

Auxiliary Opens Poppy Observance; Annual Party Held

Medford unit of the American Legion auxiliary is observing the annual Poppy days today and tomorrow. Mrs. Herb Gifford, president of the unit, states that Mrs. H. C. Goldsmith, chairman, and a large corps of volunteers have been working for weeks in preparation for the event.

The poppies were made for the auxiliary by disabled veterans of three wars working at Camp White. They are crepe paper replicas of the famous Flanders' field poppy, the little wild flower which grew on the battle fields and in the war cemeteries in Europe, and which has been the war memorial flower of the English-speaking world ever since World War I. Arranged in attractive baskets at the American Legion Home here, they are being offered to the public today and tomorrow.

"I hope everyone understands the meaning of the poppies and will pin them over their hearts as a proud tribute to those who have given their lives for America," Mrs. Herb Gifford said. "For the women of the American Legion auxiliary, Poppy Day is one of the biggest days of the year—the day when we honor the war dead and collect funds which enable us to continue serving the disabled and needy children every day of the year."

The annual poppy party for American Legion auxiliary members was held Tuesday evening at the Legion home. Co-chairmen for the event were Mrs. H. L. Goldsmith and Mrs. Carol Parker.

Plans were completed for the poppy days in Medford today and tomorrow, and the poppies were distributed to those who will offer them to the public. The evening was spent playing various card and table games. Prizes were awarded, which had been donated by auxiliary members. Refreshments were served by the chairmen.

Adenauer Appeals For End To Cold War

Bonn, Germany—(U.P.)—Chancellor Konrad Adenauer appealed to the great powers today to agree on a controlled disarmament plan to end the cold war. He suggested the United States propose such a plan at the Big Four conference.

At the same time Adenauer again emphatically rejected any move to neutralize Germany or create a "neutral belt" between the Eastern and Western power blocs. He said such a plan would surrender Europe as "an easy prey to Communism."

The chancellor spoke during a full dress foreign affairs debate in the West German Bundestag lower house, the first it has held since this nation became a sovereign state on May 5.
