Wall Street

New York (U.P.)—The month of June ended on a strong note on the Stock Exchange today.

June was the fifth month this year for the leading averages to register new bull market highs. Rails were well below their top made a short time ago, but industrials set a new record high. Net gains extended to more than 3 points in the main list. Much wider gains appeared in stocks not included in the group making up the averages.

The outstanding performer was Reynolds Metals which, at its high of 217, a new top, represented a gain over the previous close of 14 points.

Gaylord Container responded to the company's plan to merge with Crown Zellerbach by rising more than 7 and holding most of the gain. The latter was depressed as much as 3 3/4 points, part of which was regained. There were gains of 2 or 3 points in such issues as Alcoa, Dixie Cup, Du Pont, Evans Products, Missouri Pacific Preferred and Monterey Oil.

Dow-Jones final stock averages: 30 industrials 451.38 up 1.68; 20 railroads 160.95 up 0.15; 15 utilities 63.34 up 0.21 and 65 stocks 164.15 up 0.46.
