Progress Made In Truck Strike

Los Angeles —(U.P.)— Federal Conciliator John Fenton says "definite progress" is being made to end the 22-day-old trucking strike which has crippled freight hauling in 11 Western states.

Fenton said at the conclusion of another marathon negotiating session last night that representatives for the AFL Teamsters and the trucking industry were getting closer to a settlement.

However, he refused to disclose what issues remained unsettled and rescheduled another meeting for today.

Negotiators for both sides, who have refused to comment on negotiations, have said announcement of a settlement would be subject to a vote in the teamster locals. Since the start of the walkout, the union has turned down two company offers.

The teamsters seek an immediate 10-cent hourly pay increase and eight cents additional in each of the next two years.

Magazine Seeks To Quash Suit

Santa Monica, Calif. —(U.P.)— The magazine Confidential sought today to quash a \$1,000,000 suit filed against it by actor Robert Mitchum who accused the publication of giving a false account of his actions at a Hollywood party.

Atty. H. F. Birnham filed a motion for dismissal of the suit in Santa Monica Superior Court yesterday in behalf of Robert Harrison, the magazine's president and publisher.

Mitchum charged in his suit that the magazine falsely stated he took off his clothes at the party, sprinkled himself with ketchup and announced he was a "well-done hamburger."

Birnham asked dismissal on grounds the magazine is not doing and has never done business in California, has no property or assets here and is distributed through wholesalers.

Hearing on the dismissal motion was set on June 7.

Carry-Over Storage In Owyhee To Be Light!

Nysa, Ore. —(U.P.)— By the end of the current irrigation season carry-over storage in Owyhee Reservoir will be less than five per cent of storage capacity, according to Paul House, north board of control manager for the Owyhee Project.

House said the reservoir probably would contain less than 25,000 acre feet of water at the end of the irrigation season. Next season's runoff would have to be normal in order to meet the needs of irrigation farmers next year.

The project official said it was wise to have a "savings account" of extra water in the event farmers are faced with a bad year. In order to do this, House said, above normal runoff would be necessary for the next several years.

Ike Signs Bill To Hike Fund for Indian Ground

Washington —(U.P.)— President Eisenhower signed into law today a bill increasing to \$185,000 the authorization for funds to replace Indian fishing grounds along the Columbia river which were inundated by Bonneville dam.

Originally \$50,000 was authorized for the purpose. The Army engineers told congressional committees that increased costs for land and unlooked for expenses for access roads and other facilities at new sites made the increase necessary.
