

Six More Children Who Received Salk Vaccine Have Polio

By UNITED PRESS

Six more youngsters who received inoculations of Salk anti-polio vaccine have come down with infantile paralysis. They raised the total across the country to 16.

The new cases coincided with a government plan to set up a "polio intelligence network" to check on all new polio outbreaks.

Some state and city officials

Eagle Point

Eagle Point—Profound sympathy is extended H. D. Tyler and family of Eagle Point on the passing, April 25, of his mother, Mrs. Jennie B. Tyler, at the age of 86, at the home of her daughter, Mrs. John Bridges, in Medford, Calif., after a long illness.

Born in Virginia, she came to Oregon with her parents in the year 1870 and they settled on a ranch just west of Brownsville, where she lived until she married Columbus B. Tyler, who preceded her in death in 1934. She continued living at Brownsville and reared her family of three children. She moved to California in 1943 where she lived until her demise. Beside her daughter, Mrs. Bridges, she left two sons, H. Dean Tyler, Eagle Point, and Lester D. of Walnut Creek, Calif.; three sisters, Mrs. August Stark of Albany, Ore., Mrs. C. C. Snyder of Hillsboro, Ore., and Mrs. Fred Rice of Buell, Ida.; also eight half sisters and brothers, nine grandchildren, a number of great grandchildren and great-grandchildren. She was laid to rest in the old hometown cemetery April 23 with most of the family in attendance.

Mrs. Dean Tyler of Eagle Point is at Redmond, Ore., at present with her mother, who is critically ill.

Mrs. Lincoln Pence, Eagle Point, is in Grants Pass caring for a sister, who recently underwent surgery.

Sgt. Charles Ashpole called on his Uncle Roy and family here April 27, while on a 25-day furlough from Camp Gordon, Ga. He is an instructor in the Army Signal Corps there. He left Medford April 28 for Pocatello, Ida., where he will spend the remainder of his furlough with his mother, Mrs. Beatrice Ashpole, who is living there now.

Mr. and Mrs. Linn Hickman, Eagle Point, recently constructed a rock garden on the front lawn of their home, where formerly there was a goldfish pond, thereby enhancing the beauty of the whole front yard.

There seems to be so much illness in and around Eagle Point at present it is difficult to find items of a more cheerful nature. It is hoped with the final advent of spring that all will be well and happy again.

Mrs. Roy Swan, Eagle Point, returned home Wednesday, April 27, from Los Angeles, where she had been visiting relatives and friends for a week. Miss Terry Pullig, a Baten Rouge, La., teacher from the university there, returned with her and is a house guest of the Swans at present.

Dallas, Tex. —(U.P.)—Texans favor production curbs on this year's burley tobacco crop two-to-one, the Agriculture Department announced today. Out of three votes cast, two were for, one against.

expressed concern over the situation. Scheduled vaccinations of school children were called off in Utah and in Milwaukee. Health Officer E. R. Krumbiegel said he would not allow mass inoculations until the vaccine has been double tested.

The delay may hold up inoculation of Milwaukee youngsters "all summer or longer," Krumbiegel said.

In Iowa's Jackson county, mass inoculations were indefinitely postponed just as they were scheduled to start. Authorities said their vaccine supply would be kept under refrigeration pending an investigation.

New Supply Shipped
But other areas were going ahead with their mass inoculation programs, reassured by statements from health officials that the Salk vaccine is safe and effective.

California, where 11 of the new cases have occurred, asked for new supplies of the vaccine to continue the program.

Vaccine manufactured by the Cutter Laboratories of Berkeley, Calif., had been widely used in the California vaccinations. But 15 children have come down with the polio after receiving Cutter vaccine shots and the government has placed a temporary ban on the laboratory's product.

The National Foundation for Infantile Paralysis said it would air express 243,000 doses of Salk vaccine to California to replace the withdrawn Cutter vaccine. In addition to the 11 California cases, two children who received inoculations have become afflicted in Idaho and one each in Illinois, Colorado and Georgia. One of the Idaho children died.

New Cases Reported
The new cases included three in Los Angeles, one in Riverside, Calif., one in Oakland and one in Columbus, Ga.

The Georgia case raised a new problem, since the six-year-old boy came down with polio after being inoculated by vaccine produced by Eli Lilly & Co., of Indianapolis.

Eli Lilly is one of the major suppliers of vaccine for the mass inoculation program. But the Public Health Service said the single case was not enough to justify a ban against Eli Lilly vaccine and the company said "it is not surprising" that one of the 2,700,000 children receiving the vaccine in 13 Southern states had become ill.

Meanwhile, a Salt Lake City doctor said his three children developed 105-degree temperatures, muscular soreness and stiffness five days after receiving inoculations of Cutter vaccine.

"There is no doubt in my mind my children had a reaction from the vaccine," the physician said.

Atomic Test of Cities Now Known as 'Operation Miscoe'

Las Vegas, Nev.—(U.P.)—Operation Miscoe—to test ability of American communities to withstand atomic attack—was unofficially redubbed "Operation Miscoe" today because fickle weather continued to delay the test.

The Atomic Energy Commission weather experts said the nuclear detonation on Yucca

Flat, already thrice postponed, could not be triggered until at least Saturday morning. Another weather evaluation was

Dispute Marks Closing O&C Road Hearings

Portland—(U.P.)—The third and closing day of hearings by the Bureau of Land Management yesterday on proposed changes to right-of-way regulations was marked by a sharp dispute between private owners and O&C counties.

The Association of O&C counties urged federal control of access roads to O&C lands.

O&C lands are for the most part small pockets of federally-owned timber isolated by surrounding private holdings. If denied access by private owners, the government cannot harvest the timber. Eighteen Oregon counties under 1937 law receive three-fourths of O&C timber revenues.

Land owners at the hearing insisted that the roads remain under private control.

4-H Club News

Gold Hill Club

The Gold Hill Livestock club met April 27 at the Estremado home. There was a small discussion on the local lamb fair which is to be held July 21.

An arrangement committee, consisting of Lois and Jim Biles and Jean Estremado, was appointed. Members took turns naming points found on a good steer, before going out to look at two steers.

The good and bad points of the steers were discussed.

The next meeting will be held May 11 at the Carter home in Rogue River.
