

Eagle Point HEC Meeting Reported; Contest Explained

Eagle Point—The Eagle Point HEC met June 29 at the home of Mrs. Lillian Force for potluck picnic. The six guests present were Mrs. Vivian McLean, Mrs. Mannie McKay, Mrs. Lula Ward, Mrs. Beverly Bishop, Mrs. Dorothy Clover and Mrs. Edith Poe. Mrs. Bessie Eberts resigned as greeting card chairman and Mrs. Ida Kent was appointed to succeed her. Mrs. Rosa Smith told of recent visits to Shady Cove HSC and Gold Hill HEC meetings.

Mrs. Edith Poe, Pomona HEC chairman, explained a Wheel of Progress contest and told of sewing contest entries shown at a State Grange convention. Mrs. Amelia Jones reported on a display table and asked for favorite crocheted or embroidered work to put on the next display table. Articles for the rummage sale tentatively set for the last Friday and Saturday in August are to be taken to the Grange hall. Mrs. Poe donated iris to the club and it was decided that the money realized from these would go for foreign aid.

Next meeting to be held at Mrs. Winnie Brown's home with Mrs. Goldie Chamberlain as co-hostess. A dessert luncheon will be served.

Grants Pass AAUW Announce Annual Art Exhibit Dates

Wallace S. Baldinger and Nelson Sandgren, both well-known in Oregon art circles, have been selected as judges for the eighth annual Southern Oregon Art exhibit, scheduled for July 15 to 17 in the Grants Pass high school library.

The show, which is sponsored by the Grants Pass branch of the American Association of the University Women, is open to all artists in southern Oregon, who may submit up to five pictures in any media which have been completed in the past five years. A special division in sculpture will be judged if enough interest is shown. The entry fee is \$1 for adults and 25 cents for artists under 19 years of age. Entries will be classified into elementary, junior high, senior high school and adult divisions. Oil paintings are to be framed and others matted. All must be marked on the back with the name of the artist and carry a statement of value for insurance purposes. All works are to be titled.

No advance registration for the exhibit will be required. Entries will be received from 10 a.m. to 4 p.m. on July 10 and 11 at the high school library. Judging will take place July 14, and the show will be open to the public July 15, 16 and 17.

Dr. Baldinger, AB, AM, PhD, curator of the University of Oregon museum of art at Eugene, and associate professor of the history of art at the university, is the author of numerous articles dealing with art. He has studied in the United States, Mexico, Japan, and at the University of Paris, including in his studies many different media and national types of art.

Nelson Sandgren, BA, MFA (painting and drawing), teacher of painting and design at Oregon State college for the past seven years, has studied both in the United States and in Mexico, where he lived and painted for 18 months. Mr. Sandgren has exhibited pictures in Mexico City, the Library of Congress, Rochester, N.Y., Denver, and in many Pacific Coast exhibitions.

Picnic

Westminster guild members will meet for a picnic Monday, July 11, at 8:30 p.m., in Tou-Velle park. Those attending should meet at the First Presbyterian church at 6:15 p.m. Table service is required.

New Silicone Product Waterproofs Leather

New York (U.P.)—A new product for tanning leather allows your shoes to stay soft and flexible after you walk in the rain.

The secret lies in silicones—a common element that hates water.

The "Sylflex" treatment is applied in the tannery with the silicones in a liquid state.

Here is what happens to the shoe uppers: a water-repellent silicone film lines each of the millions of "pores" in the shoe. This keeps the water out and allows the shoe to "breathe."

In ordinary shoe leather water is pumped into the shoe, entering readily through the invisible openings.

Sylflex leather is versatile. It can go into dress shoes, work shoes and golfing shoes. It's also ideal for children's shoes, since

it gives youngsters added protection against wet feet.

Ultimately, the new type leather may go into auto upholstery. This means the day could come when you park your convertible and don't worry about rain spoiling the upholstery.

Silicones themselves have been on the scene for some time,
