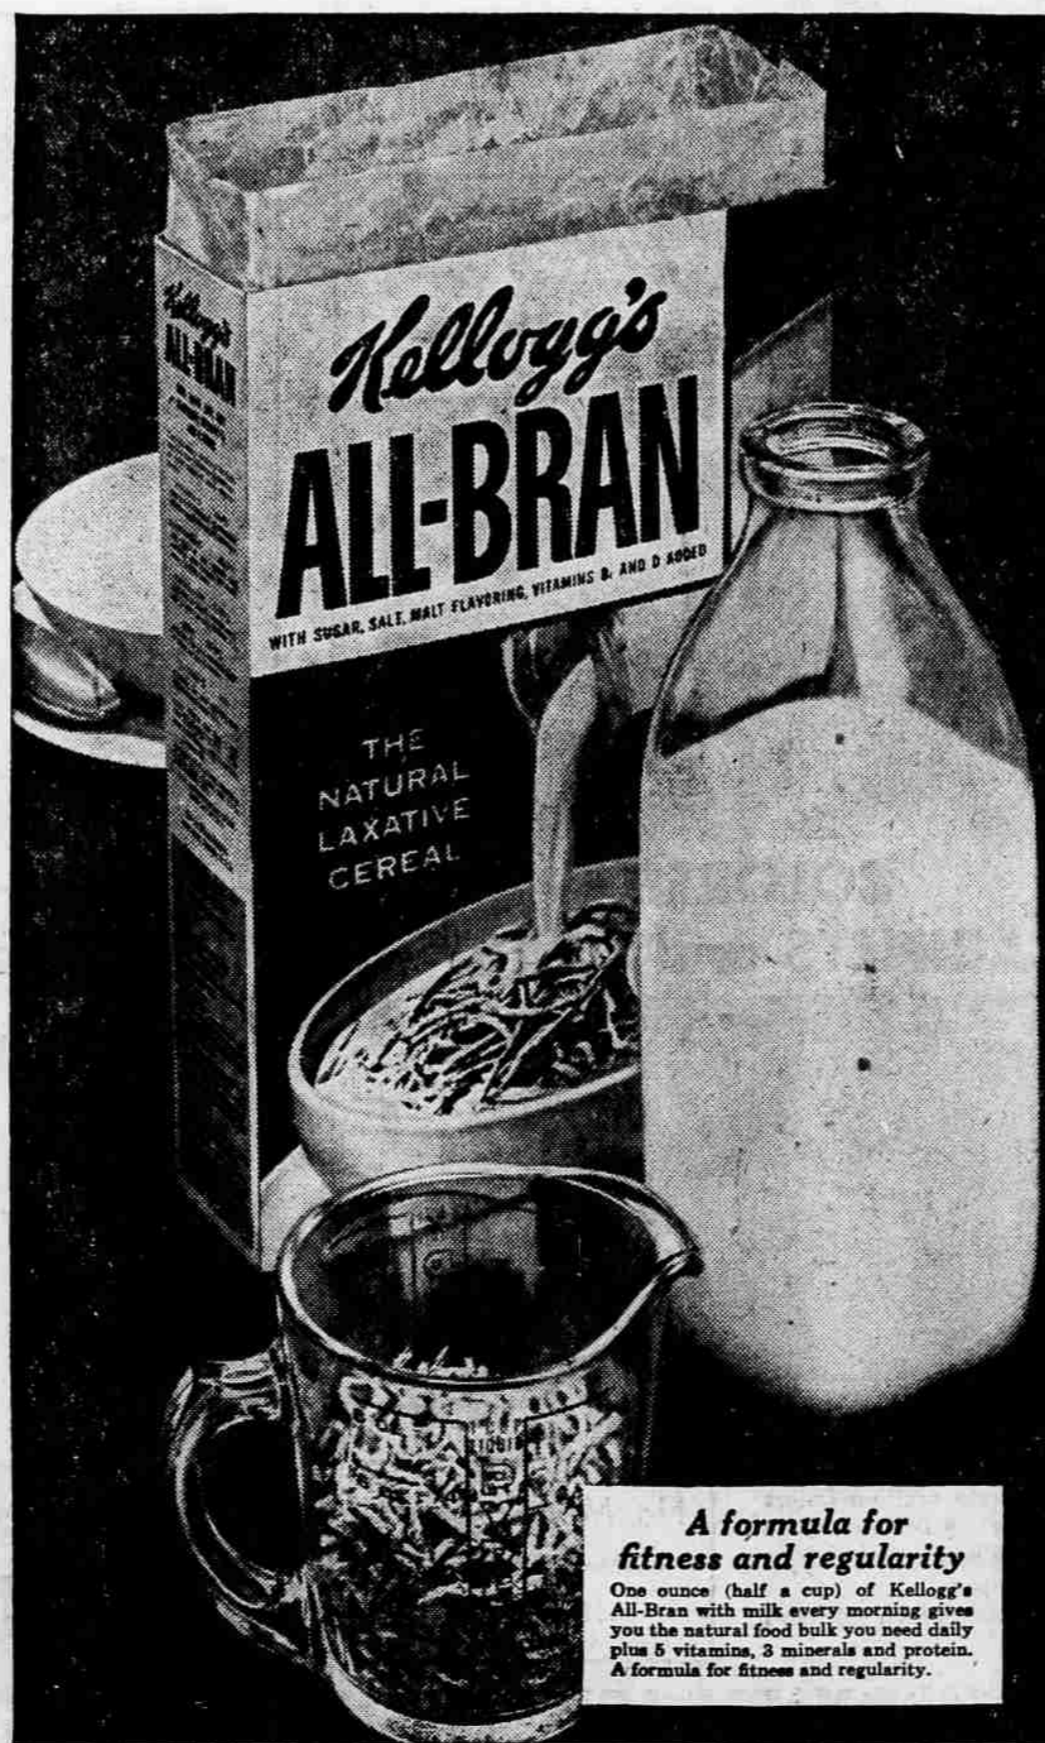

But there is also another great natural food — bran — that many in their middle and later years have long turned to. By name it is Kellogg's All-Bran, the original. This scientifically milled whole bran cereal has a delicious flavor and stays crunchy even in milk. All-Bran has helped millions find safe, gentle relief from constipation due to lack of bulk in the diet.

Kellogg's All-Bran, pioneered nearly 40 years ago by W. K. Kellogg's, was conceived as three cereals in one. First—a bran cereal in appetizing form. Second—a cereal that in combination with milk would provide solid nutritional benefits. Third—a natural bulk laxative, an aid to comfortable elimination without harsh purging.

Kellogg's All-Bran lives up to all three definitions. Served with milk it supplies nine body builders that we need daily. As for its flavor and effectiveness, All-Bran has become the most widely used and accepted bran cereal in all the world.

If you are one of the millions who suffer needlessly from irregularity, why not try All-Bran and milk. Eat a half a cup of All-Bran with milk every day for 10 days... for fitness and regularity. If, after ten days you are not completely satisfied, return the carton and receive double your money back. That's a promise from Kellogg's of Battle Creek, Mich.

News for folks who eat their All-Bran at restaurants — new foil-wrapped package makes sure your All-Bran is extra fresh.

A formula for fitness and regularity

One ounce (half a cup) of Kellogg's All-Bran with milk every morning gives you the natural food bulk you need daily plus 5 vitamins, 3 minerals and protein. A formula for fitness and regularity.
