

NOTHING DOWN ON APPROVED CREDIT

HERE IS YOUR TICKET

to some of the world's finest entertainment delivered right into your living room. Truly, a million dollars worth of exciting entertainment . . . it does not cost you that much though! You can buy this 21-inch G-E TV Console for \$239.95. Pay nothing down, and only \$11.84 a month. All parts—including the picture tube—fully guaranteed for one year.

If you have been waiting for just the "right" buy before getting a set (or trading your old one in) . . . wait no longer. Here's YOUR TV set—with famous G-E quality, performance, and dependability. And the price is right.

One of the quickest ways to determine if an item is priced right is to count the number that have been sold. It is reasonable to assume if the item is continuing to sell in good quantities—the price is right. This General Electric TV set is selling in good quantities. Drop in tomorrow and let us show and demonstrate this 21-inch G-E TV set to you . . . you'll be glad you did.

LET'S TALK PICTURE TUBES

The G-E TV set pictured on this page has a 21-inch aluminized picture tube, and dark safety glass. A G-E aluminized tube gives the picture whiter whites and blacker blacks for greater contrast.

When you compare this set's picture against the picture of one of our other models without an aluminized tube—you can easily see the difference. Come in and let us show you.

Most people agree that the G-E Aluminized Tube does make a big improvement in a TV picture. Remember you must be satisfied—or your money back.
