

Paving Hearings Set by City Council; Project Bids Asked

The Medford city council last night called public hearings June 7 regarding the paving of East Jackson st. between Hawthorne and Genesee sts., and on a sanitary sewer on the north side of Stewart ave. west from Hamilton st. 251 feet.

Ordinances were adopted calling for bids June 17 on paving projects on East Jackson st. from Lindley st. to Berkeley way, Park ave. from Catherine st. to Stewart ave., and on Hamilton st. from 13th st. to 106 feet south of 11th st.

Plans and specifications were adopted for a sanitary sewer on the north side of Stewart ave., and for paving between Hawthorne and Genesee sts. on East Jackson st.

Annexation Studied

A recommendation that a portion of Laurelhurst addition which is not now within the city be annexed was received from the planning commission, and the council authorized Duff to make a report on the proposal. The annexation would be brought up at the same time as a proposed annexation in south Medford, because an election will be necessary.

The council awarded a contract to Crater Lake Motor company for a pickup truck for \$1,299 on a trade-in, and awarded a contract to Courtesy Chevrolet for a dump truck for \$2,934 on a trade-in.

Howard T. Funk, 511 May st., was appointed to replace the late Joseph Jensen on Medford Fire department.

Bidder Qualified

The council qualified Peter Kiewit Son's company for a bidder on city public works, and an option on power line right of way for California Oregon Power company was extended to Sept. 1, 1955.

An ordinance concerning quality of milk required by the state department of agriculture was adopted. The ordinance complies with department of agriculture standards for milk quality.

A request from the First Church of Christ Scientist for a sewer connection on Oakwood drive was referred to the planning commission, and a request from A. H. Hiebert for an extra-width driveway on Almond st. was delayed to the next council meeting.

Duff reported to the council that some options for right of way along Niantic st. for paving purposes have been obtained, but that several still are outstanding.

He said the city would continue efforts to obtain options, because Niantic st. is worthwhile for the city's street program.

Take No Action

The council took no action on a request from Benton Smith for city participation in paving the intersection at Columbus ave. and Mt. Pitt st. The council pointed out the responsibility was with property owners to finance paving intersections.

Action was deferred on a request from Electrical Products for a lot in land dedicated for the extension of Kenneth st. between Court st. and Riverside ave.

No action was taken on an application from M. M. Huggins to sell Mobilgas aviation fuel at the municipal airport and to lease two tanks which were left by the Air Force. The tanks, the council pointed out, do not belong to

the city since no formal documents have been received from the government turning them over to the city.

Sewer Petition

A petition for a sanitary sewer in the Highcroft addition was referred to the engineering department, as were paving petitions for Oak st. between Second and Haven sts.

John Snider, president of the council, substituting for Mayor Earl Miller, reminded the council of Armed Forces day ceremonies at municipal airport Sunday and urged residents to attend.

The council granted John L. and Mildred D. Arzner at Community Grocery, 1101 East Jackson st., a license to sell wine, and granted Laura A. Saines at Woodland Heights Market, 1501 Prune st., a permit to sell beer. (Other council stories on Page 1)

Armed Forces Display Slated Here Sunday

Maj. Gen. William T. Hefley, commanding general of Sacramento air material area at McClelland Air Force base, Calif., will be principal speaker at Armed Forces day ceremonies at municipal airport Sunday afternoon.

The formal program will start at 1:40 p.m. Sunday with an invocation by Dr. Raymond E. Walcomb of the First Methodist church, followed by assembly of flags at 1:45 p.m., with veterans organizations, Girl Scouts and Boy Scouts participating.

After The Star Spangled Banner by the Medford High school band, there will be 15 minutes of band music by the Medford group, and a 15-minute program by the Sixth Army Bagpipe band from San Francisco.

To Introduce Guests

Col. W. H. Bartlett, project chairman, and Mayor Earl Miller of Medford will introduce guests starting at 2:30 p.m. In addition General Hefley, guests on the speakers stand will be Maj. Gen. Roy V. Rickard, Maj. Gen. J. H. Hicks, and Cmdr. Rodney Keating of the naval reserve.

The Rev. Willis Loar of Eastwood Baptist church will offer the benediction.

nearby air force bases, military equipment from Ashland and Medford National Guard groups, as well as displays by the Red Cross, civil defense, the United States forest service, Civil Air patrol, veterans' organizations and Boy Scouts and Girl Scouts.

Tours through municipal airport control tower will be conducted, and 28 armed forces movies and training films will be shown during the day in hangars at the airport.

The 6th Army Kiltie band, from the Presidio in San Francisco, will come here fresh from a number of national television appearances.

The Kiltie outfit is a part of the regular 6th Army band. They play bagpipes and drums and are decked out in full Highland dress. Many people in this area have seen their appearances on Arlene Francis' network television show.

A fly-over of the latest Air Force planes is set for 9:30 a.m.

Trailer-on-Flatcar Service To Northwest

Los Angeles—(U.P.)—Santa Fe Railway today announced extension of its trailer on flatcar service from Southern California to the Pacific Northwest via San Joaquin Valley beginning May 25.

Oregon, Washington and Southern California will be linked by the new service operated with the Western Pacific Railroad and the Great Northern railway. Santa Fe traffic manager R. S. Hirsch said.

Shippers and consignees will be furnished terminal to terminal transport by rail instead of highway trucks retained to transport material to and from depots, Hirsch said.

Santa Fe also plans to extend the trailer on flatcar service from California to Arizona, New Mexico and El Paso, Tex.

Congress Urged To Pass 10-Year Highway Plan

Washington—(U.P.)—The American Municipal Association urged Congress today to approve President Eisenhower's 10-year highway program rather than the five-year Democratic substitute recommended by the Senate Public Works Committee.

The association represents mayors and policy makers of 12,000 cities and towns in 44 states. Mayor Allen C. Thompson, Jackson, Miss., association president, outlined the group's views before a House Public Works Subcommittee. He appealed for a non-partisan approach to the highway problem.

Ashland Councilmen Find Punctuation Mark.

Ashland, Ore.—(U.P.)—A misplaced punctuation mark in a 1948 copy of the Ashland city charter almost stalled the machinery of municipal government until the council found out where it belonged.

Because of a printing error, the council could not decide whether a tract of land was or was not a part of the city's Lithia park. For more than a month councilmen wrestled with the problem before checking the original ordinance to discover the error.

Cub Scouts

Pack 44 Cub Scout Pack 44 will conduct a penny carnival at the Lone Pine school Thursday, May 19, at 7 p.m. They have extended special invitations to all children under school age and to boys planning to join the Cub scouts. Food, games and prizes are planned. Awards also will be made.
