## New Marine Corps Aviator Training Program Listed

The Marine Corps has announced a new training program for prospective Marine aviators.

The first new program for Marine officers since World War II, the program will result in earlier commissions as second lieutenants for men who desire to become Marine pilots.

The program will be offered to college graduates who will attend a 10-week basic indoctrination course at Marine Corps schools, Quantico, Va. This will give them basic Marine Corps training, with an emphasis on infantry.

Successful graduates will receive Marine Corps commissions and be ordered to active duty as student aviators. Upon completion of flight training, which lasts from 15 to 18 months, they will be obligated to serve a minimum of two years with the air arm of the Marine Corps.

Additional information may be had at the local Marine Corps Recruiting Station located on the second floor of the Medford Post Office.
