**Girls Arriving for Miss Universe Contest**

Long Beach, Calif. — (U.P.) — Eight shapely contestants from scores of nations were arriving in Long Beach by plane today to compete in the impending Miss Universe contest for the title of the most beautiful girl in the world.

The most recent arrivals included Emilia Correia Lima, Miss Brazil; Isabel Sardi, Miss Argentina; Maribell Arrieta, Miss El Salvador; Keiko Takahashi, Miss Japan; Inge Hoffman, Miss Uruguay, and Lenor Carache, Miss Ecuador.

The total of 82 contestants will appear in Veteran's Memorial stadium here Saturday night for the premiere opening of the beauty pageant.

"Miss U.S.A." will be selected next Wednesday night in Municipal auditorium. The climax of the pageant will come next Thursday night with the crowning of "Miss Universe."

**Egypt Gives Warning On Suez Shipping**

Cairo, Egypt — (U.P.) — The Egyptian information department said today that Egypt would counter force with force if Israel attempted to drive its shipping through the Suez Canal by military might.

The statement came in a comment on an election speech by Israeli Defense Minister David

**Chadwick Delayed By Fog in Try at English Channel**

Dover, England — (U.P.) — Sudden fog forced American long distance swimmer Florence Chadwick to postpone the season's first attempt to swim the English Channel round-trip today.

The San Diego swimmer arrived at the beach before dawn, but an early morning fog rolled in and her trainers decided to delay her take-off for a second time. She hoped to try later tonight.

"I could not take off because we heard the fog was very thick on the French coast and wasn't showing any sign of lifting," she said. "There was a chance the boats might have missed me on the other side. I am terribly disappointed. Everything seemed perfect."

Ben Gurion at Beersheba.

In his speech, the former Israeli premier said that if he won the forthcoming Israel election his government would assure the freedom of navigation from the Israeli port of Elath on the Gulf of Akaba to Asia and Africa "if necessary with the help of the navy, air force and the army."

Egypt has been blockading Israeli shipping through the Suez Canal.

**To Seek Return Record**

Miss Chadwick was to start her attempt to break the England-to-France channel swimming record yesterday, but postponed the effort twice because of unfavorable weather forecasts.

When she reaches France, Miss Chadwick plans to swim back as far as possible toward England. She already holds the record for swimming from England to France and two and a half miles back on the return journey, a mark set in 1953.

Another channel contender, Toronto's Marilyn Bell, 17, fell ill of a throat infection yesterday and had to put off indefinitely her attempt to conquer the treacherous waterway.

She had hoped to become the youngest channel conqueror when she made her bid July 18. But now she expects to wait until mid-August.

**Dixon-Yates Foes To Oppose Payment for Contract Cancellation**

Washington — (U.P.) — Senate opponents for the Dixon-Yates power contract today promised an all-out fight against payment of any damages for the contract's cancellation.

Chairman Clinton P. Anderson (D-N.M.) of the House-Senate Atomic Energy Committee said "not one dollar" should be paid the Dixon-Yates utility combine for the cancellation. Under the contract, Dixon-Yates was to build a \$107,000,000 steam power plant at West Memphis, Ark., and transmit power into the government-owned Tennessee Valley Authority at Memphis, Tenn.

**Settlement Feared**

Anderson expressed fears that the Eisenhower administration might try to settle secretly with the Dixon-Yates group for "several million dollars."

To block such a settlement, Anderson insisted that the Atomic Energy Commission carry out the cancellation which President Eisenhower Monday directed that Attorney General Herbert Brownell Jr., handle.

Anderson's committee has the authority by law to keep a close check on AEC actions.

The AEC signed the Dixon-Yates contract for the government because the Dixon-Yates power going into the TVA system at Memphis was to replace TVA electricity supplied to AEC installations elsewhere.

**Liberal Settlement**

The White House has indicated that the Dixon-Yates group would be given as liberal a cancellation settlement as possible.

A special Senate Monopoly Subcommittee investigating the Dixon-Yates contract has requested Comptroller General Joseph Campbell to hold up any damage payments for cancellation.

The subcommittee, headed by Sen. Estes Kefauver (D-Tenn.), advised Campbell that the contract never had become effective and therefore there was nothing to be cancelled.

This opinion was based on a provision stating that the contract would not be binding until financial arrangements had been approved by the Securities & Exchange Commission. The matter still was pending before the SEC when the cancellation was announced.

The Joint Atomic Committee sharply questioned AEC Chairman Lewis L. Strauss and AEC General Counsel William Mitchell yesterday about the cancellation.

Mitchell gave an opinion that the contract became effective Sept. 17, 1954, and that the government is liable for cancellation damages of an unspecified
