Ex-Red Testifies About Party Control

Troubled with GETTING UP NIGHTS
Pains in BACK, NEPS, LEGS
Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that give temporary relief will not remove the causes of your troubles. Neglect of Glandular Inflammation often leads to premature senility, and incurable malignancy. The past year men from 1,000 communities have been successfully treated here at the Excelsior Institute. They have found soothing relief and a new zest in life. The Excelsior Institute, devoted to the treatment of diseases peculiar to older men by NON-SURGICAL Methods, has a New FREE BOOK that tells how these troubles can be corrected by proven Non-Surgical treatments. This book may prove of utmost importance in your life. No obligation. Address: Excelsior Institute, Dept. 7111, Excelsior Springs, Missouri.

IT'S COMFORTING TO KNOW

Thanks to your writings and especially Little Lesson No. 5, writes an Iowan, no member of my family has had a cold in the past three years.

Having studied Little Lesson No. 5 an intelligent person must realize that it is stupid to call any ailment a "cold."

What would you think of a teacher, nurse or doctor who looked at Johnny's throat, pronounced it "just a cold" and told Johnny to remain in school, if your Gerald or Geraldine, in Johnny's class, presently came down with measles, meningitis, infantile paralysis or diphtheria?

Wisconsin sexagenarian with the ideas of a nonagenarian says a recent article in this column, in which I tried to insure readers that chills, wet feet, drafts, etc., have nothing to do with susceptibility to the cri (kree, common respiratory infections) was "the same old ballyhoo. You invite physicians to challenge you about this. Why should they? You are helping their business."

Why don't I let my hair down (if I have any) and give in and admit I'm stubborn? How about one-third or more of the people who are 60 percenters and haven't the resistance that soldiers, sailors, explorers, hunters, fishermen, forest rangers and other vigorous young men have?

And so on, yakety-yak. Having needed me cruelly the man parries the blow I was ready to deliver by adding that 'we have been reading your articles for 15 years or more. We hope you live forever and keep on writing. Use my name if you want to.'

I don't like soft soap, Mister. I don't really hanker after any kind of soap. So I beg to remind you that nobody has proved scientifically that ordinary "exposure" to wet feet, drafts, chills, insufficient cloth-

ing, sudden change of weather or environment or dampness causes or predisposes to illness. I didn't invite physicians to challenge me. I merely promised to print the statement of any physician who desires to refute what I say about "resistance."

I say no physician can define "resistance" or show that there is such a state, apart from immunity.

It would be so silly to imagine or imply that wet feet, drafts, etc., have any effect on any immunity one happens to have against a specific disease, that the lamebrains have to conjure up something elusive and intangible to yakety-yak about, and "lowered resistance" suits the requirement.

There are circumstances under which it should be comforting to know that, short of frostbite or freezing, exposure to cold and wet is harmless.

QUESTIONS AND ANSWERS
Piles
What can be done for internal thrombosed hemorrhoid (pile) short of surgery? We never miss your column. (R. W. S.)

Answer—Thrombosed means clotted—clotting is the way nature cures piles—if you have the fortitude to endure the pain and disability long enough, I'd prefer ambulant (injection) treatment if I were the patient. Send stamped, self-addressed envelope and ask in writing, signed, for pamphlet "YOU NEED NOT HAVE PILES. Notice how nice the old geezer is about it—no suggestion of stupidity! I wish a few thousand readers would miss this column when it doesn't appear and let the publishers know about it."

For years I had so much phlegm in my throat . . . no doctor ever suggested a remedy that helped—read in your column about B deficiency, and by the time I had finished one bottle of B-nutrient tablets . . . can scarcely believe the improvement. (Mrs. H. W. L.)

Answer—Neither can I, but anyway the B tablets can do no harm. Inside View of Pyorrhea Treatment
Appreciate your articles on pyorrhea. I worked in the office of a dentist who specialized in that field. In twelve years is seemed to me that treatment was of no avail. (Mrs. H. W. L.)

Answer—So-called pyorrhea is not a disease but physical degeneration—in my opinion, but in Little Lesson No. 1. SAVE YOUR TEETH, for which send 35c and stamped, self-addressed envelope, I give a fair view of what recognized authorities say about it. (Protected 1955 by John F. Dille Co.)

16,000 Idled by Wildcat Strikes

Detroit — (U.P.) — Wildcat strikes at General Motors and Chrysler Corp. plants idled almost 16,000 workers Saturday. Some 8,500 GM workers remained off their jobs at the Willow Run transmission plant as a wild meeting of 500 members of CIO United Auto Workers Local 735 ended in disorder Friday night after a vote to continue the walkout.

The strike began Wednesday when a handful of tool sharpeners protested the three-year contract reached between GM and the union June 13. They demanded an eight cent hourly pay boost which was given to skilled workers instead of the six cent increase they received.

SALT CONTENT
Salt Lake City — Great Salt Lake waters are said to be about seven times more salty in content than average ocean waters.

LAND OCCUPANCY
Chicago — Towns of 1,000 or more population occupy about one percent of all U. S. land.

Investigators To Check Into Nominee for AEC

Washington — (U.P.) — Sen. Clinton P. Anderson announced Saturday he is sending two investigators to Des Moines, Ia., to check into Allen Whitfield, whose appointment to the Atomic Energy commission has been under fire.

Anderson, chairman of the Senate - House Atomic committee, said the investigators will see Whitfield July 7 and that the committee will open hearings on the nomination "as soon thereafter as Whitfield desires."

The questions are known to involve Whitfield's role as a trustee for the estate of the late

Navy Expert Warns Against Peace Ship

Washington — (U.P.) — Adm. Hyman C. Rickover, the navy's top atomic expert, warned in testimony released Saturday that building President Eisenhower's proposed around-the-world atomic peace ship would delay the navy's own nuclear ship program.

At the same time, members of the atomic energy commission insisted "we are not going to build this ship at the expense of submarines or the airplane or any

COPPER OUTPUT

Phoenix — Arizona produced about 394,000 tons of copper valued at \$227,000,000 in 1953.

The military views were given at a recent secret hearing before a subcommittee of the senate-house atomic energy committee. The heavily censored testimony was made public Saturday.

Milwaukee, Wis. — (U.P.) — National Democratic chairman Paul M. Butler said Saturday Republicans are throwing a "one-two punch at labor unions" on the national level and in state legislatures.
