

PAPAL FLAG COMES DOWN—An unidentified official takes down the Papal flag from the Congress building in Buenos Aires as President Juan Peron's campaign against the Roman Catholic Church stirs the Argentine capital. Peron's government arrested and expelled from the country two of the church's highest dignitaries. Deported by plane were Msgrs. Manuel Tato, acting archbishop of Buenos Aires, and Ramon Carlos Mova, both natives of Argentina.

On The Side

By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

What style exploitation genius was responsible for women to again consider the petticoat an important part of the attire of a woman of fashion? Especially the type known as the "bouffant" petticoat. That style is said to have saved the lingerie industry from bankruptcy. The underwear manufacturers were really on the road to ruin until the undershirt revival got under way. The textile manufacturers were suffering, too. How about your industry, sir? How are you doing? Could one good idea put you well into the black?

Asides

The name Dorothy means "Gift of God." So you know that. Do you know the meaning of the name "Mabel"? It means "Lovable." How does this meaning check with the capacity of affection of girls named Mabel you have known? ... Am asked how many years Britain's Anthony Eden had been married when divorced by his first wife. Answer is, twenty-seven years. Eden married Clarissa Spencer Churchill, niece of Winston Churchill.

Passing By

Sheree North. Shapely, sultry scintillating siren of the cinema. In view of the fact Miss North was once suggested as a replacement for Marilyn Monroe, our feminine subscribers may find her measurements of interest. They are height, 5 feet 4½; bust, 35½; waist, 23½, and hips, 35½.

Brides

The average Irish girl becomes a bride for the first time at 28. Average English girl makes her first trip to the altar when 26. If an American girl isn't married by the time she is 21 she begins to think of herself as an old maid.

Asking

Queries from clients. O. Why has Ann Miller never been selected to be Fred Astaire's dance partner in a film? My husband says it is because Ann is a tap dancer and not a ballroom dancer. Is that the reason? A. My understanding is that when Miss Miller was suggested to be Fred Astaire's dance partner he expressed the view that she was too tall for him. That he believed dance partners should be the same height. ... Q. Am told the speediest divorce ever granted in Reno, Nev., was that of Barbara "Bobo" Rockefeller. Right? A. No, sir. Not even nearly right. The divorce acquired by Mrs. Rockefeller had a trial lasting fourteen minutes. While I do not know the record for any one Reno divorce, a lawyer of that city is credited with having obtained there six divorces for clients in 22 minutes. That is an average of less than four minutes per divorce.

Horses & Women

What size shoe does your secretary wear? What width does she require? People with wide feet are said to be much more efficient and intelligent than those with narrow feet, there isn't much you can do about it. However, the next time you engage an amanuensis you better measure her feet. As for you, young fellow, if you can't make up your mind which two girls you should marry, take the one with the widest feet.

Sidelights

It is said that those who should know that the type of girl who best understands the technique of seduction and is, therefore, the most enjoyable to kiss is the green eyed honey blonde. ... Manhattan has an organization of professional baby sitters called The Safety Pin Club. Quite an appropriate name. Another good name for a group of baby sitters would be "The Rock-a-Bye Baby Club."

Record

Among the innumerable records held by Brooklynites is that

of the country's top all-daughter family. The Porsi family, long residents of the beautiful borough across the bridge, have fourteen daughters and no sons. The Porsi girls range from 15 to 41 years of age. Nine are married. As for the all-boy family record, it is held by the Jones family of Peterstown, W. Va. In that family there were 17 sons and no daughters.

Up the Ladder

First song written by Carrie Jacobs Bond was titled "Is My Dolly Dead?" It brought her practically no financial return. Shortly after that her husband, Dr. Frank Lewis Bond, was killed in an accident. Depending on self-support Mrs. Bond tried to make a living painting china. She then had the idea of publishing her own songs. A Swedish printer extended her credit. Jesse Bartlett Davis, the singer, loaned her \$200. Walter Gale, a druggist, bought a one tenth interest in the Bond publishing business for \$1,500. Mrs. Bond's first hit was "The End of a Perfect Day," which sold over six million copies.

Portland Refuses Pinball Licenses

Portland (U.P.) — The Portland city license bureau Friday refused to accept the checks or to sell licenses for non-coin-in-the-slot pinball machines when a few operators applied to pay the fee.

Operators contended that the city ordinance outlawed only coin-in-the-slot devices and that the others are legal. But City Attorney Alexander Brown directed Harold Ennor, chief of the license bureau, not to accept the applications. Ennor said about 25 of the city's 70 pinball operators applied for licenses and presented checks for \$17.50 plus \$30 for each machine owned.

John Reynolds, attorney for one group of pinball operators, said he did not intend to contest the city's refusal to accept the checks.

Meanwhile two Portland law firms joined with Reynolds in seeking a court injunction against the city to restrain it from forcing operators of non-coin machines out of business.

Coal actually is more valuable per ton than a ton of gold ore. The Homestake Gold Mine at Lead, S.D., — the nation's largest gold mine — gets only an average of \$12.40 worth of gold from each ton of ore. A good grade of coal costs nearly \$20 retail in South Dakota.

Amoebas move by rolling their bodies along a surface.

ANNOUNCING he will "probably" go to Russia for talks on unification, West German Chancellor Konrad Adenauer assures President Eisenhower in Washington he will stand by Western powers. (International)

SAFEWAY proudly presents
