## Democratic Changes In Social Security Measure Indicated

BY UNITED PRESS

House Democrats have tentatively revised two of their three proposals for liberalizing the social security law in an apparent effort to hold down the cost, informants said Saturday.

The Republican spokesman on social security matters, Welfare Secretary Oveta Culp Hobby, had estimated the original Democratic plan would cost more than \$2,000,000,000 annually over the years.

**May Clear Way**

Some members of the House Ways & Means Committee said the tentative cost-reducing decision may clear the way for consideration of other proposed changes in the social security law.

Democrats originally proposed letting all eligible women start drawing social security benefits at 60 instead of 65 and paying benefits to all permanently disabled workers regardless of age.

But informants said that under the tentative changes benefits would go at age 60 only to women who are widowed after they reached 55. Single women who were widowed before reaching 55 would still have to wait until they are 65 to draw benefits under the revisions.

**Change in Age**

Under the other change, totally and permanently disabled workers would be eligible for immediate benefits only if they were disabled at age 50 or older.

Committee members indicated they had made no substantial change in a third Democratic proposal to extend social security benefits to mentally or physically incapacitated children of deceased workers beyond the present cut-off age of 18.

**Other congressional news:** Benefits: Members of Congress are quietly negotiating for improved "fringe benefits" to go with their recent \$7,500 annual raise. The proposals, already approved by House leaders, would provide additional paid trips home, an extra clerk, a double telegraph allowance, an increase long distance telephone allowance and an extra stationery allowance.

**Knowland:** Senate Republican Leader William F. Knowland, "more in sorrow than in anger," told reporters Indian Prime Minister Jawaharlal Nehru has shifted from being a neutral to "almost a broker in Soviet policy." Knowland has been particularly critical of Nehru's recent joint declaration with Russia that Red China should be admitted to the United Nations.

**Dixon-Yates:** Rep. Joe L. Evins (D-Tenn.) said now that the city of Memphis, Tenn., is building its own steam generating plant

there is no need at all for the controversial Dixon-Yates power project. He called on President Eisenhower to state his views anew on the subject since, he said, the President once suggested that Memphis build its own power plant.

**Servicemen's Benefits:** A special House committee has agreed informally on legislation to bring all servicemen under the social security system on the same basis as civilians. The bill also would increase government compensation payments to servicemen's survivors and would abolish the \$10,000 free insurance now granted servicemen.

**Reserves:** A House Armed Services subcommittee has granted a request by the National Association for the Advancement of Colored People to hold a hearing Monday on President Eisenhower's compromise military reserve bill. The original bill bogged down in the House because of a segregation amendment. But the subcommittee has scheduled a vote Tuesday on a compromise version which bypasses the racial issue.

**Lobbying:** Sen. John F. Kennedy (D-Mass.) has introduced a bill for a general overhaul of the lobbyists' registration law. It would, among other things, outlaw contracts under which lobbyist's fees are determined by how well they do their jobs.

## Eisenhower Sees Bright Future for Scouting in U. S.

New Brunswick, N. J. — (U.P.) President Eisenhower told the Boy Scouts of America Saturday that the dedication of its new national headquarters near here signifies "a bright future for scouting."

Mr. Eisenhower, in a message sent to Dr. Arthur A. Schuck, chief Scout executive, said the dedication "reflects the growth which has taken place in the scouting movement during recent years."

He said he is "looking ahead to a bright future for Scouting and to its continued effectiveness in helping mold the character of young Americans."

"It is gratifying that over 1,600,000 boys and leaders have joined the ranks of the Boy Scout organization since 1948 and that the total number of members is moving toward the 4,000,000 mark," Mr. Eisenhower said.

The President is honorary president of the Boy Scouts. His message was read at the dedication ceremony by John M. Schiff, president of the National Council.

**LAKE COUNTRY**

Minnesota has 11,002 known lakes according to state figures.

## New York Police Seek Teen-Ager Who Ordered Death

New York — (U.P.) — Police searched the gang-dominated section of East Harlem Saturday for a tough little teen-age gang leader known as "Caesar" who reportedly decreed the cold-blooded revenge murder of a 17-year-old member of a rival mob.

Detectives Friday arrested four sneering youths who drew lots to determine who should carry out the revenge decree. They also held a 14-year-old girl

who later hid the murder weapon.

**Killed in Store**

The victim, Carlos Luis Feliciano, was killed Thursday night by a single shot from a sawed-off .22 caliber rifle as he stacked groceries on the shelves of a store where he worked. Police said Feliciano was a member of the "Viceroy's" gang.

Louis Ramirez, 16, volunteered to substitute as the killer, police said.

The youths jeered, sang and laughed at their arraignment Friday and carefully combed their hair before letting news photographers take their pictures. At one time they smiled so broadly that police told them to "keep a straight face."

## Washington Milk Price Basis Change Expected

Ellensburg — (U.P.) — All milk in Washington will be priced on a total solids basis in the near future, Dr. Walter J. Willis, Washington State College marketing specialist, predicted Friday.

Willis told the junior chamber of commerce rapid tests for non-fat milk solids already are in the experimental stage and should be in commercial use within a few years. He also predicted all or nearly all rural collections of milk for fluid use would be made by tank.

Police said the gang leader, known only as Caesar, ordered that Feliciano had to "burn" for the knife fight, believed to have been waged over the girl. "Burn" is a gaudland synonym for violent death.

**Draw Paper Slips**

The four youths drew slips of paper to determine who would do the killing and the slip marked "B" for burn went to Emanuel Granna, 17. He quailed at the prospect, however, and

## Peron Seeks New Interior Minister

Buenos Aires — (U.P.) — President Juan D. Peron is seeking a new interior minister to replace Angel Borlenghi, who has held the top police post since Peron began his first term in 1946, it was reported Saturday.

The entire cabinet resigned Thursday to give Peron a free hand to make any changes he considers desirable as a result of the revolt a week previously.

The names of the new cabinet will not be announced officially until Monday at earliest, informed sources said. They predicted, however, that two top men will be replaced—the ministers of interior and air.

Changes also are anticipated in the less important ministries of education, communications and agriculture.

## COLOR BLINDNESS

New York — Red-green color blindness affects about eight per cent of all men, but only about one per cent of all women.

## Romulo To Replace Molotov on Program

San Francisco — (U.P.) — Brig. Carlos P. Romulo, U.N. delegate from the Philippines will substitute for Soviet Foreign Minister V. M. Molotov on the television program, "Face the Nation," the Columbia broadcasting system said Saturday.

Romulo will be interviewed by James B. Reston, Washington correspondent for the New York Times; Arthur Sylvester, Washington correspondent for the Newark, N.J., News, and James Shepley, Chief of Time Magazine's Washington Bureau. The moderator will be Ted Koop, CBS director of news and public affairs in Washington.

Molotov's appearance on the program was cancelled when he refused to allow impromptu questioning by the panel.

## ICE CREAM CONTENT
