

**On The Side**

By E. V. Durling

Beware of her blonde hair for she excels. All women in the magic of her locks. And when she winds them round a young man's neck she will not ever set him free again.

—Goethe.

Who was Hamilton E. Smith? If your wife cannot answer that query she should blush a long, long blush for her ignorance. Hamilton E. Smith invented the washing machine in Pittsburgh, Pa., in 1859. There should be a monument to this genius. Too many kindly and considerate inventors, who have been great benefactors of the female sex by making housework easier, are now forgotten men.

**Roy Rogers Earns Honors at College**

Covallis—Roy Rogers of Medford was selected for membership in Phi Kappa Phi, national all-school scholastic honor society at Oregon State college at the recent annual OSO honors and awards convocation. He also received honorable mention for the punior E. A. Cummings award.

The Cummings award is presented annually to the man of highest standing in the four classes and is based on scholarship, success in student activities and qualities of manhood and leadership.

Phi Kappa Phi membership is open to the top scholastic 10 per cent of the senior class and 3 per cent of the junior class and selected graduate students and faculty members. The organization includes persons from all departments of American colleges and universities. Rogers, a junior in electrical engineering, is the son of Mr. and Mrs. Earl W. Rogers, 847 Pennsylvania ave., Medford.

**Scelba Turns Reins Over To New President**

Rome—(U.P.)—Premier Mario Scelba submits the resignation of his middle-of-the-road government today to his bitter opponent, new President Giovanni Gronchi, in a formality which could turn into a political crisis.

Most observers expected Gronchi to reject the resignation and thus avoid the crisis until after the important elections in Sicily June 5. But there was still no certainty of what will happen when Scelba drives to the Quirinale palace this evening to submit his resignation as a formality to the new president.

**Asking**

Queries from clients. Q. Was Clara Bow just an extra or a member of the cast in the silent film classic titled "Down to the Sea in Ships?" A. Clara was a member of the cast of that picture, which was produced about 33 years ago. She played the part of "Dot" Morgan, described in the program as "a wild child born of the sea." . . . Q. A fly ball hits the first baseman on the head, bounces in the air, and the second baseman catches it before it touches the ground. What would be your decision on this play? A. Batter is out. Second baseman gets a put-out. First baseman assists.

**Wedding Rings**

Inscription on the wedding ring of Mrs. James Stewart, wife of the conscientiously nonchalant film star, is "Gloria and Jimmy 8-9-49," indicating, of course, they were married August 8, 1949. This brings to mind the inscription on the wedding ring of Mrs. William Jennings Bryan, which was "Won 1880." One 1884," meaning they became engaged in 1880 and were married four years later. Both these inscriptions sound too statistical to me. Are lacking in the romantic angle. A wedding ring inscription I like is "Esto perpetua," meaning "May it last forever."

**Sidelights**

When a woman has a preference for an extra long cigarette holder, it indicates she is suffering from a sense of inferiority. Or, so say the psychologists . . . Do you consider yourself a well informed fellow? If so, tell us quick as half a flash what is the difference between a misogynist and a misogynist?

**Among the Married**

Do you like carrots, spinach or broccoli? These are valuable vitamin packed vegetables. Also carrots are claimed to improve the eyesight. If you ate more carrots, sir, you could hole out more long putts and see blondes better. It is said by dietitians the reason so many men don't like the vegetables aforementioned as because their wives don't know how to cook them. So, if you don't like carrots, spinach or broccoli, perhaps you should send your wife to cooking school.

**Portland Station Attendant Slugged**

Portland—(U.P.)—A 75-year-old gasoline attendant was slugged by a robber who was armed with a hammer yesterday afternoon. The robber escaped with about \$300 in cash.

George A. Schreiber suffered deep head lacerations. His condition was described as "fair." He said his assailant had waited in the service station office for several minutes posing as a customer. "Suddenly I felt this blow on my head and I fell to the floor," he said.

**BAKER BANS PINBALLS**

Baker—(U.P.)—The Baker city council has decided to ban pinball machines after a year-long struggle by tavern owners to gain city approval for the devices.
