Eagle Point Council Story is Corrected

Eagle Point — Water rates have not been lowered in Eagle Point as was incorrectly reported in the Mail Tribune last week. Only the water hook-up rates have been changed, according to Mrs. Minnie Hinson, city recorder.

The water connection rates for private homes and businesses have been standardized with those now in effect in Medford.

In the same story, it was also reported that the new fire truck cost \$13,000, and that the cost of the West Main st. improvements came to \$1,800. These sums are the balances left, and not the full price, Mrs. Hinson said. She added that these are the only debts the city had remaining from last year.
