School Board Plans Purchase of Site

The board of directors of School District 49 has made arrangements for the purchase of a 35-acre site north of Medford for the construction of a new high school, if one is needed in that area in the future, it was reported last week.

The site is off the old Crater Lake highway, to the east, just north of Spring st., according to School Superintendent E. H. Hedrick. The property is being purchased from the Phipps family.

While the entire 35 acres would not be used as a school site, Hedrick explained that the larger area is advantageous for several reasons, among them controlling the laying out of streets in a school area. Lessons learned in earlier school site purchases shows that it is better to have too large an area, rather than too little, he added.

The purchase is in conformity with the board's policy of obtaining school sites in strategic locations for future needs and if they arise. The board has never lost money on such a purchase.

Yreka To Ballot on Swimming Pool Plan

Yreka—A special bond election will be held Aug. 2 for approval of funds to build a new swimming pool.

The Yreka city council last week passed an ordinance calling for the special election. The present pool, which councilmen have termed inadequate and "worn out," would be replaced with one costing \$70,000, financed by the bond issue.

The sum represents a maximum price for the pool, and councilmen have said that if prices exceed this figure, the bonds will not be sold.

4-H Club News

Ruchettes
The Ruchettes sewing club had their third meeting June 23 at the home of Thirley Dunlap. There were nine members present.

The fourth meeting was held June 28 at 7 p.m. at Lona Buffington's home. There were 10 members present. We had one visitor. Much progress was shown in all the projects. The next meeting is to be held July 5 at 7 p.m. at the home of our leader, Mrs. Williams.

Ruch 4-H Club
The Ruch 4-H Livestock and Electricity club met June 27 at the home of our leader, Ed Fossen. We now have two more electricity members, Gary Fossen and Noel Dunlap.

We had a report from Nancy Redhead on her trip to 4-H summer camp and we talked about donating money to the scholarship fund, and voted to elect Shirley Dunlap as senior leader.

Sailor Held Following Fatal Traffic Mishap

Seaside—(U.P.)—Thomas Earl Philbrook, 17, son of Mr. and Mrs. Earl Philbrook of Gearhart, was killed Friday when struck on a Seaside street by a car driven by Frederick William Ford, 25-year-old Navy man stationed at Tongue Point, Ore.

Ford was taken into custody by Seaside police after he was apprehended by a Pacific Power & Light line crew that witnessed the mishap.

Police Chief Sydney Smith of Seaside said young Philbrook, who was a junior at the Seaside high school, was walking along Roosevelt drive to his work at a local service station when he was struck by the Ford car.

Dead line Sunday Classified is at noon Saturday; 1 a.m. Monday for Monday; other days 5:30 previous day.

On The Side

By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

High on the list of forgotten men are those who invented things that have meant, and continue to mean, so much to so many people. For example, who invented the windshield wiper for automobiles? Who originated the paper clip? Who was the inventor of the automatic dial system telephone? Who thought up the idea of the light socket that permits the moving of lamps about? Who invented the electric self-starter for automobiles and thus relieved autoists of the terrible task of cranking to get the motor going?

Names
Am informed that at an Air Force base in California there is a United States Army sergeant whose first name is Doris. Not only that, his wife's name is Johnnie. I still can't understand why parents should give a male child such a name as Doris. However, that is not the topper. A San Francisco couple named their male child Cleopatra. As an adult he became a longshoreman, and retained the first name his parents gave him!

Great Lover
The poet Byron, rated one of the greatest lovers of all time, had difficulty in getting a date with a beautiful girl when he was 18. He was then much too fat to be a heart throb. Weighed 200 pounds. He went on a diet. In time he reduced to 143. Many glamorous females then went wild over him. Byron had a quaint reduction diet. It consisted chiefly of biscuit and soda water. So though he became a great and much sought after lover, he ruined his stomach with his curious diet and passed on at the age of 36.

Heredit
A man of great physical strength inherits that characteristic from his mother. Doesn't make any difference how small his father is. So those who should know frequently claim. Anyway, they could prove it by John L. Sullivan, the great heavyweight boxer. John's mother was a tall, strong woman. His father was small. Also Rocky Marciano's father is somewhat small. Rocky's mother is well built and quite strong.

Get It Right
What is the first line of the poem by Samuel Woodworth titled "The Old Oaken Bucket"? That seems a simple question. Yet it is one of the most misquoted of all poetic lines. Grantland Rice won considerable money wagering fellows they couldn't quote the line correctly. Majority would say it is "How dear to my heart are the scenes of my childhood." That's wrong. It is "How dear to this heart are the scenes of my childhood." Keep that in mind, sir. Not "my heart" but "this heart." Maybe you can win a few wagers on it. Even college professors frequently quote it wrongly.

Records
Billy Sunday, the evangelist, was once a major league baseball player. The first thirteen times Sunday went to bat for "Crap" Anson's Chicago Cubs he struck out. If that isn't the record for consecutive strikeouts by one player, what is? At one time Fred Allen, the airwave comedian, was one of America's greatest users of tobacco. He smoked

fifteen cigars a day and in between chewed tobacco.

Proposals
How far do you go on refusing to take "no" for an answer? How many times did you propose to the girl who became your bride before she accepted? Or did she propose to you? Anyway, Andre Kostelanetz proposed to Lily Pons thirteen times before she accepted.

Californian Seeks News of Old Friend

James D. Demuth, a former resident of Klamath Falls who now lives at 4604 36th st., Sacramento, Calif., was a Medford visitor last week, and dropped in to the Mail Tribune seeking information about an old friend whom he knew in the mid-1920s.

The man in whom he was interested was named Cone or Cone'. Demuth recalls, but he wasn't sure about the first name. But he did remember that Cone had long flowing hair and a beard, and was noted for the fact that for a number of years he was a lookout in the now-discarded station on top of Mt. McLoughlin.

None of the "old timers" on the Mail Tribune staff were around during Demuth's visit, and the younger members had only vague and hazy recollections of having read about the man he described. It is thought that a number of Medford residents must know of Cone's history, and might be interested in letting Demuth know at his Sacramento address.

Daughter of Pioneers Passes in California

Word was received here last week of the death of Mrs. Laura Clarke, daughter of a southern Oregon pioneer couple, and widow of William J. Clarke, member of a pioneer Willamette valley family.

Mrs. Clarke died in Kelseyville, Calif., where she was visiting her daughter.

Born at Jacksonville in 1873, Mrs. Clarke was the daughter of Mr. and Mrs. Fred Luy. Her father came from Germany and settled in the pioneer town in 1851 after the migration pushed northward from the California gold rush.

Mrs. Clark had lived for many years at Gervais and Portland. She is survived by one daughter, Mrs. Frances Stockum, Kelseyville; a sister, Mrs. Nell Kelly, Oakland, Calif., and a brother, George (Harry) Luy, Medford.

Lumber Firm To Resume Operation of Mill

Harry Dowson, of the Jackson Creek Lumber Co. announced last week that the Continental Lumber company has given up its lease of the sawmill near Jacksonville, and that the Jackson Creek firm will resume its operation on Tuesday.

Dowson said that it is hoped to operate the mill all winter, possibly on a two shift basis, which would mean the employment of 30 to 50 men.

Construction Starts On New Fire Station For C.P. Rural Area

Preparation of land for a White City fire station in the Central Point Rural Fire protection district started last week, and construction of the \$21,000 building is expected to begin within 10 days.

Excavation for building footings started Friday after filling was done at the site, located at the corner of Agate st. and Avenue G. The building, which will

Two Men Sentenced For Drunk Driving; One Denies Guilt

Two men were sentenced in district court Friday and Saturday on charges of driving automobiles while under influence of intoxicating liquor and a third man entered a plea of innocent on a similar charge.

Ted Amos Bates, 52, Shady Cove, and William Joseph Wilken, 63, Camp White, entered pleas of guilty and were each fined \$250 and assessed \$5 court costs, according to court records. They were sentenced to 30 days in jail to be suspended on payment of fines. Both were committed to the county jail in lieu of payment of fines. Neither had a driver's license and their rights to apply for licenses were suspended 90 days, the court reported.

Car Hit Another

Wilken was stopped on Highway 62 about five miles north of Medford and Bates, whose car struck the rear of another, was arrested also on Highway 62 about 18 miles from Medford. Both arrests were by state police.

Raymond Wayne Hicks, 28, of 1238 Northwest Hawthorne st., Grants Pass, a freight truck driver, entered the innocent plea. Trial date is yet to be set. He was committed to jail in lieu of \$255 bond. Hicks was arrested by state police on Highway 99 just north of Ashland.

Seven Mine Claims Filed With County

Seven notices of mining claim locations were filed with the Jackson county recorder's office on Friday.

Ben Furch, route 1, box 182, Talent, filed notice for a 20-acre placer mining claim known as Jackpot in the Applegate district. It was formerly known as the Eureka claim.

Four quartz locations for mercury and other minerals were filed for three men. They were Panther claims Nos. 1, 2, 3 and 4 in the East Evans Creek district. Two were filed for James H. Holtzclaw, one for George Haas and one for Sam Edwards.

Lawrence M. Wilson, Ashland, filed for the Morning Star quartz claim in the Cow Creek district and Elmer R. Scott, Merlin, filed for a lode claim near Guleway gap in the Green Mountain district.

Eighteen affidavits of labor on mining claims were filed Friday as miners met the July 1 deadline.

THIS MAN CAN GIVE YOU BETTER HEARING!

You don't want gadgets if you have trouble hearing—you need the help of an experienced, local hearing aid expert, backed by a nationwide organization producing fine instruments year in and year out. That's what you will get for your money when you place your trust in Sonotone, world's leading hearing aid manufacturer and distributor. No high pressure selling but friendly help in finding the right hearing. We have helped hundreds of our neighbors—we can help you. Before you buy any hearing instrument, find out good hearing can be—the Sonotone way.

Legion Studying Building Expansion

The American Legion Post 15 is studying the possibilities for development of the present Legion property at 531 South Riverside ave., according to Bud Fisher, newly-elected commander.

A building committee consisting of Tom Shepard, chairman, Fred Beck, Joe Fliegel and Clark Walker has been appointed to investigate the feasibility of rebuilding or enlarging the post's hall.

Now Too Small
The present home is much too small for the members of Post 15, Fisher said. "With the Legion program growing larger each year, it is imperative that a large meeting hall be available."

Fisher added that if such a meeting hall is built, it will be available for any civic use in the betterment of the city of Medford.

The contracting firm of Besonette and Graff has been enlisted by the building committee to study the plan's possibilities.

ASSISTANT NAMED

Portland (U.P.)—Ed War-moth, former Newport radio and newspaper man has been named assistant director of the Portland Traffic Safety Commission, City Commissioner William A. Bowes announced.
