

EXPELLED BY REDS — The Chinese Communists expelled Roman Catholic Bishop Frederick A. Donaghy (above) of Fall River, Mass., on charges of "subversive activities." After crossing the border at Hongkong and traveling by train to Kowloon he looked tired, but appeared to be in good condition.

Reds Snuffing Out Religion in China, Ousted Bishop Says

Hong Kong — (U.P.) — Roman Catholic Bishop Frederick A. Donaghy, 52, of New Bedford, Mass., said Saturday that the Communists are gradually snuffing out religion in Red China. Bishop Donaghy, who has spent 26 years in China as a Maryknoll missionary, arrived in Hong Kong Friday after being expelled by the Reds from his Xuchow Diocese for "subversive activities."

He told a press conference that it was "untrue" that there is freedom of religion in Red China.

Under the Communist regime, he said, the faithful manage to "keep alive" their religion, but they cannot do so openly.

The bishop said the Reds maintain a "constant wearing down" process to keep Catholics from attending mass.

Great Odds
He said the people have persisted in their religion as much as possible against great odds, despite intimidations and outright threats not to attend services.

But the eroding effect of the Communist anti-religion campaign apparently is beginning to show, he added.

The white-haired bishop, who had not seen a foreigner in four years and who has not been in the United States in 17 years, declined to answer questions pertaining to military affairs or economics in Red China because he felt there might be repercussions against Catholics still in China.

Trumped-Up Charges
Bishop Donaghy said the Chinese Reds arrested him in December, 1950, on "trumped-up charges of having a package of opium and a revolver" in his home.

He said the evidence unearthed by the Red security police obviously was planted.

The Reds jailed Bishop Donaghy for five months until May, 1951, when he was released after still refusing to confess. He said he did sign a paper saying a revolver and opium were found in his home, but not saying that he knew it was there.

Menon Meets U.N. Secretary Behind Guarded Doors

United Nations — (U.P.) — India's V. K. Krishna Menon and United Nations Secretary Dag Hammarskjöld conferred behind guarded doors for 90 minutes today. Neither would comment on the talks.

In a departure from normal custom, UN guards barred newsmen from the 38th floor of the world organization headquarters where the two men conferred in Hammarskjöld's office. UN officials said this action was taken at Hammarskjöld's order.

Menon was affable as he left the building but he refused substantial comment to a covey of newsmen awaiting him at the UN main entrance.

The Indian trouble-shooter did say he saw nothing to occasion headlines in the next few days, but when a reporter asked if that meant he did not believe Red China could release 11 American airmen it has sentenced as "spies," he replied: "I did not say that."

The cork oak tree is recognized for its shading branches.
