ARMSTRONG *Miracle* TUBELESS WHITE SIDEWALL TIRES

**With "Ounce of Prevention" Safety
Discs That Can Save Your Life!**

With ordinary tires, tread ribs of your tires tend to compress into a smooth and slippery surface. That's because ribs squeeze together under pressure — just like the edges of your fingers when you make a fist. So the tread loses its vital grip on the road... and you skid!

With life-saving Armstrong Tires, the tread can't compress! Can't squeeze together — can't lose its grip! "Ounce of Prevention" discs between ribs keep the gripping edges apart... like your fingers when you put rubber discs between them. You don't skid!
