Your Health and Its Care

By DR. WILLIAM BRADY, M.D.

Readers should address inquiries to: William Brady, 263 El Camino, Beverly Hills, Calif.

EVERYONE WANTS TO FEEL JUST FINE

The young person who takes his (or her) first drink, smoke, "goof ball," shot of cocaine, barbiturate or benzedrine (amphetamine) tablet does so usually, because he's a weakling — he hasn't the intelligence, the courage or the character to say "No, thank you" when friends (if you can call 'em friends), associates or gang leaders invite, urge or dare him to have one.

Dr. Brady

"Come on, chicken," they say in effect, "just one won't hurt you—everybody else is having one. You going to be different?"

It is not only juveniles that are delinquent but, unfortunately for our country's welfare, many mature adults prominent in the public eye, betray the same defect. For example, a high government official attending many social functions in Washington is a teetotaler, but circulates carrying a glass half filled with pop, so everybody will think he is drinking. At Yalta, Uncle Joe, according to a correspondent, drank many toasts to England and America in colored water, but Joe's motive was not so contemptible as that of the Washington politician.

But the prodigious growth of the "cocktail" evil and the invasion of the American home by beer, wine and liquor via radio, television, movies, magazines and newspapers in the past two or three decades, combine to give growing children a view of life quite different from that which you and I saw when we were growing up.

What with the ready availability of beer, wine and liquor, the insistent idea that everybody drinks at least an occasional social glass, and the belief that children today do not need and may resent being asked to take the pledge, it is a wonder that anybody at all reaches the age of 21 without having acquired the drinking habit.

Just why does a young person of normal I. Q. take his or her first drink of beer, wine or liquor, a young person, that is, with character gained from home training? This, it seems to me, is a question of vital importance. I have pondered it for years. I have sought the views of many, young and old, teetotalers, moderate, occasional or social drinkers and confirmed alcoholics. The most enlightening answer, I think, was that of a periodic drinker, who, in a sober interlude, explained:

"At times I drink to excess because I feel the need of a stimulant, or rather I just want to feel better . . . "

Two ways of saying the same thing. (As we shall try to show in a piece to follow.)

QUESTIONS & ANSWERS

Aluminum Chloride Solution

For fifteen years I have used with great satisfaction the 25% aluminum chloride solution you recommend in the pamphlet on Excessive Sweating. It has always controlled underarm perspiration, but all of a sudden now it doesn't work . . . (Mrs. J. R.)

Answer—Perhaps some error in preparing the solution. The strength of the solution I recommended in the pamphlet on EXCESSIVE SWEATING —for which send stamped, self-addressed envelope—is approximately 15%, or say a level tablespoonful aluminum chloride dissolved in 6 tablespoonsful of rain water, melted snow or distilled water. Mop the affected skin surface and let it dry before dressing, say three times a week.

That Ghost of Mine

I attended a lecture on health given by you in Duluth at the turn of the century. Recently had trouble with my ears. Asked my druggist. He said I'll give you Dr. Brady's ear drops, which are very good. And so they proved . . . (F. E. H.)

Answer—You have caught me with my sheet off. But turn of the century? That gives me quite a turn. It was in 1936. Instructions for preparation and use of the drops for chronic running ear available on request if you provide stamped, self-addressed envelope.

Two Women Slain In West Virginia; Police Lack Clues

Clarksburg, W. Va. — (U.P.) — Police attempted today to piece together meager clues to the slaying of a prominent west Virginia dentist's wife and her part-time maid.

Clarksburg Police Chief M. F. Jordan, heading an investigation by city, county and state police, said no arrests have been made and admitted the case was "a tough one."

Bodies Found by Boy

The bodies of Mrs. Carl Laughlin, 44, wife of a wealthy member of the West Virginia Dental Examining board, and Mrs. Cora Bland, 31, were found lying in a pool of blood in the living room of the fashionable Laughlin home when Mark Laughlin, 7, came home for lunch Wednesday.

Both women had been shot through the head and Mrs. Laughlin had been beaten about the face and head. Mrs. Bland's arms and legs were bound with what appeared to be Venetian blind cord, and her mouth was sealed with a three-inch piece of adhesive tape.

Jordan said Mrs. Laughlin may have been hit in the face with a fist but "some kind of instrument" apparently was used to cause wounds on her hand and ear.

Authorities sought two strange men neighbors reported seeing go up the front walk of the palatial home and leave shortly afterward, about the time the murders occurred.

No gunshots were heard, but Jordan said a pillow found on Mrs. Laughlin's face was used to muffle the sound of the murder gun.

MOO-O-OS AND MUSINGS

We don't want to get mixed up in any controversy about street names but we do have a suggestion on the renaming of Front Street.

Why not name it after a former councilman and call it F. Runtz street.

Court Records

POLICE COURT

Eugene Darrell Wheeler, four adults in front seat, $5.

Lovella Reene, Robert Roy Kinsey, no operator's license, $5 each.

George A. Folck, overload, $29.

Robert B. Dawson, overload, $47.

Percy R. Johns, failure to dim headlights, $6.

Atom Device Strike Enters Third Day

Albuquerque, N. M. —(U.P.)— A strike of 2500 AFL craft union workers against the Sandia Corporation atomic device plant here went into its third day with no indication that union and company representatives were even ready to talk about the wage and contract benefits dispute.

John Dietz of Washington, representing the Atomic Energy management - labor relations panel, conferred separately with union and company officials Wednesday. But nothing was announced, and neither side gave any hint that a meeting was agreed upon.

The 10 craft unions involved apparently are determined upon a "long haul" strike, if necessary, to gain a 14-cent hourly wage increase, more sick leave and a better pension plan, and a tighter union shop. The company, on the other hand, wants to cut the present 24-day paid vacation in half, with a four and one-half per cent hike in vacation pay.

Negotiations Resumed Guaranteed Wage

Detroit —(U.P.)— The CIO United Auto Workers resumed negotiations with Ford and General Motors today with a promise that CIO President Walter Reuther will enter the talks personally "very soon."

The union is negotiating with the two auto companies for new contracts to replace five-year pacts which expire May 29 and June 1. The guaranteed annual wage is the central issue in the negotiations.

Reuther announced he would participate in the talks in a speech before the CIO United Paperworkers Union yesterday. He also used the occasion to answer an attack on the ASAS's annual wage plan by Charles R. Slight, Jr., executive committee chairman of the National Association of Manufacturers.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Ask for new, large, economy size and save money. Get Doan's Pills today!

TESTIMONIALS

Buffalo, N.Y.—(U.P.)—Medicine, in ancient Greece, was of the stuff dreams are made of. The priests, who were doctor-pharmacists, prescribed medicines after interpreting the dreams of their patients, according to researchers of the Arner Co. Patients, probably the first with "unsolicited testimonials," attested to the effectiveness of the cures on the temple walls.
