

Neuberger Urges Wheat Program

Washington—(U.P.)—Sen. Richard L. Neuberger (D-Ore.) has urged adoption of a two-price support program for wheat. He said it would "help relieve the crisis" in wheat and end accumulation of government surpluses.

Neuberger said the two-price program "May not be perfect" but it is better than the administration's "insistence on the economic wringer of flexible price supports, which promote a kind of agricultural survival of the fittest by putting numerous farm families on the edge of bankruptcy."

In a speech prepared for delivery in the Senate, Neuberger said the two-price system would have the advantages of returning the sale of wheat to the open market, lowering market prices and thus increasing exports and use of wheat, and guaranteeing farmers full parity on that part of their crop which goes into domestic human consumption.

Under the two-price plan, farmers would sell all their wheat on the open market. Each farmer would be allocated his share of the domestic wheat market and receive certificates for that share worth the difference between the market price and 100 per cent of the parity price for wheat.

As early as 1912 motor driven fire apparatus began to displace fire horses in San Francisco.

SEVEN BRAVE LADIES—Seven women who will be in a trench 10,500 feet from "ground zero" during "Operation Cue" show how they will kneel in a trench during the actual atomic blast at the Nevada test site. Left to right: Mrs. Lydia Durst of Silver Spring, Md.; Mrs. Shirley Smith of Oakland, Cal.; Mrs. Carmen Goad of Oakland; Mrs. Robert Ives of Topeka, Kas.; Mrs. Grace Doebler of Tucson, Ariz.; Mrs. Jean Fuller of Battlecreek, Mich., and Mrs. Helen Leininger of New York City.

A LONG SKI

Concord, N.H. —(U.P.)— New Hampshire's ski tows and lifts, laid end to end, would reach more than 20 miles. The state's planning and development commission says theoretically the combined lifts and tows could carry 50,000 skiers an hour to the summit of Mt. McKinley, the highest mountain in North America.

Maximum Penalty Given For Bad Check

Klamath Falls —(U.P.)— James Samuel Sweeney, 36-year-old former Prescott, Ariz., policeman who insisted on a jury trial so the state would have to convict him the "hard way" on a bogus check charge has been sentenced the hard way. Circuit Judge David R. Van-

denberg imposed the maximum penalty of five years in the state penitentiary.

Although admitting he had no defense, Sweeney told District Attorney Frank Alderson he would not plead guilty and that he intended to take advantage of his constitutional rights. The

Rare Blood Flown To Save Baby

Redwood City, Calif.—(U.P.)— Two pints of an extremely rare blood type, donated by two Cree Indian sisters, have been flown by jet plane from Canada to replace the entire blood supply of a baby due to be born here next week.

The blood, so rare that only 25 persons in the world are known to have it, will be used to save the life of the baby of Mrs. Nadine Robertson, 29-year-old wife of a Belmont, Calif., plumbing superintendent.

Mrs. Robertson expects to enter the Sequoia Hospital here May 7 for a caesarian section birth. The baby's entire blood supply will be drained immediately after birth and then replaced with the new blood.

The mother has positive "O" type blood and her husband, Albert, has negative "O" type. In addition, the grandparents of the child on both sides of the family had opposing RH factors in their blood.

Doctors said, therefore, there was a conflict in the "sub. sub RH factor" that would cost the child's life unless the blood change was made.

jury that convicted him last Monday deliberated only 18 minutes.

The charge grew out of a \$45 bogus check written here earlier this year which was drawn on a San Antonio, Tex., bank. The state had to call the executive vice president of the bank to testify.

Raft Lehi II Tested For Honolulu Jaunt

San Francisco —(U.P.)— Skipper DeVere Baker put his raft Lehi II through a final inspection yesterday in preparation for its long-heralded and much postponed trip to Honolulu.

Baker and three other crewmembers put the Lehi II through a test cruise Wednesday, journeying the six miles from Oakland to San Francisco in 4 1-2 hours, partly under its own power and partly in tow.

The Lehi II berthed at Aquatic Park lagoon after practicing "tow and cut adrift" maneuvers with the fishing boat Seabee, owned by Emil Habitar, of Berkeley, Calif.

Salem —(U.P.)— Gov. Paul Patterson has appealed to maritime commission members and Department of Commerce officials in an attempt to get two ship conversion contracts for Willamette Iron and Steel Company.

Portland —(U.P.)— Prof. L. E. Russell, presently head of the Ozark Academy at Gentry, Ark., will be first principal of the new 300 student Seventh-Day Adventist boarding school near Milo in southern Oregon when the institution opens this fall.

How Times Have Changed

Far cry from the old-fashioned "general store" is the streamlined super-market of today! Stores have changed to keep up with the pace of the times and with our expanding population.

Another important aspect of our changing times is ENLIGHTENED HOME FINANCING

At no time in history has it been easier for stable, deserving families to have homes of their own. To keep up with population growth, we are building more homes than ever before . . . and financing the greater portion of them through home-owned Savings and Loan Associations like JACKSON COUNTY FEDERAL.

Why? Many Reasons. Here are Some:

PAY-LIKE-RENT Home Loans

which make owning a home as easy as paying rent

LOW DOWN PAYMENTS . . .

A VARIETY OF LOAN PLANS . individual plans which help each family get the home to fit its physical needs and its financial situation . . .

FRIENDLY COUNSELING . . .

on a variety of important matters in home building, purchasing or repairing . . . offered without charge.

The trained personnel of JACKSON COUNTY FEDERAL have the latest information on building restrictions and taxes . . . on materials and plans. Ask them. Supplying this and like information is part of their service.

And Remember, When You Build or Buy a Home . . Or Remodel or Repair the Home You Now Have, You Make a Big, Long-Term Investment. It Pays To Deal With People You Know, In a Home-Owned, Home Managed Institution Which Has Been a Part of the Community for a Long Time . . . And Will Be Here for Many Years To Come.
