

House Expected To Authorize Trinity Project; Vote Slated Thursday on Hells Canyon Dam

Washington — (U.P.) — The House was expected to pass late today a bill authorizing the

\$225,000,000 Trinity River project in California.

"I don't know anybody against it," said Rep. Clair Engle (D-Calif.), author of the bill and chairman of the House Interior committee which handled it.

Least Controversial

It was the first, and apparently the least controversial, of four major water and power projects pending in this Congress to come to a House vote.

A bill to authorize a \$160,000,000 version of the Upper Colorado Project is awaiting a vote by the full Interior committee after winning subcommittee backing last week. The Senate has passed a \$1,500,000 version.

The Senate Interior Committee has recommended a bill authorizing the \$156,000,000 Frying Pan-Arkansas Project and House committee hearings are to be completed shortly on a similar measure.

Hells Canyon Vote

The Senate committee is scheduled to vote Thursday on a bill to authorize the \$350,000,000 Hells Canyon dam on the Idaho-Oregon border. House hearings on the project will be held in July.

The Trinity project would di-

vert some 700,000 acre-feet of water from Trinity river, normally flowing directly into the Pacific, into California's Central Valley. On its way, it would go through four power houses with a total installed capacity of 233,000 kilowatts.

Carpenters, Employers Set Strike Conference

Portland — (U.P.) — Federal Mediator Leroy Smith called representatives of striking carpenters and employers into a conference this afternoon to discuss possible ways to end their dispute.

He said he made the move in the public interest because no progress was being made by the principals in getting the strike settled. Major construction here has been halted by the three-week long walkout over the union's demand for a 10-cent hourly pay increase.

PETROLEUM AREAS

Oklahoma City—Areas favorable to the discovery of oil and gas in the U.S. are estimated at more than one billion acres. Of this vast domain, about 15 percent is held under leasing rights.

EXPRESSING CONTEMPT after being jailed for stabbing teacher at New York's Joan of Arc junior high school, Jose Vargas, 17, appears unconcerned after being booked. James O'Farrell, who was knifed after ordering Vargas from class, is in critical condition at Knickerbocker Hospital. (International)

Survey Scheduled For New Highway On South Coast

Salem — (U.P.) — The State Highway commission said today it has approved a survey for a new section of the Oregon Coast highway between Coos Bay and Bandon that would shorten the motoring distance between those two cities by eight miles.

The new route of the Oregon Coast highway would leave the present coast highway at Delmar, about halfway between Coos Bay and Coquille, and take off on an entirely new course, eliminating numerous curves.

Approve Survey

The commission approved a survey and an economic analysis of the project.

The commission plans to use the fifth floor of the state highway building here for communications facilities and other purposes. The floor formerly was occupied by the Oregon Liquor Control commission and the state purchasing division.

The commission denied the Hood River Chamber of Commerce permission to install scenic road signs on state highways in the Hood River valley.

CITY EXPANSION

Detroit—This city's planning commission says the metropolitan area, which had 3,016,197 people in 1950, will expand by at least 50 percent in 20 years.

Prisoner Recaptured Minutes After Escape

Salem — (U.P.) — A trusty who "wanted to help his wife" was captured here Sunday just a few minutes after he escaped from the state penitentiary grounds.

Warden Clarence Gladden said the prisoner, Emile Ebert, apparently got a letter from his wife saying she was in financial difficulties and thought he could leave the prison to give her some help.

Ebert is serving a five-year sentence from Multnomah county for burglary not in a dwelling.

DEATH RATES

Washington—The Korean war killed 33,417 Americans during its duration. In the same period about 650,000 Americans died as a result of cancer.

Idaho Lists 90th Polio Case of Year

Boise — (U.P.) — Idaho health authorities yesterday listed the state's 90th polio case of the year—a case of "true" polio in a two-year-old boy in Sandpoint.

By "true" polio, the department indicated that physicians could find no apparent connection with the mass inoculation program last April in which about 32,000 children received Salk vaccine.

Of the 90 cases, there have been 18 which were not connected with the vaccine program, another 21 cases among vaccinated children and 51 among persons who were closely associated with children who received the serum.

Battling Housewife Freed from Hospital

Brattleboro, Vt. — (U.P.) — Mrs. Lucille Miller, 44, mother accused of urging youths to ignore the draft law, has been ordered released immediately from a federal mental institution.

U.S. District Judge Ernest W. Gibson directed Mrs. Miller's release yesterday and ordered a hearing June 27 to determine if she is mentally competent to stand trial.

Mrs. Miller and her husband, Manuel, 46, held off federal marshals May 3 for 11 hours when they came to take Mrs. Miller

to St. Elizabeth's hospital in Washington, D.C. They were subdued by tear gas and Mrs. Miller has been in the Washington hospital for tests since.

Miller is awaiting trial on an indictment charging he obstructed federal officials. He is free in \$10,000 bail furnished by his Bethel, Vt., neighbors.

LONGER LIVES

Washington—White females in the U.S. have a life expectancy of at least six years more than white males at date of birth, according to statistical studies.
