

Scout Heads Issue Call For Workers

The camping committee of Rogue Valley Girl Scouts has issued a call for volunteer workers to help put the established camp, Low Echo, at Lake of the Woods in readiness for the camping season. Volunteers will be needed each week end in June to work on many projects, it is stated.

On the program are building a fireplace in the lodge in memory of Mrs. Joseph Hearin, building new cooks' quarters, putting in new kitchen flooring and remodeling the store room, building a new unit to care for expanding camp enrollment, and minor repairs and replacements. The work has all been organized and will be supervised by Mr. Roy Boyd and a committee.

The camp committee is prepared to buy food for any volunteers who might want to help on week ends, and families are invited to stay in the shelters since the campers will not yet be there. Women will be needed as well as men to prepare food for the work crew.

This year each district will be assigned a specific week end for which to supply volunteers. June 4-5 the Ashland-Talent district will supply workers, and those interested are asked to contact Mrs. Monte Polk, Ashland 3491; June 11-12 will be Illinois Valley and Grants Pass week and the contacts are Mrs. Etta Brading, Cave Junction, 4611, or Mrs. Hugh Brown, Greenwood 6-5356.

On June 18-19 the Medford district will supply workers and those able to work are asked to call Mrs. George Ice, 2-7438 or the neighborhood chairman in the Roosevelt, St. Mary's, Lincoln, Jackson, Junior High school or Washington school districts.

For the week end of June 25-26 Howard, Griffin Creek, Central Point, Lone Pine, Shady Cove, Jacksonville and Phoenix neighborhoods will supply workers.

"This is a good way to see the camp, to have fun and to be of real service," it was stated at headquarters. Adults able to assist at Low Echo are asked to call the Girl Scout office not later than Friday before their scheduled week end to indicate the number going up to work so the camp committee can plan the menus and buy food.

Medford Couple En Route Home From Stay Abroad

Mr. and Mrs. Melvin A. Krows expected to arrive in New York City Monday from Europe, having crossed the Atlantic on the S. S. Maasdam. Writing from Cork, Ireland, Mr. Krows described their stay in Paris, the trip on the boat train to LeHarve and the crossing to Southampton.

The Krows wrote that it was cold and rainy in both Switzerland and France, and that they thought Paris "over rated" as a city of culture and of well dressed women. "From our observations, Medford girls wear just as good clothing and look better than the Parisiennes," the letter said.

"Prices are 100 per cent higher (in Paris) than the rest of Europe and economic conditions bad, with little indication of any attempt to work their way out of their inflation. The consumption of wine is tremendous."

The letter also mentioned a bad blizzard in England—"the most severe weather recorded at this time of year in 72 years." Mr. Krows was impressed with the boat train and commented "Our 'Friendly Southern Pacific' could well profit by adopting railroad equipment similar to our boat train special, Paris to LeHarve. It had light diesel equipped coaches, operated as a single unit or in series. Our train consisted of four units and ran from Paris to LeHarve without stop at a rate of 70 to 75 miles per hour."

Later Mr. Krows wrote "our travels so far in eight countries have been in all sorts of conveyances, except horse back and bicycles."

Indians To Observe Signing of Treaties

Walla Walla —(U.P.)— Representatives of the Nez Perce, Yakima and Umatilla Indian reservations will meet here June 10-12 for the centennial observance of the signing of the treaties between the tribes and the United States government.

The attendance figure will not quite match that of the more than 4,000 Indians who gathered here in June 1855 for the treaty council which established the three reservations. Advance reports, however, indicate that between 500 and 1,000 tribesmen will be here to take part in the centennial observance.

Consumption Reduces Dairy Product Surplus

Chicago —(U.P.)— An increased appetite for dairy products and less government support buying is eliminating the dairy surplus, the American Dairy Association said today.

Americans consumed 6,000,000,000 more pounds of milk in the past marketing year than in the previous year, the ADA said. One-third of the increase resulted from greater population, and the rest of the increase stemmed from lower retail prices and the industry's promotion campaign, the association said.
