

The G-E TV set pictured on this page is a 21-inch console, model 21C107. It has an aluminized picture tube and dark safety glass. When you compare this picture against the picture on one of our sets without an aluminized tube—you can easily see the difference. Most people agree that the aluminized tube makes a big improvement in a TV picture.

Immediate installation. Our TV Service Department works Wednesday nights. If you buy a TV set tonight they will deliver and install the set for you this evening. Or, if more convenient call us at our new number 3-5395, or 2-5595 and we will bring a set out to you and install it tonight. Of course, you must be satisfied with your TV set—or your money back.

**MAIN STORE  
115 E. Main  
BARGAIN STORE  
303 S. Front**

By the way, one of our salesmen was sliding one of these sets across the floor the other day. That is not unusual, we do it all of the time. What IS unusual the doggone legs came off the set! Joe did not panic though, because he knew at 303 South Front Street we have a Bargain Store for just such occasions. . . . Did You? P.S. — You'll find this "lo-boy" (fully repaired) at our Bargain Store . . . at a reduced price. They are open tonight too.

**NO DOWN PAYMENT — ON — APPROVED CREDIT**  
We have terms and payments to fit your individual needs. For example, you can buy the set pictured here for nothing down and 11.84 a month. We have other General Electric TV sets that are also good buys. Our 17-inch Table Model—without aluminized tube—sells for 139.95. Our 17-inch set with aluminized tube and dark safety glass sells for 159.95. If your need is for a 17-inch set, or a big console, we have the set to fit your needs—and your money back—if you are not satisfied.

**BOTH STORES OPEN TILL 9 P.M. TONIGHT**
