Martin, veteran of the Korean war and soldier since he was 17, is charged with "attempting to promote disloyalty and dissatisfaction among fellow prisoners of war in a North Korean Communist prison camp" between 1951 and 1953.

Martin was taken prisoner by the Reds Nov. 17, 1950.

"The folks down here... just can't believe what the Army says about my boy," Elmer Martin, father of the jailed soldier, said. "Folks here in Tulelake raised \$500 for John when he got back from the Red prison camp and now they're out to double that amount to get a lawyer to fight these charges," Martin said.

Utah Coach Accused of Deception

Kansas City, Mo.—(U.P.)—College basketball Coach Jack Gardner of Utah stood accused by the National Collegiate Athletic Association today for using "deception" and trying to persuade players to use "devious and deceptive behavior."

In a blistering report by the ethics committee, the NCAA censured Gardner for "unsportsmanlike and unethical conduct" in attempting to persuade three Kansas State College basketball stars and one Colorado University player to transfer to Utah in 1953.

Gardner was coach at Kansas State until 1953, when he went to Utah.

The players involved were Roger Craft, Gary Bergen and Jerry Jung of Kansas State and Art Bunte and Bergen actually transferred. Jung was accepted for admission but changed his mind and stayed to play for Kansas State.

The ethics committee, making its first report, did not censure the players or the two colleges.

Congress Approves Permanent Feeder Airline Service

By A. ROBERT SMITH
Mail Tribune Correspondent
Washington — Congress has approved legislation to permanentize local feeder air line service by West Coast Airlines — a move which airline officials and members of Congress predict will improve air service to Medford and other cities of the region.

Both House and Senate have passed legislation that would grant permanent authority to West Coast and 12 other feeder airlines now serving various sections of the country. They are currently operating on temporary certificates issued by the Civil Aeronautics Board, under a 10-year old policy of experimenting to see if a market could be developed for regular scheduled air lines service between non-metropolitan cities and towns.

The Senate bill, sponsored by Sen. Warren G. Magnuson (D-Wash.), would permit new towns to be added to feeder airline routes on a temporary basis until it could be determined whether sufficient traffic could be developed to make it pay. The House bill does not carry this feature, so a conference between the two chambers has been scheduled to reach a compromise before the bill is sent to the White House.

Effect of the bill, according to authorities here, is to wipe out the disadvantage incurred by the feeder lines under their past temporary certificates. This disadvantage was felt in the unwillingness of manufacturers to design and build a plane specifically to meet feeder needs; difficulty of holding employees who sought jobs in the permanently certificated major airlines; problems of obtaining long-term credit for construction of facilities and purchase of equipment.

Magnuson and other lawmakers forecast it would also lead to reductions in federal subsidies paid to airlines when feeders gain economies that go with long-term planning and its effect on more efficient operation.

Seeding of Clouds Tried Near Yreka

Yreka — Clouds in the Montague area were seeded from a plane with dry ice last Monday. Observers said the seeding was followed by rain.

The experiments, which will continue, are being sponsored by the Shasta Valley Farm Center and by Granges. So far some \$1,000 has been donated for the work. If the experiments are successful, it is planned to purchase a plane.

Monday's experiment was done by Tom Tate, Montague, an ex-Army pilot.

Tom Williams, regional chairman of the water problems department of the California Farm Bureau, said that seeding conditions Monday were not too good because the clouds were moving too fast, about 80 miles an hour at 6,000 feet.

He added that dry ice apparently gives better results than silver iodide in a spot seeding plan, with silver iodide better on a larger, long-term project.

Radford in Honolulu En Route To Capital

Honolulu — (U.P.) — Adm. Arthur W. Radford, chairman of the U. S. Joint Chiefs of Staff, rested here today en route to Washington to report on top-secret talks concluded yesterday with Generalissimo Chiang Kai-shek in Taipei.

Radford and Walter S. Robertson, assistant secretary of state, refused to comment on their talks with Chiang when they arrived at Hickam Field late yesterday.

The series of conferences with Chiang which began Sunday were top-secret with no details being reported to the public.

Mickey Jelke Gets Two To Three Years

New York — (U.P.) — Oleo heir Minot F. (Mickey) Jelke was sentenced today to two to three years in prison for compulsory prostitution.

Judge Francis L. Valente sentenced the playboy to two to three years on each of two counts on which he was convicted April 1, but specified the sentence should run concurrently.

He could have been sentenced to 20 years in prison on each count.

Valente, in passing sentence for the second time on Jelke said that the young man, convicted of running a \$100 a night call girl operation, had since his first trial achieved a "realization of his past behavior" and is "genuinely remorseful."

Jelke's first conviction was reversed by an appeals court.
