

Wakefield Tells Plan For Continuing Firms Hit by Recent Blaze

Wakefield Drapery shop, which was burned out of the second floor of the Will Hansen building July 1, will open temporary quarters in the Littrel Parts building on Sixth st. in about 10 days, Wayne Wakefield, owner, said yesterday.

temporary quarters on North Bartlett st.

Both Will Return

He said both businesses expect eventually to move back into a new Hansen building at the corner of Bartlett and Sixth sts.

Robert Rector, owner and manager of Medford Furniture company, was out of town yesterday and unable to attend the roundtable.

The fire, which started in a mattress storage room on the second floor, was reviewed by Fire Chief Gordon Barker and Wakefield, both of whom pointed out that highly inflammable material was stored on the second floor, and that roof vents and an elevator shaft contributed to spreading the fire rapidly.

Records Saved
Wakefield said "something good came out of the fire" and advised other businessmen to "make sure your records are in a fire proof container." He said the outside of his safe was extensively damaged from intense heat, but when he opened an inner compartment, records were not scorched or wet.

Wakefield said he closed the shop early Friday, July 1. After hearing fire sirens and saw smoke rising, he said he thought "that it was pretty close to home." When he arrived at the scene, he was unable to go upstairs, he said.

He said when he left the building, he noticed a dim light in the mattress storage room, and assumed someone was in there looking for mattresses.

Inflammable Material
Chief Barker said materials used in wrapping mattresses was tested after the fire, and was found to be highly inflammable. He said the 100-foot by 115-foot second floor had no fire stops, and the only partitions were easily ignited.

He said 32 of 37 paid firemen answered the general alarm, along with 11 volunteers. He added several spectators assisted and "some didn't."

Firemen attempted to control the blaze from the roof, he said, but each time they attempted to break a hole through which to pour water, flames followed the axe out. He ordered everyone off the roof when it started to settle rapidly, Chief Barker said.

A free will offering will be taken from among the members at the next Grange meeting, Aug. 12, to be contributed to the muscular dystrophy fund.

It was voted to hold only the business meetings in July and August, both meetings falling on the second Friday of each month, and omit the social meetings due to this period of heavy farm work.

The power company will have men at the Grange premises Friday, July 22, to fall certain dead trees hazardous to the property. It will be necessary for workmen to be present to cut trees up after they are fallen. All of those who can, are requested to be present to cut wood and clean up the debris. It is hoped that there will be sufficient turn out of labor to accomplish other clean up projects about the hall. The ladies will supply a hot-luck lunch at noon.

The Grange ladies are reminded that HEC meets at the hall to quilt on Wednesday, July 20.

The lecture and social hour honored the 70-year-old members. Those honored were seated at a table especially arranged and decorated. They were asked to reminisce from childhood memories of July 4th celebrations or other interesting incidents.

An interesting program of readings and songs was arranged.

Mrs. Scott displayed a unique apron which was loaned by Mrs. George Carter and worn by Mrs. Carter's father, Welburn Beeson, in the early days of the Grange. It was a small lap apron of khaki colored material, rounded at the bottom and fashioned to tie around the waist with a small bib which hung down over the skirt of the apron and was printed with an old fashioned walking plow. The skirt of the apron bore the name, "The Ashland Grange." The Ashland Grange is now known as the Bellview Grange.

It was explained that each Grange member wore an apron of this type to the meetings.

The lecturer read an excerpt from Mr. Beeson's diary and sent by Mrs. Carter, regarding a meeting at which leading farmers of the area came by horse and buggy or on horseback to gather together for the purpose of organizing a farm group, the first to be organized in the county.

This was an interesting account of what may have been the nucleus of the Grange in the early days, as this meeting took place before the birth date of the Grange.

The Upper Applegate Grange extends thanks to Mrs. Carter for the interest she has shown us in sending these historic items to our meeting.

Girl's Polar Bear Story Proven True

Southsea, England — (U.P.) — "Where did you get the black eye?" eight-year-old Susan Reed's mother asked when the girl came home with a shiner Monday.

"A polar bear hit me," Susan answered.

When the girl persisted in the answer, Mrs. Reed checked and found a polar bear had hit the girl with its paw when she tried to pet it at a circus.

Bandits Relieve Man of \$68,000

Greenville, Tenn. — (U.P.) — Bandits last night talked their way into the home of John Bohannon, 74, a businessman with a reputation for keeping large sums of cash on hand, and robbed him of \$68,000.

He tried to resist and they beat him.

Mrs. Bohannon said the men talked their way past her on pretext of being salesmen who wanted "to show John a catalog." But as soon as they got inside they quickly drew guns and told Bohannon:

"John, we want your money."

Bohannon made a lunge for the pistol held by one of the men.

Efforts to force him to divulge the location of a safe were futile, despite threats and a severe beating.

Bohannon and his wife were trussed up and the bandits took all the money in their victim's pockets, about \$68,000. While the men were upstairs looking for the family safe, Bohannon broke his bonds and went to his car for a gun, but when he returned the robbers were gone.

Potato Growers Name Advisory Group

Salem — (U.P.) — Potato growers and shippers and sellers organizations in Oregon yesterday organized a 12-man advisory committee to consult with the State Department of Agriculture on regulatory and inspection matters affecting the potato industry.

Roy M. Snabel, Powell Butte, was named chairman and Merrill Webb, Redmond, was elected secretary. Both men are members of the Oregon-California potato market area committee.

The group moved to add a grower from the Willamette valley, a shipper from Malheur county and to increase the Portland Produce Credit Association representation to both a wholesaler and a broker. This makes the committee consist of 12 members instead of nine as had been planned.

Complete committee personnel will be announced before the next meeting, scheduled for August 18 in Salem.

Willamette Searched For Springfield Man

Eugene — (U.P.) — Sheriff's deputies and skin divers today searched the Willamette river near Judkins Point at Eugene's eastern outskirts for Ira Simmons, 52-year-old Springfield, Ore., man.

Simmons was presumed drowned last night after he apparently slipped from the top of the Eugene mill race diversion dam while fishing. Another Springfield man, James R. Mattson, said he jumped into the stream after Simmons but was able to find only the missing man's hat.

Jerry Lake and Bobo Clingman, the two skin divers who last week recovered the body of Sacramento auto dealer Earl Smith from the McKenzie river, today joined the Simmons search with aqua-lung equipment.

24 East German Miners Die in Fire

Berlin — (U.P.) — Twenty-four miners were killed and 96 were injured when fire broke out in a Communist East German uranium mine, the Soviet zone radio announced today.

The radio broadcast said the disaster happened in a mine at Nieder-Schiema in the Soviet zone province of Saxony.

It said the 24 died of smoke poisoning, with the other 96 in hospitals.

The broadcast gave no further details, and did not say when the accident took place.

New Stamp To Honor Susan B. Anthony

Washington — (U.P.) — A new 50-cent stamp honoring Susan B. Anthony, pioneer crusader for women's suffrage, will go on sale Aug. 25, Postmaster General Arthur E. Summerfield announced today.

The stamp will be sold first at Louisville, Ky., where the Society of Philatelic Americans will open its annual convention Aug. 25.

Portland — (U.P.) — Lt. Col. Julian Crow, commander of the 497th fighter-interceptor squadron at Portland Air Force Base since 1953, has been reassigned to the Air Command and Staff School at Montgomery, Ala.

New commander of the squadron is Major Robert M. Bell, former operations officer.

Dorothy Kirsten Weds Professor at UCLA

Hollywood — (U.P.) — Famed opera soprano Dorothy Kirsten honeymooned today with her third husband, Dr. John Douglas French, professor of surgery at the UCLA medical school.

The ceremony was performed yesterday at the Congregational church of nearby San Marino by Dr. Bertrand D. Crist. About 100 close friends of the couple attended the wedding.

It was the second time Miss Kirsten has wed a doctor. Her second husband, Dr. Eugene Chapman, died 18 months ago. She was divorced previously from Edward M. Oakes, New York radio producer. It was the first marriage for French.

Grange

Butte Falls Grange
The Butte Falls Grange met July 11 with 15 members and officers present. Master Ted Fredenburg presided.

Frieda Moore, community service chairman, reported on the activities that are being done toward the contest. The erection of street signs was one, and the work on the Community hall was discussed. Elga Abbott gave a report on the work that has been done, and proposed a motion that the Grange members participate in the work on given week ends, providing the other clubs in the community participate. The motion passed and all Grange members will be notified as to the work, as soon as an arrangement can be worked out with the other clubs.

HEC Chairman Minnie Green announced the picnic for the club to be in the park at 12:30 p.m., July 20. Bring your own service, and a friend.

Social Chairman Elga Abbott announced a progressive dinner for the social night, July 22.

The lecturer's program consisted of games concerning safety in the home. Bruce and Ella Pingle served refreshments. The next Grange meeting will be August 1, at 8 p.m. in the high school auditorium. All members are urged to attend.

The July 8 meeting of Upper Applegate Grange opened in due form with Pearl Byrne, master, in the chair.

The chaplain reported that Louise Dunlop has a broken foot which occurred in a fall when she was descending a stairway in her home. She is able to walk with aid of a crutch.

A free will offering will be taken from among the members at the next Grange meeting, Aug. 12, to be contributed to the muscular dystrophy fund.

It was voted to hold only the business meetings in July and August, both meetings falling on the second Friday of each month, and omit the social meetings due to this period of heavy farm work.

Judge Lenient With Stowaway To Hawaii

Honolulu — (U.P.) — Lewis Ensted, Los Angeles aircraft worker who stowed away aboard a United Airlines plane last week on an "emotional decision" to see his girl friend in Hawaii, has been let off with a light \$375 fine.

Federal Judge Jon Wiig said he was being lenient with Ensted because of a plea for leniency by Ensted's girl, model Patricia Warren, and Ensted's excuse.

Ensted said he made his "emotional decision" when he bid goodbye to Patricia in Los Angeles last week. He stowed away on the first plane he could sneak aboard, then turned himself in to the pilot shortly after the plane took off.

He could have gotten a \$1000 fine and a year's imprisonment.

Auto Workers Study Offer by Chrysler

Detroit — (U.P.) — The CIO United Auto Workers said today it would resume contract talks with Chrysler Corp. "as soon as we have had an opportunity to study the company's latest offer."

Negotiations were broken off indefinitely yesterday after the company presented the union an offer believed closely parallel to the settlement reached between the union and Ford Motor Co. and General Motors Corp.

UAW secretary-treasurer Emil Mazy said the union would contact the company, the last of the industry's "big three," and arrange for resumption of negotiations as soon as the study of the offer was completed.

Neither side would divulge the contents of the offer.
