

Brown Says Defense Attorney At Fault In Execution Delay

San Quentin, Calif. — (U.P.) — California Atty. Gen. Edmund G. Brown charged Saturday that defense attorneys played a "game of cat and mouse" with the life

of convicted murderess Barbara Graham. The 32-year-old "moll" of the infamous "Mountain Murder Mob" of Jack Santo and Emmett Perkins was executed in the San Quentin gas chamber Friday but only after two agonizing delays. Doctors were strapping a stethoscope to Mrs. Graham's chest when the second delay came only four minutes before she was to become executed.

Angered Citizens Of Kalamazoo Plan To End Killings

Kalamazoo, Mich. — (U.P.) — Angry citizens who attended the funeral of eight-year-old Jeanie Singleton began an all-out war Saturday against sex-crazed killers.

Dr. Leo Resmussen, Kalamazoo coroner, organized a civic committee and appealed to citizens to report any sex offenses or suspected sex offenses promptly.

Rasmussen also suggested organizing a speaker's bureau to give safety talks on moral offenses to school children and parent-teacher groups.

The coroner called a meeting for June 16 to discuss action against degenerates and he invited civic organizations to send representatives to the conference.

Jeanie, a crippled child with a sunny disposition, was raped and strangled near a lonely country road 14 miles north of Kalamazoo. Her body was found beneath a blood-speckled pine tree and an autopsy confirmed fears that she was the victim of a sex degenerate.

The little girl was buried Friday at Mount Ever-Rest Cemetery after services at the New Apostolic Church where detectives mingled with mourners in hope the slayer would attend and make some slip. They said, however, he apparently did not go to the services.

Police admitted their only clue was a report of a 1949 or 1950 two-tone blue car which was seen in the area where Jeanie's body was found.

A world stamp fair will be held at Oslo June 4-12 in connection with Norway's postal centenary.

LONE SENTRY GUARDS new four-seat, two-engine, blue and white plane which is being used to transport President Eisenhower to his nearby Gettysburg, Pa., farm. Small craft can make 80-mile trip in 30 minutes and land on 2,200 foot grass landing strip at Gettysburg. (International)

Eden Drafting Back To Work Appeals; Walkouts Tighten

London — (U.P.) — Prime Minister Anthony Eden was reported Saturday to be drafting a "back to work" appeal to striking railwaymen whose week-old walkout is tightening a strangle grip on British industry.

The Prime Minister addresses the nation by radio today from his country estate at Chequers.

Informed sources said he will make a desperate plea to 70,000 striking railroad engineers and firemen to end the transportation tieup that is leading to mass unemployment in this nation.

Workers On Notice More than 250,000 workers in industries ranging from steel works to perambulator factories are on dismissal notices as a result of shortages caused by the strike.

Negotiations between the railroad unions and the nationalized railway management were still deadlocked today and neither side planned any new move over the week end.

The Earl of Lanesborough who owns his own model railroad, offered today to drive real trains.

Norwegian whaling expeditions produced about 137,000 tons of whale oil during the Antarctic season this year.

Small Plane Aviation Gets New Convert in President

Washington — (U.P.) — Small plane aviation has a new convert in President Eisenhower and the Secret Service approves.

What won the President over was a four-seater plane which enabled him to speed to his Get-

tsburg farm and back Friday in less than one hour flying time, a trip that normally takes over four hours by automobile.

The bright blue and white plane was a new "Aero Commander," a twin-engine ship equipped to haul four persons, including a pilot and co-pilot, a Secret Service agent and the president himself.

Half Hour Flight The ship took 32 minutes to fly to Gettysburg, 25 to return. The President thought the return flight was 22 minutes, but that was his time over the Washington Airport, not actually on the ground at point of debarkation.

The President summed up his trip in glowing phrases. He called the AF2, as the Air Force refers to the ship, "a lovely little airplane." He said flying to Gettysburg certainly beat the two-hour motor trip.

Mr. Eisenhower probably will be using the AF2 not only for frequent week end trips to the

farm, but also on flights to other nearby areas. For example, he will use the ship on June 10 to fly to commencement exercises at Pennsylvania State university.

Mamie Takes Auto Mrs. Eisenhower will not be flying in the small ship. She is uncomfortable while flying unless she is in a pressurized cabin in which the AF2 does not have.

On Gettysburg week ends when the President uses the plane, Mrs. Eisenhower probably will precede him to the farm by auto.

The chief executive will continue to use his Super-Constellation, the Columbine, for longer trips when he might encounter weather trouble, when he must carry a sizeable staff with him and where the distance and necessary speed are beyond the capacities of the smaller ship.

Mr. Eisenhower was believed to be the first president to fly in a plane with less than four engines. The decision to shift the AF2 for short trips was made only after extensive testing by the Air Force to the complete satisfaction of the Secret Service, which is basically responsible for the safety of a chief executive.

Ship Reconditioning Scheduled at Portland

Portland — (U.P.) — The coastal motorship Coastal Nomad will be reconditioned here for Mil-

itary Sea Transportation Service duty in Alaskan waters, the Federal Maritime Administration said Saturday.

The vessel was towed to Swan Island from Astoria.

The administration also announced that G. G. Palmberg, Astoria, was low bidder at \$63,648 for cleaning and preparing 11 Liberty ships at Astoria for loading with surplus wheat.

360 LITTLE CIRCLES! COUNT 'EM!

They all look alike, don't they? Yet there's a world of difference the way we figure at Mercy Flights. Those 360 circles represent 360 patients we've flown to either save their lives or spare them pain, and 120 of the circles represent pre-paid subscribers who were flown free of charge. The others had to pay, if they were able. Actually, we wish that all of the patients had been subscribers and flown free of charge. That would mean that everyone in Jackson County was a subscriber, plus a few more out of the county. Both the patients and ourselves would be better off financially.

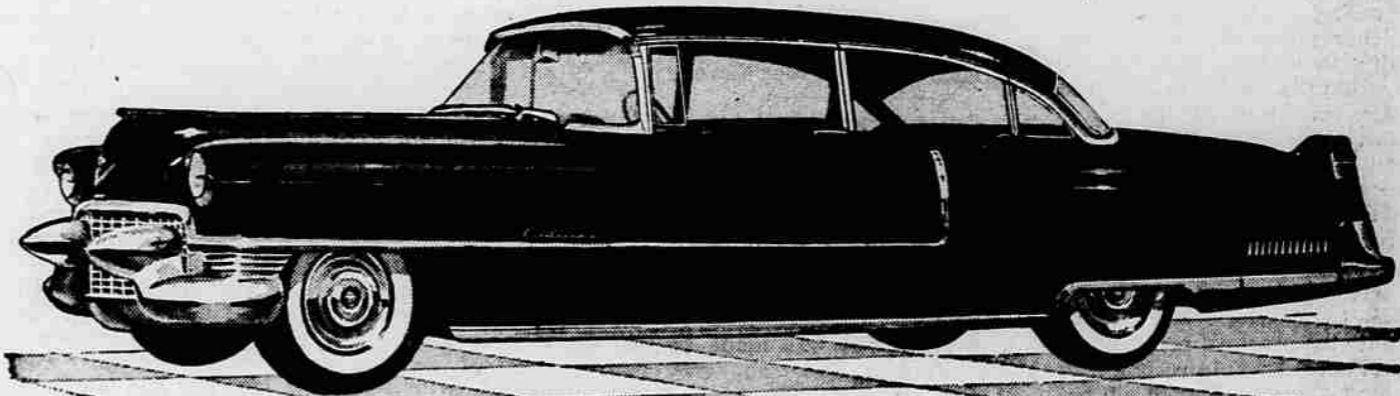

Right now, whether you're a subscriber or not, you enjoy the comfort of knowing that a Mercy Flights crew and at least one of our two planes is standing by day or night to rush you or someone in your family to specialized medical centers in the larger cities. As a subscriber, you pay only \$4.00 a year for your entire family, and forget about the high costs of operating airplanes. Otherwise, a 50c per mile charge is made for non-subscribers. Which do you think would be easier to pay?

Mercy Flights is a non-profit, public service organization which is vital and necessary for the safety and health of everyone in the community. It can exist only with your support as a subscriber. It's so simple to join, so do it NOW. Send your name, address, number in family, and \$4.00 to

MERCY FLIGHTS, INC.

P.O. Box 522 Medford, Oregon

Your subscriber card will be sent to you by mail in approximately 10 days.

Has Its Own Vocabulary!

Over the years there has come into being what amounts virtually to a special Cadillac vocabulary.

Certain words and phrases have so long and so often been used in association with Cadillac that they almost automatically call the car to mind.

When the talk is of motor cars, who can hear the word "prestige" without thinking of Cadillac? It is likewise true of "distinction" . . . of "luxury" . . . of "pride of ownership" . . . of "satisfaction" . . . of "comfort" . . . of "long life and dependability" . . . of "beauty" . . . of "impressiveness" . . . of "value" — and of dozens of other words used to denote superiority.

In a sense, these are Cadillac words—and they actually sound strange when employed in any other connection. Even when used in the promotion of another automobile, they still suggest the "car of cars".

Naturally, words like these can become inseparable only from a product which deserves them. In the

case of Cadillac, it has taken half a century of the strictest adherence to the highest automotive standards to win this public approval.

Eternal vigilance is the price of this reputation. Most people, of course, realize that these wonderful words apply to Cadillac. But too many have not yet personally found out why.

If you are among these—come in and see us today. We will give you the keys to a new 1955 Cadillac—and you'll know in a single hour why Cadillac has its own vocabulary.

You'll know, from personal experience, that when you speak of "prestige" and "distinction" and "luxury" and "pride of possession" and "value"—you are speaking of the Standard of the World.

We have the keys—and the car—and a real welcome waiting for you.

PROGRAM FOR THE WEEK

| DATE | LECTURES | FILMS |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Wed., June 8 | "AN IMAGINARY TRIP THROUGH THE CITY OF ROME WITH THE APOSTLE PETER" This brilliantly illustrated lecture carries a powerful message. Be present to get Peter's impressions of Modern Rome and its religious practices | "AS FOR ME AND MY HOUSE." A Christian girl is swept off her feet and in a moment of high emotion is married to a personable but unbelieving young man by a justice of the peace. During ensuing months the great cleavage between the two in matters of religion becomes apparent. The temporary separation which results is dramatically climaxed when the young man resolves to make Christ the head of the household. |
| Fri., June 10 | "DISCOVERED! THE CROSS OF CHRIST IN A JEWISH SANCTUARY." See a great new colorama illustration featuring the articles of furniture in the earthly sanctuary. Amid Symbol and sacrifice in the old dispensation stood the cross of Christ. How? And why? | "REACHING FROM HEAVEN" Part I. One unexpected incident shocks the entire Church congregation into action in this 80 minute feature film. In ensuing scenes, God uses ordinary people to accomplish His purpose in the lives of others. |
| Sat., June 11 | "THE GREATEST SIGN OF ALL THAT CHRIST WILL RETURN IN OUR DAY." The Bible plainly predicts the return of Christ in our time. What is the greatest proof of all found in the prophecies that deal with our Lord's return? The greatest sign of all will grip your heart as no other warning in the Word of God. | "REACHING FROM HEAVEN" Part II. Dramatic climax to the first part of a film which has been termed the greatest ever produced on the subject of personal evangelism. Don't miss this picture! |
| Sun., June 12 | "SEVEN LAST PLAGUES." Seven angels with seven vials to release seven last plagues in the closing hours of history that will drench the world with blood. How and when will this take place? And how can YOU escape this awful outpouring of God's wrath? | "WORLD'S BEST SELLER." Tremendous film on the authenticity of God's Word featuring E. M. S. Richards and the famed Voice of Prophecy radio cast. View the Voice of Prophecy in action and learn facts you never knew before about the Bible given in the most interesting setting. |

UN Charges ROKs Killed by Reds

Munsan, Korea — (U.P.) — The United Nations Command charged Saturday that the Communists opened fire on six Republic of

Tokyo — (U.P.) — Radio Peiping claimed Saturday that Chinese Communist planes shot down or damaged three American planes which "intruded over northeast China" last month.

Korea soldiers and killed two of them Thursday in "wanton murder."

The UN said the attack took place "without provocation" inside the no man's land that separates North and South Korea, 23 miles northeast of here.

Four other soldiers withdrew under fire and were not injured, the UNC announcement said.

Civil Police The ROK soldiers were members of the civil police stationed inside the demilitarized zone to maintain order.

The ROK soldiers were working around an unarmed three-quarter ton truck when a Communist patrol of undetermined size opened fire on them.

A UNC spokesman said that the armistice agreement in Korea "prohibits any hostile act within, from, or against the demilitarized zone." He termed the deaths as "wanton murder by the Communists."

Large Grocery Firms Merged

Portland — (U.P.) — Two of the Pacific Northwest's largest wholesale grocery operations consolidated Saturday on approval of directors of United Grocers Inc. and Northwest Grocery Company.

The agreement will join all stocks and physical assets of Northwest, valued at more than \$1,000,000, with United, which is worth more than \$2,000,000.

Each company will continue to serve its present customers with no policy or personnel changes contemplated according to a joint statement by Juan Young, United's president, and A. Gordon Stephenson, president of Northwest.
