Labor Party Loses Ground in Scotland

London — (U.P.) — The Labor Party lost ground in Wednesday's Scottish municipal elections but voter apathy prevented the contest from indicating a trend for the forthcoming national election, results showed today.

The Laborites suffered a net loss of 13 seats in a slight swing to the right in voting in 98 Scottish cities and boroughs.

Less than 40 per cent of the electorate turned out in most districts and the vote did little to affect the status of the parties in the various city and county councils.

263 El Camino, Beverly Hills, Calif.

AND HOW'S YOUR RHEUMATIZ?

It happened long, long ago, but I still feel red in the face when I think of it. I had just hung my shingle on the door leading to my office over Tower's clothing store on the four corners in Penn Yan — last time I saw Penn Yan the store was run by a handsome fellow named Boyd who was Walter Tower's errand boy in the golden days when Topsy was a colt.

Some nice people were kind enough to invite the new doctor to their home for a card party — euche, what else? Everybody was so intent on the game and the crowded room was so quiet I was under no strain at all. Suddenly a ponderous gentleman, leaning back in his chair to study his hand leaned a bit too far and fell on the floor. Everybody else gasped, but the new doctor — oh well, I guffawed. The man suffered nothing more than loss of dignity, but few if any of the guests at that party ever engaged my professional service. I don't guffaw but I do get many a quiet chuckle from the ponderous "literature" ground out these days on the subject of "arthritis," chronic joint trouble, that is. The credulity, yes, the gullibility of customers with such trouble is marvelous, and whenever the customers begin to lose interest a brand new miracle medicine arrives. The new medicine, according to Uncle Pete or Aunt Polly, promises to conquer the scourge that has so long baffled, etc.

Now you poor souls know I'm no authority on joint trouble or any other ailment. But since I took to quacking it in the papers I have had more time to study what I call chronic rheumatiz — more than most real doctors have, I mean. And the conclusion I have drawn from this study, which may or may not interest you, is that in most cases chronic joint disability (trouble of over a year's duration) is not inflammation at all, nor arthritis, but physical degeneration.

If this offends you, I'm sorry — not that I said it, but that anybody who can read can be so—

Never mind. Consult Webster for the medical meaning of degeneration.

I am sure any nutrition authority

ority or any pathologist will tell you that malnutrition (nutritional deficiency) is the principal cause of physical degeneration, nutritional deficiency through periods of months or years.

A pathologist will tell you that there is precious little inflammation involved in most cases of chronic joint disability. So it comes to me that the fast-buck operators who exploit popular credulity with ever changing wonder drugs and funny treatments for "arthritis" are just exploiting popular credulity.

How many friends or acquaintances of yours have been cured of their "arthritis"? Let there be no misunderstanding about this. I know of no cure for chronic rheumatiz. But hundreds of reports — very well, then, testimonials — received from readers I believe the suggestions I offer do not harm in any case and do much good in many cases. Send me a stamped envelope bearing your address and ask for the pamphlet "Calcium and Rheumatiz."

In LaCrosse we read your columns and go along with nearly everything you write except your advocacy of fluoridation. You see, through the hoaxes of the U. S. Public Health...

Answer—Too bad. I advocate fluoridation of the water supply and I don't take the "rat poison" propaganda seriously.

What vitamins or other items of health value does one get from raw sugar, which costs 20 cents a pound, in place of plain white sugar? It tastes the same but is brownish in hue... (C. J.)

Answer—Adelle Davis says (in her book LET'S EAT RIGHT TO KEEP FIT, Harcourt Brace, \$3) that "raw sugar has all the disadvantages of refined sugar, in that it can cause tooth decay, overstimulate insulin flow, and ruin appetites." There's no better authority.

Tonsils and "Cold"

Three children, 5, 4 and 3, constantly get "colds," and every time the doctor says that the only thing that will stop them from having so many "colds" is to take out their tonsils... (Mrs. C. W.)

Answer—Initially 30 out of a hundred children with enlarged tonsils have about three severe so-called "colds" each winter. Twenty-two out of each hundred children with enlarged tonsils continue to have above this same number of severe so-called "colds" each winter after removal of their tonsils. Let the doctor laugh that off.

Another Child Dies After Cutter 'Shots'

New Orleans — (U.P.) — The small grandson of Dr. Alton Ochsner, famed New Orleans surgeon, died yesterday from polio, 11 days after he was inoculated with a shot of the Salk vaccine from the Cutter laboratories.

The child was E. Allen Davis Jr., who was 30 months old. Doctors at Foundation hospital said the boy was given a shot of the vaccine 11 days ago. He developed bulbar polio Sunday. Physicians at the hospital said it is their opinion that the vaccine was in no way responsible for the illness of the child.

Dead line for Sunday Classified is at noon Saturday.
