

Hatoyama Oposed To US Use of Bases

Tokyo — (U.P.) — Prime Minister Ichiro Hatoyama said today Japan should refuse the United States permission to use bases in Japan for launching atomic attacks.

"In the event the United States brings atom bombs to Japan, I believe it will be after obtaining Japan's consent," he told the Clet Budget Committee today. "And if they ask our consent, I am of the feeling that we should refuse."

Hatoyama's statement came during a verbal exchange with Communist Diet member Kanichi Kawakami. Kawakami charged repeatedly that the United States was expanding Air Force bases in Japan to accommodate the B47, which he described as an "atomic bomber."

Labor Peace Formula Drafted in Britain

London — (U.P.) — Britain's striking railway firemen and engineers today accepted a labor-drafted negotiating formula giving the first faint hopes for ending their disastrous 10-day walk-out.

The five-point peace formula was drafted yesterday by the Trades Union Congress, the eight million-member parent labor organization roughly comparable to the American CIO-AFL.

The striking Associated Society of Locomotive Engineers and Firemen announced today that it has entered talks based on the TUC plan.

The proposed compromise would reopen wage negotiations with the British Transport Commission "while the strike is still on."

About 67 per cent of American adults wear eyeglasses.

ESTRANGED—Actress Francesca de Scaffa Cabot, estranged wife of actor Bruce Cabot, as she obtained ruling from Santa Monica, Calif. Superior Court that Cabot is in contempt for failing to pay \$450 per month as previously ordered by the court, for support of two and one half year old daughter. Actor Cabot is reported living in villa in Italy and will face five-day jail term if he enters California.

Police Aid Requested In Locating Relatives

The Medford police department received a request this week from Mrs. Angus Loop, 833 Nelson st., Sedro-Woolley, Wash., for aid in finding relatives.

Mrs. Loop stated that she had been trying to locate the family of a sister of her mother, who lived in Medford about 20 years ago.

Mrs. Loop gave the woman's name as Susan (Mrs. Will) Comstock. The letter also told of a son, Will Comstock, and two daughters, Hazel Overton and Mrs. Laura Sprague, both Medford.

Anyone knowing their whereabouts is requested to contact the police station.

Brazil Discharges American Accusers

Rio De Janeiro, Brazil — (U.P.) — The government yesterday fired six Brazilian Army and Navy officers who had accused American technicians of "sabotage" from the staff of the huge government owned Cubatao Oil Refinery.

Arthur Levy, president of the government oil monopoly, Petrobras, announced the officers' dismissal. He expressed complete confidence in the 34 Americans whom he said run the giant plant.

The technicians were sent here by the Hydrocarbon Research, Inc., New York, under what Levy described as "a highly favorable contract" from Petrobras.

The officers had demanded that Levy take action against the technicians as a result of an explosion last February at Cubatao in which three workmen were killed. Levy said an official investigation is underway to determine responsibility for the accident.

Pentagon Discusses B52 Order Increase

Washington — (U.P.) — The Pentagon, which acted unexcited about Russian air power gains only three weeks ago, now is talking about ordering substantially more B52 jet bombers than currently planned.

It also is considering whether it can speed up the rate of production of any jet fighter types now on order.

Defense Secretary Charles E. Wilson revealed this yesterday. He said officials are "taking a very good look" at the present defense program.

No decision on enlarging the eventual B52 hydrogen bomber force has to be made until life new budget goes to Congress next year. The additional planes would be built after the approximately 500 which are now planned under a speeded-up schedule.

CHURCH LEADER — Mrs. Gertrude W. Eiseman (above) of Boston has been named president of The Mother Church, The First Church of Christ, Scientist, in Boston. Mrs. Eiseman's term of office is for one year.

Government Won't Settle ANPA Suit

Washington — (U.P.) — Atty. Gen. Herbert Brownell Jr. announced yesterday that the government will not settle its anti-trust suit against the American Newspaper Publishers Association out of court.

Brownell's statement came after Rep. Emanuel Celler (D-N.Y.) demanded that the attorney general explain his reported plan to settle the suit.

Brownell said "the Anti-Trust Division has no intention of settling any pending cases without the entry of a consent decree. There would be no effective enforcement of any agreement unless it is made a matter of record by entry of such a decree."

Celler, chairman of the House Judiciary committee, brought up the subject at a hearing on monopoly and anti-trust problems.

Grange Convention Attendance Lagging

Klamath Falls — (U.P.) — Early attendance at the state Grange convention here was cut short by warm weather as farmers remained in the fields, but it was expected to pick up as the week progressed.

Grangers have some 93 resolutions to be considered. Officers said there are now 339 Granges in Oregon, with one new subordinate Grange organized during the past year.

Attendance yesterday was 387 but around 1,000 persons are expected by the end of the week.

There are 51,000,000 telephones in the U.S.

Dead line Sunday Classified is at noon Saturday; 10 a.m. Monday for Monday; other days 5:30 previous day.

Two Men Rescued From Burning Vessel

Atlantic City, N. J. — (U.P.) — The Coast Guard rescued two men from a burning fishing boat in the Atlantic Ocean off this resort city today.

The fishing boat Marie was badly burned and Coast Guard officials said there was little chance of saving the ship.

The two crewmen aboard the vessel were brought to the Coast Guard base here in a 30-foot picket boat. One of the men was burned seriously and was admitted to Atlantic City Hospital.

Formosa boasts a 65 per cent literacy rate, high by Asian standards, says the National Geographic society. Total enrollment in the island's 1,500-odd schools, including one university and eight colleges, is estimated at more than 1,250,000.

Fact Finding Board Named in Milk Strike

Portland — (U.P.) — Mayor Fred Peterson has named the two members of a three-man fact-finding board who will serve with him in an attempt to work out a solution to Portland's milk dispute.

The Rev. James Fogarty, head of University of Portland's economics department, was selected from nominations made by the AFL Teamsters Union local.

Edgar Smith, former Chamber of Commerce president, was chosen to represent milk distributors.

Peterson said the board would report to both sides within 60 days. Neither side would be bound by the recommendations.

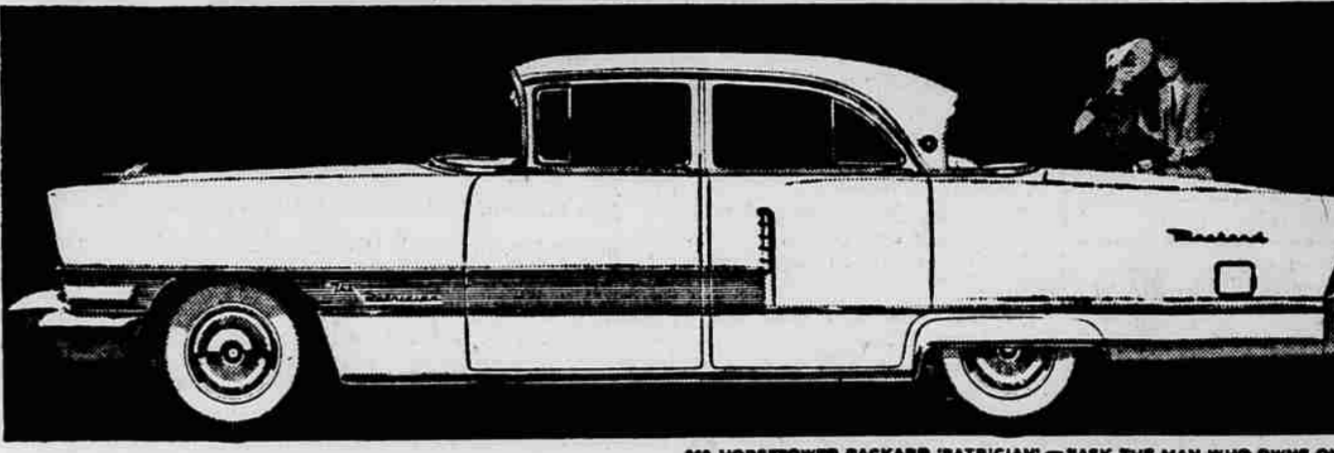

Large stocks of milk were reported in Portland as a result of the milk armistice. Teamsters and dairy producers met Saturday night and agreed to deliver milk while the mayor's fact-finding board studied strike issues.

Pay-As-You-See TV Foes Cite Figures

Washington — (U.P.) — The Committee Against Pay As You See Television charged today that subscription TV would cost an average family \$1156 a year for the type of programs now received free.

In comments filed with the Federal Communications commission, the committee said its \$1156 figure was based on present televising habits in the American home. It said the amount did not include an estimated \$80 for the cost and installation of an "unscrambler" for the set itself.

the New PACKARD with Torsion-Level Ride

SMOOTHS THE ROAD... LEVELS THE LOAD... Automatically

Rest assured... with Packard Torsion-Level Suspension you get the most relaxing, most reassuring ride on any road today! Packard eliminated conventional coil and leaf springs, and designed Torsion-Level Suspension not just for cushioning effect, but to absorb all twisting forces due to up-and-down wheel movement... the same twisting forces that in other cars pitch and bounce the passengers, wrack the car frame and body. A unique power-controlled Levelizer keeps the car automatically at ideal ride level, no matter what the passenger or luggage load. Packard created a new "free-breathing" V-8 engine, unleashing up to 275 horsepower, and delivering more driving force to the rear wheels at all road speeds than any car! Packard's Twin Ultramatic, smoothest of all automatic transmissions, gives you your choice of starts! The new Packard is a matchless blend of grace and spirit, luxury and good taste... truly, the one new car in the fine car field. Let us arrange a revealing test ride for you today!

Advertising helped make the difference

FOLKS USED TO BUY refrigeration in fifty pound pieces. Frozen foods were unheard of... ice cubes an impossibility... and that drip pan under the ice box always seemed to be overflowing. Today, a silent, white-enamelled ice man stands in millions of kitchens.

But to mass produce millions of refrigerators, manufacturers must be able to sell them by the millions. Only by advertising can a manufacturer talk to millions of people at one time.

ADVERTISING TELLS the story of new refrigerators... and helps sell them. The more it sells, the more must be made — keeping the production lines and the jobs going. The result: newer, better appliances at prices more people can afford to pay. Advertising helped make the difference — in refrigerators, and in our American way of life.
