LET'S FACE IT

155,000 forest fires occurred in the U. S. last year—more than 400 a day!

The tragedy is that 9 out of 10 were caused by well-meaning people who were careless. This destruction ruined 10 million acres of forests and recreational areas, damaged valuable watersheds and killed animals and birds by the thousands. Yes, and humans lost their lives too.

Pledge yourself to be careful with matches, smokes and campfires. Help stop this shameful waste. Remember—Only You Can Prevent Forest Fires!
