

Enthronement To Be Solemn Beginning of Eucharistic Congress

Rio De Janeiro — (U.P.) — The enthronement of Benedetto A. Cardinal Masella, personal representative of Pope Pius XII, and all other cardinals on the monumental altar marks the solemn beginning tonight of the 36th International Eucharistic Congress.

Peron Opponents Watch for Sign of Dictatorship End

Buenos Aires — (U.P.) — Political opponents of President Juan D. Peron kept a close watch today for signs that the days of dictatorship may be over.

Congress was in session Monday for the first time since Peron pledged to give up all special powers and to restore full constitutional government to the country. Congress had been in recess since June 30.

Legislators and the Ministry of Interior were expected to play leading roles in backing up Peron's pledges with action. Political observers believed this week could be one of the most crucial in the country's political history.

While the congressional session officially began Monday, it was not expected to produce any concrete action before Wednesday at the earliest. Congressmen from remote interior points were still on their way to the capital.

Peron's opponents, who looked with a wary eye on the President's promises last Friday, sought indications that the state of internal war will be lifted as promised. They said this would be strong proof of Peron's sincerity.

Certain Rights Suspended

The country has been in a state of internal war since 1951. As such, the President has exercised special powers and certain civil rights have been suspended.

In a speech to the Congressional leaders of the Peronist party last Friday, Peron resigned as head of the party and promised his political opponents full exercise of their rights. He promised to give up his special powers and to end the dictatorship form of government in force since 1951.

The installation of the cardinals on their individual thrones, one of the highlights of the week-long congress, will be followed by the delivery by boat of the Blessed Sacrament.

The sacrament will be brought across Guanabara Bay in a torchlight procession and enshrined on the altar in Congress Square.

Quarter-Million Pilgrims
Francis Cardinal Spellman, archbishop of New York, was to arrive this afternoon aboard the S.S. Brazil to complete the record attendance of 18 cardinals at the congress. Some 100 bishops and archbishops are participating along with an estimated 250,000 pilgrims.

Jaime de Barros Cardinal Camara, of Rio, will deliver the welcoming address to Cardinal Masella, an extremely popular figure in the Brazilian capital. The papal delegate served as papal nuncio (ambassador) here for 17 years, ending in 1948.

Masella will read a papal bull to the throngs in mile-square congress square following his installation. Jose Costa Nunes, president of the permanent committee of the Eucharistic Congress, will also speak.

In the purely ritual sense, the congress will not open until Wednesday when a solemn Pontifical Mass will be celebrated by Fernando Cardinal Quiroga Palacios, archbishop of Santiago de Compostela, Spain.

Eucharistic Blessing
This afternoon, Abel Isidoro Antezana, archbishop of Lapa, was to officiate at a eucharistic blessing for all sick and crippled at the congress altar.

In one of the few actual congress activities Monday, Cardinal Benjamin Arriba Castro of Spain celebrated a solemn high mass in Candelaria church for Spain's national holiday.

Earlier, Cardinal Masella told a news conference that the Pontiff is "in good health" although he works harder than his associates would like to see him work. The cardinal said the Pope's dedication to the church is so great that "he works beyond his own endurance."

Howard Hughes Sells RKO Pictures

Las Vegas, Nev. — (U.P.) — Millionaire Howard Hughes sold RKO-Radio Picture, Inc., Monday to the General Tire and Rubber Co. for \$25,000,000 cash in a deal believed to be the largest single transaction in the history of the motion picture industry.

An announcement said payment is due to be made by check on July 25. The transaction was believed to be one of the largest cash sales by an individual in the history of American finance.

The contract was signed by Hughes and Thomas J. O'Neill, vice-president of the rubber company and president of General Teleradio, Inc., and Mutual Broadcasting System, which are subsidiaries of General Tire and Rubber.

The studio will be taken over by General Teleradio. The new owner also will acquire control of about 400 old films and some new ones. It was believed they would be shown on the Mutual Television Network.

O'Neill said no immediate personnel changes were planned as a result of the change in ownership.

Fierce Storm Damages Washington Farmland

By UNITED PRESS
A fierce summer storm brought hail and lightning to eastern Washington and northern Idaho Saturday night, causing at least one death and thousands of dollars damage to farmlands.

The hailstones, described as big as baseballs, pelted a strip of land in Lincoln and Stevens counties in eastern Washington. At Kewa, Wash., Delbert Duffner, 24, was killed when lightning struck a tree under which he sought shelter from the storm which struck as he was haying on his father's ranch.

Numerous forest fires were reported in the two states but none of them was serious, forest service officers said.

Railroad wheels under tests are run as fast as 140 miles per hour.

RESPONDING QUICKLY to "Marian Method" polio treatment, Mrs. Bonnie Lou Campbell, 20, of Ellinwood, Kan., is able to support her own weight (right) after only six days of Dr. E. J. Ackley's treatment at Immaculate Conception Clinic in North Kansas City. Mrs. Campbell was paralyzed from hips down (left) when she entered clinic. (International)

Woman's Hunger Strike in 4th Day

Miami — (U.P.) — A distraught husband tried today to persuade his wife to call off a hunger strike "unto death" which he blamed on "a case of having too much religion."

Earl Blumenbach, an appliance dealer of Coral Gables, Fla., said his wife, Martha, 52, was weak but not in a serious condition as she entered the fourth day of her fast protesting military service for their son.

Blumenbach said she has consumed nothing but water since late Friday, the day their son, Dr. Thomas Blumenbach, 26, entered service at the Public Health Marine Hospital at Savannah, Ga., as a dental assistant.

"She's very religious but it's a case of having too much religion," he said. She has had several nervous breakdowns and she has had a lot of things on her mind.

Mrs. Blumenbach said she rejected an appeal from an instructor from her church, the Silent Unity Church, who said she "was using force instead of prayer."

"But I'm not using force — I'm using meekness," she said.

Four Persons, One by One, Killed by Electric Shock

Alexandria, La. — (U.P.) — A 10-year-old boy told today of a freak accident in which his father, his sister, a friend and a passing motorist were killed one by one as they came to his assistance.

Stunned by Charge
The boy, Willie L. Voorhies Jr., said his family had been visiting friends and were preparing to leave Monday night in the family automobile. Willie went first to the car and was stunned by an electric charge when he touched the metal body of the automobile.

Willie's father, Willie L. Voorhies Sr., 33, rushed to help him and was killed when he touched the car. Linda Carolyn Voorhies, 6, a sister of the injured boy, touched the car and she too was killed.

The next victim was William L. Brassette, 31, at whose home the Voorhies had been visiting.

Portland Girl Dies In Freak Accident

Portland — (U.P.) — A six-year-old Portland girl was killed instantly Saturday night in a freak accident on the Sunset highway one-half mile west of Cornelius road.

Caryl Dianne Powell, daughter of Mr. and Mrs. Owen Wilbur Powell of Portland, was riding on a mattress in the back of her father's pickup truck.

A gust of wind blew off the truck's canopy and carried the mattress with it. Caryl was carried into the path of an oncoming automobile.

A passing motorist, Y. E. Tillman Jr., 32, stopped to investigate, touched the car, and was killed also.

Line Knocked Down
Police said a 110-volt electric line was knocked down during a rainstorm and fell on the automobile charging it with current. Willie Voorhies, the sole survivor of the tragedy, was taken to Baptist hospital. Attendants said he had suffered burns but was in good condition.

+ **new power**... the highest octane in Chevron history is now yours... thanks to another development at Standard's refineries. It's an all-new gasoline process that means more power for today's high-compression engines — more knock-free reserves for mountain grades, stop-and-go town driving, and the open road!

+ **"Detergent-Action"**... this Chevron exclusive cleans away carburetor deposits while you drive... ends the biggest cause of engine trouble! And Chevron gasolines are now specially refined to control a major source of harmful combustion acids... to preserve the life and power of your engine up to 125% longer!

+ **balanced performance**... you get not 1, not 2, but every gasoline feature: increased gas mileage, smooth idling, and stall-prevention with "Detergent-Action" + fast starting + quick warm-up + surging acceleration + extra power + high anti-knock + area blending + rust and corrosion prevention + vapor-lock protection + longer engine life.

Chevron Supreme for knock-free performance in high-compression cars;

Chevron Regular for peak power in engines with lower octane requirements.

There's only one way to prove performance: on the road. Judge for yourself — try a tankful today!

We take better care of your car
