

Four Alcatraz Convicts in 'Solitary' After Demonstration for Privileges

San Francisco —(U.P.)— Four Alcatraz convicts, part of a group of eight that staged a minor riot on the "Rock" two weeks ago, remained in solitary confinement today until they "straighten out."

Warden Paul Madigan said the four are on a restricted diet of 2100 calories a day. The other four have been returned to their cells.

Madigan said neither guards nor prisoners suffered any physical injuries. He said it was a "minor incident."

He did not disclose the names of the prisoners, but said no prison "celebrities" were involved.

this institution." Madigan assumed the job of running the nation's tightest maximum security prison last Jan. 18. The last reported incident at the prison was a short-lived "kitchen riot" in 1953. In May, 1946, a bloody three-day mutiny resulted in the deaths of five guards and inmates and injuries to 13.

Unique Place "Alcatraz holds a unique place in the federal prison system in that the inmates confined are generally those who have failed to adjust and respond to the many advantages available in other institutions," he said. "On occasion, an attempt is made to carry on their obstreperous behavior upon transfer to

Graduation Week Activities Listed By Rogue River HS

Rogue River — Activities for Rogue River High school graduation week have been announced by Principal James Hayden. The week will start Monday, May 23, following baccalaureate services Sunday night, May 22.

The Rev. Ray Prinzing will deliver the baccalaureate sermon in the high school gymnasium, and the Rev. Don Mainwaring of Wimer will read the invocation and benediction. Services will start at 8 p.m., and Rogue River churches will not hold night services so residents may attend baccalaureate.

Senior Breakfast Monday, May 23, the annual senior breakfast will be held at 10 a.m. in the VFW building. The breakfast is sponsored by the Rogue River civic club. Seniors will practice for commencement Monday afternoon in the high school gymnasium.

Final examinations will be held Tuesday, May 24, and Wednesday morning, May 25, before school officially closes the afternoon of May 25, when eighth grade graduation will be held.

High school graduation will be held at 8 p.m. Thursday, May 26, in the high school gymnasium with four seniors chosen by the senior class as speakers. They are Yvette Stevens, Lee Irwin, Charles Davis, Jack Herberger and Bob Hoover, two of whom will be valedictorian and salutatorian. The two highest class members will be announced later.

More Power Seen In Columbia Region

Portland —(U.P.)— Bonneville Power Administration reported today that restoration of interruptible industrial power loads will be made soon if the indicated spring runoff in the Columbia river headwaters continues.

Yesterday morning, a flow of 136,000 second-feet at Grand Coulee was recorded. It was the second highest flow since last September.

Warmer weather over the region plus added generating capacity from filling reservoirs is expected to provide enough reserve to carry all loads with little or no steam generation by early next week, BPA spokesmen said.

Klamath Indian Timber Order Signed

Washington —(U.P.)— Secretary of Interior Douglas McKay has signed a contract for disposal of 806,000 acres of timberland and other properties of the Klamath Indian tribe in southern Oregon.

Property of the 2070-member tribe will be dispersed according to regulations to direct the termination of federal supervision of Indian reservations.

Three Oregon businessmen were a second party to the contract. T. B. Watters, Klamath Falls; W. L. Phillips, Salem, and Eugene Favell, Lakeview, were appointed by Secretary McKay to direct the end of federal controls on the Klamath Indians.

MEDFORD FIRM FILES Salem —(U.P.)— Articles of incorporation were filed here today for the Simplot-De Voe Lumber Co. of Medford. They were signed by J. R. Simplot, E. J. De Voe, John M. Dahl and Henry J. Davis.

Employing Persons With Handicaps Said Good Business

The program to encourage employment of physically handicapped people is not an appeal for charity or sympathy but is an effort to show industry that it is good business to tap this great reservoir of useful labor, it was emphasized yesterday by Victor E. Newman, interviewer with the state employment service here, in a brief address before the Medford Rotary club.

Newman spoke at a luncheon meeting at the Jackson hotel. Emphasis is placed on ability rather than disability of thousands of physically handicapped persons in the U.S., the speaker said. The nation-wide drive to provide useful employment to this important segment of the country's population depends upon wide-spread publicity, to find jobs and make employers aware of qualifications of those who have become handicapped by accidents, disease or war service.

Film showing successful employment of physically handicapped people in business and industry was shown. Clifford J. Hanson, Rotary program chairman, introduced the speaker.

Food, Drug Clerks Accept Wage Boosts

Portland —(U.P.)— Wage increases ranging from 5 to 7 cents an hour were accepted late yesterday by more than 1500 AFL food and drug clerks in chain and independent retail stores in the Portland area.

The agreement included increases of premium pay for Sunday work from 50 to 62½ cents an hour.

Union secretary Gordon Swope said the two-year agreement is retroactive to May 1. It can be reopened in one year for wage negotiations, he said.

Grocery and vegetable clerks will receive an hourly 6-cent increase.

Covered are stores in Portland, Hillsboro, Milwaukie, Gresham, Oswego, Forest Grove and Beaverton.

Bonanza Student Gets SOC Student Body Job

Ashland — James Womack, Bonanza, was elected president of the student body of Southern Oregon college in run-off elections this week. Womack defeated Charles Weir, Grants Pass.

Other officers are Robert Myrick, Ashland, second vice-president; Leon McDougall, Medford, first vice-president; Barbara Havlina, Malin, secretary; James Stuckey, Ashland, treasurer; and four representatives - at - large, Isobel Carr, Medford; John Rawls, Grants Pass; Anna May Walters, Grants Pass; and Riley Winchell, Medford.

There are five recognized pulpwood producing regions in the United States, corresponding roughly to the principal forest regions.

E. H. Hedrick Given PTA Service Award; New Teachers Elected

E. H. Hedrick, veteran superintendent of schools in Medford who will retire Aug. 1, was honored by the Medford Council of Parents and Teachers last night. He was presented with the special service pin of the National Congress of Parents and Teachers.

The presentation was made by Mrs. W. G. Ardry, president of the council here, in recognition of and appreciation for Hedrick's "outstanding cooperation" with the PTA through his many years of service.

Accompanying Mrs. Ardry to present the award at a meeting of the board of School District

49 were Mrs. Roland Holmes, incoming president of the city PTA council, and Mrs. G. T. Hauptert.

During the meeting, the board opened bids for asphalt tiling and counter tops at the new Jefferson school. Bids were made by Bernard's, Laurine and Dyke, and S and W. Floor Coverings. They were taken under advisement by the board.

It also selected a route for a new street south of Jefferson school which will connect the school site to Garfield st.

The resignation of Roy Lundborg, commercial instructor at the Medford High school, was accepted. He will take a post as commercial instructor at Beaverton Union High school.

The board also elected a number of new teachers for the coming school year, among them Ward R. Smith, who will be band director at the new junior high school on the east side. He comes here from Walla Walla, Wash., where he held a similar post. He has had a number of years of experience in Montana and Washington in the direction of secondary school bands, the board was told, and has had success in obtaining good ratings for his instrumental groups at music festivals. He was highly recommended on the basis of experience and training.

Other elections included Mrs. Ellen Meek, Miss Alpha Jane Clinkenbeard and Mrs. Marjorie Blair, elementary; Roland Weatherford, elementary physical education, health and coaching; Mrs. Lola Work and Mrs. Mary Anderson, primary; Mrs. Patricia Stewart, intermediate; Miss Jeanne Darby, girls physical education, junior high; Miss Anne Gentle, homemaking, junior high; Miss Catherine Fonken, art, junior high; Monte Kounz, math and science, junior high; and Karl A. Kahle, Bruce Nelson and Robert G. Work, junior high.

Veterans Hour Show Due Friday

Camp White—The last in the current series of Veterans hour programs will be presented at the Domiciliary theater here Friday at 7 p.m.

The program, sponsored by District 13, American Legion, and radio station KYJC, under the supervision of the post hospital committee of Myers-Holland post, American Legion, Central Point, includes a variety show and radio quiz.

Franklin "Jerry" Girard, recreation director at the camp, will be director and master of ceremonies. Five domiciliary members will be contestants for prizes in the quiz.

The Green Valley boys, directed by Carl Aitkins, will play during the variety show, which also will feature 4-year-old Viki Aitkins, Sandra and Sharon Laing, dancers, and Mrs. C. R. Alexander and her Hawaiian orchestra.

Refreshments will be served after the program by the Legion auxiliary of Central Point, and the public is invited to attend.

Now! RAILROADING by **RADAR**

S.P.'s new gravity switching yard at Houston sounds like science fiction. For on this mammoth maze of tracks the wizard hands of electricity, radar and electronics do a giant's share of the work, putting together freight trains day and night, under any conditions of visibility. Men are important in the act, too, but the system of automatic control—called automa-

tion—is the astonishing thing. It is part of the drama of modern railroading—of the progressive ways and means sought by Southern Pacific to bring you finer freight and passenger train service. The pictures below show you how radar and an electronic brain team up to improve this vital yard operation.

1 Cars from incoming freight trains are uncoupled and nudged one at a time over the crest of a small artificial hill, called the "hump."

2 Towerman "orders" each car to its scheduled track position in yard through an automatic switching system, which times and sets switches ahead of car.

3 Starting its roll downhill, the car is clocked for speed by radar and is automatically weighed. Speeds vary, depending on loads and other factors.

4 An electronic computer instantly notes the car's weight, speed, reliability, distance to roll, and other factors including even wind resistance, then, like a mechanical brain, gives the all-important answer: to...

5 ...the "retarder," or electric brake, set in the track, which exerts necessary pressure to release the car at precisely the right speed...

6 ...so that it will roll to its near or remote destination in the switching yard and there couple smoothly and safely into a newly formed train.
