Terry Cloth Used For Cushion Covers

New for lawn furniture this summer are "terry toppers." Thick, fluffy terry cloth is used in a group of covers for lawn furniture cushions. With elasticized binding and mitered corners, the terry cloth covers fit smoothly over a chaise lounge or other cushions.

In addition to the lawn furniture covers, the cotton terry is also made up as an auto seat topper for summer. These toppers are custom fit for the front seat of any car. Elastic gores and adjustable tapes make it easy to install and remove.

The terry toppers, which come in several solid colors, can be washed with ease and require no ironing.
