Many To Be Stranded In Northern Viet Nam

Washington — (U.P.) — Diplomatic officials predict that about 1,000,000 Vietnamese who want to flee Communist rule will be stranded in North Viet Nam after next Wednesday. That is the deadline for the Communist takeover of the northern part of the Indochinese nation. The flow of all refugees must stop then unless the Reds agree to extend the time limit. The United States and some of its allies have been quietly trying to get the deadline extended so persons still in the north can move south if they wish. But authorities hold little hope that these efforts will succeed.

To couple is a custom All things thereto agree Why should not I then love Since love to all is free? For everything created In the bounds of earth and sky Hath such longing to be mated It must couple or must die. —Whyte-Melville

Queries from Clients. Q—Who was the first feminine film star? A— Florence Lawrence. Before Carl Laemmle gave her star billing in 1910, no film actresses were given screen credit. Even Mary Pickford was only known as "The Biograph Girl." Q— What would you name as Walter Donaldson's greatest song? A—That's strictly a matter of opinion. Some say it was "My Blue Heaven." Others prefer "Mammy." My favorite of all the great songs Walter wrote is "My Buddy."

Sidelights Bachelors have a very difficult life in Greece. In that country all bachelors must pay double taxes. Also, any public official who is not married by the age of 25 must resign his position. . . . The reason there have been so few left-handed golf or billiard champions is that southpaws are not usually sufficiently calm in temperament to succeed at those games. Southpaw baseball pitchers succeed

only when steadied by an unusually clever catcher. Shut In Clarence Day suffered so severely from arthritis that he was compelled to spend most of his life as a shut-in constantly in pain. Yet, while suffering intensely, he established a successful glove business and wrote that great best seller titled "Life With Father."

Please Note "Darling" was once a term of endearment among married couples. Now it is just a routine salutation. It is also much used by wives as a preface to sarcasm, correction, or criticism. Then the word is further abused by those dizzy dames who call everybody "Darling!" Passing By Ida Lupino. Continuously charming and highly capable actress. Her clever ancestor, George Lupino, made his first appearance before an English audience in 1642 A.D. And ever since for over 300 years there has been a member of the Lupino family active in the British or American theater or both.

Asides An Aries (March 21-April 20) husband should take his wife along when he buys any thing or discusses a business deal or contract. Aries males are very trusting and easily deceived by slickers. Or, so say the stargazers. . . . Am asked what President of the United States was a saxophone player. None I know of. However, President Harding played the trombone. Get It Right Still continued in the argument regarding the silver dollar George Washington allegedly threw across a river in Virginia. Some say he threw it across the Potomac. Others say it was the Rappahannock. The date given for the much discussed event is 1738. Those who really check when arguing say no silver dollars were coined in this country until 1792. They further point out that in 1738 Washington was only 6 and probably not strong enough to throw a penny across a babbling brook.

Briefly Frenchmen got along better with their mother-in-law than the husbands of any other nation. . . . Feminine subscriber says that next to the query, "How are you going to look in a bathing suit?" the one that makes her shudder the most is "Are your birthdays showing?"

Probe Requested in Soldier's Discharge Washington — (U.P.) — Rep. Don Magnuson, (D-Wash.), has asked for a congressional inquiry into the Army's proposed "undesirable" discharge of a reserve corporal whose father was accused of being a Communist. The serviceman involved is Cpl. Walter William Kulich, 22, Aberdeen, Wash.
